Slavic Languages A Condensed Survey

Michael Hoelscher

Slavic Languages A Condensed Survey:

Slavic Languages Roman Jakobson, 1963 Slavic languages Roman Jakobson, 1966 *Slavic Languages. A Condensed Survey ... Second Edition* Roman O. YAKOBSON, 1955 **Slavic languages, a condensed survey, by Roman Jakobson, ... 2nd edition** Roman Jakobson, 1955 *The Slavic Languages* Edward Stankiewicz, 2015-02-06 No detailed description available for The Slavic Languages *The Slavonic Languages* Professor Greville Corbett, Professor Bernard Comrie, 2003-09 In this scholarly volume each of the living Slavonic languages are analysed and described in depth together with the two extinct languages Old Church Slavonic and Polabian In addition the various alphabets of the Slavonic languages particularly Roman Cyrillic and Glagolitic are discussed and the relationships of the Slavonic languages to other Indo European languages and to one another are explored The last chapter provides an account of those Slavonic languages in exile for example Russian Ukrainian Polish Czech and Slovak in the USA Each language chapter is written by an expert in the field in a format designed for comparative study Information on each language includes an introductory description of social context and development where appropriate a discussion of phonology a detailed presentation of synchronic morphology noting major historical developments comprehensive treatment of syntactic properties a discussion of vocabulary an outline of main dialects and an extensive bibliography listing English and other sources **Routledge Dictionary of Language and Linguistics** Hadumod Bussmann, 2006-02-20 The Routledge Dictionary of Language and Linguistics is a unique reference work for students and teachers of linguistics The highly regarded second edition of the *Lexikon der Sprachwissenschaft* by Hadumod Bussmann has been specifically adapted by a team of over thirty specialist linguists to form the most comprehensive and up to date work of its kind in the English language In over 2 500 entries the Dictionary provides an exhaustive survey of the key terminology and languages of more than 30 subdisciplines of linguistics With its term based approach and emphasis on clear analysis it complements perfectly Routledge's established range of reference material in the field of linguistics *A selected bibliography of Slavic linguistics 1* Edward Stankiewicz, Dean S. Worth, 2015-08-31 No detailed description available for A selected bibliography of Slavic linguistics 1 The Major Languages of Eastern Europe Bernard Comrie, 2002-09-11 Based on Comrie's much praised *The World's Major Languages* this is the first comprehensive guide in paperback to describe in detail the language families of Eastern Europe and includes an introduction which surveys the field **Languages and Their Status** Timothy Shopen, 1987-01-29 An introduction both to languages themselves and to their social role *Languages and Their Status* gives insight into the meaning value and function of language within culture and into the ways language behavior varies and changes It examines the part languages play in the evolution and structure of communities and in turn the ways languages are shaped by the social forces impinging on their speakers Each chapter discusses what it means to be a speaker of a particular language and puts that language in context among the languages of the world This volume is complemented by a second volume entitled *Languages and Their Speakers* also available from the

University of Pennsylvania Press The Languages of the Soviet Union Bernard Comrie, 1981-06-04 A general account of the languages of the Soviet Union one of the most diverse multinational and multilingual states in the world as well as one of the most important There are some 130 languages spoken in the USSR belonging to five main families and ranging from Russian which is the first language of about 130 000 000 people to Aluet spoken only by 96 in the 1970 census Dr Comrie has two general aims First he presents the most important structural features of these languages their genetic relationships and classification and their distinctive typological features Secondly he examines the social and political background to the use of functioning of the various languages in a multilingual state The volume will be of importance and interest to linguists and to those with a broader professional interest in the Soviet Union **To honor Roman Jakobson : essays on the occasion of his 70. birthday, 11. October 1966** , 2018-02-19 No detailed description available for To honor Roman Jakobson essays on the occasion of his 70 birthday 11 October 1966 Research in Education , 1971 *Remarks on the Phonological Evolution of Russian in Comparison with the Other Slavic Languages* Roman Jakobson, 2023-10-31 The first English translation of a classic and groundbreaking work in historical phonology This is the first English translation of a groundbreaking 1929 work in historical phonology by the renowned linguist Roman Jakobson considered the founder of modern structural linguistics A revolutionary treatment of Russian and Slavic linguistics the book introduced a new type of historical linguistics that focused on the systematic reasons behind phonological change Rather than treating such changes as haphazard Jakobson here presents a teleological purposeful approach to language evolution He concludes by placing his book in the context of the exciting structural developments of the era including Einstein s theories Cezanne s art and Lev Berg s nomogenesis The original Russian version of the book was lost during the 1939 German invasion of Brno Czechoslovakia and the only edition available until now has been the French translation by Louis Brun Thus this first English translation offers many linguists their first opportunity to read a major early work of Jakobson Ronald Feldstein a leading Slavicist and phonologist in his own right has not only translated the text from French to English he has also worked to reconstruct something as close to the missing original as possible Feldstein s end of chapter annotations provide explanatory context for particularly difficult passages **Cultural Theory: The Key Thinkers** Andrew Edgar, Peter Sedgwick, 2005-07-28 Featuring over eighty essays Cultural Theory The Key Thinkers is a seminal guide to the literary critics sociologists historians artists philosophers and writers who have shaped culture and society and the way in which we view them Ranging from Arnold to Le Corbusier from Eco to Marx the entries offer a lucid analysis of the work of influential figures in the study of cultural theory making this the perfect introduction for the student and general reader alike **Cultural Imperialism and the Decline of the Liberal Order** G. Doug Davis, Michael O. Slobodchikoff, 2018-12-14 The end of the Cold War heralded in a new era for liberalism Eastern European states adopted democracy and capitalism to gain acceptance by the West Yet a mere two decades later liberalism was in crisis The rise of illiberal democracies and nationalist movements in the second decade of the twenty first

century have left scholars baffled How could this happen Dr s Davis and Slobodchikoff show that the decline of the liberal order lies within its own ideology as it champions freedom liberalism requires its adherents to give up their cultural traditions and adopt the global ethos to be legitimate Through a systematic analysis of Western and Russian soft power in Poland and Serbia the authors explain the decline of liberalism and the battle over the balance of power in Eastern Europe

Jacob Wackernagel, Lectures on Syntax David Langslow,2009-04-30 This book is an English version of two series of highly acclaimed introductory lectures given by the great Swiss linguist and classical philologist Jacob Wackernagel 1853 1938 at the University of Basle in 1918 19 on aspects of Greek Latin and German as languages Out of print in German since 1996 these lectures remain the best available introduction in any language not only to Greek Latin and comparative syntax but also to many topics in the history and pre history of Greek and Latin and their relations with other languages Other subjects such as the history of grammatical terminology are also brilliantly dealt with This new edition supplements the German original by providing a translation of all quotations and examples a large number of detailed footnotes offering background information and suggestions for further reading and a single bibliography which brings together Wackernagel s references and those added in the notes
