Mosaic, 1980 **Liberal Learning as a Quest for Purpose** William M. Sullivan, 2016-06-03 In a remarkable experiment lasting over a decade a group of 88 independent campuses ranging from comprehensive universities to intimate colleges have demonstrated the value of an emerging educational agenda focused on meaning and purpose These programs have shown that college can provide emerging adults with an understanding of themselves within today's insecure and highly competitive world that enhances their ability to develop the grit needed to create meaningful lives By focusing on the exploration of vocation and its theological foundations the programs have produced remarkable outcomes in enhanced student engagement in the learning process and more effective entry into adult life Discernment of vocation provides for many students a synthetic and compelling focus for intellectual and practical exploration Sustained by articulate reflection and grounded in communities of learning that include faculty as well as students undergraduate life takes on new significance and urgency Liberal Learning as a Quest for Purpose analyzes a series of successful efforts to reconfigure undergraduate education as a journey toward life purpose Examining the experiences of students and faculty William M Sullivan reveals the concrete importance of this educational agenda for individual lives and particular campuses By connecting the several dimensions of undergraduate experience through reflection on purpose Sullivan demonstrates how these programs expanded the bandwidth of academic learning in energizing and exploratory ways Within the larger troubled environment of contemporary higher education these pioneering efforts hold promise for a significant rethinking of the undergraduate experience to better serve students and society **SEE Directory of Awards** National Science Foundation (U.S.). Lund, 2007 This collection of case studies describes how instructors have used GIS within the traditions of a classical undergraduate education to help students analyze manage and visualize information in order to create a realistic learning environment in which students practice inquiry in their fields *Student-originated Studies Projects*, 1977 Research in Education, 1974 Directory of Awards National Science Foundation (U.S.). Directorate for Science and Engineering Education, *Theorizing Medieval Geopolitics* Andrew Latham, 2012-03-12 Over the past two decades or so medieval geopolitics have come to occupy an increasingly prominent place in the collective imagination and writings of International Relations scholars Although these accounts differ significantly in terms of their respective analytical assumptions theoretical concerns and scholarly contributions they share at least one common arguably defining element a belief that a careful study of medieval geopolitics can help resolve a number of important debates surrounding the nature and dynamics of international relations There are however three generic weaknesses characterizing the extant literature a general failure to examine the existing historiography of medieval

geopolitics an inadequate account of the material and ideational forces that create patterns of violent conflict in medieval Latin Christendom and a failure to take seriously the role of religion in the geopolitical relations of medieval Latin Christendom This book seeks to address these shortcomings by providing a theoretically guided and historically sensitive account of the geopolitical relations of medieval Latin Christendom It does this by developing a theoretically informed picture of medieval geopolitics theorizing the medieval to modern transition in a new and fruitful way and suggesting ways in which a systematic analysis of medieval geopolitical relations can actually help to illuminate a range of contemporary geopolitical phenomena Finally it develops an historically sensitive conceptual framework for understanding geopolitical conflict and war more generally

Handbook of Theory and Practice of Sustainable Development in Higher Education Walter Leal Filho, Mark Mifsud, Chris Shiel, Rudi Pretorius, 2016-12-01 This Handbook approaches sustainable development in higher education from an integrated perspective addressing the dearth of publications on the subject It offers a unique overview of what universities around the world are doing to implement sustainable development i.e. via curriculum innovation research activities or practical projects and how their efforts relate to education for sustainable development at the university level The Handbook gathers a wealth of information ideas best practices and lessons learned in the context of executing concrete projects and assesses methodological approaches to

integrating the topic of sustainable development in university curricula Lastly it documents and disseminates the veritable treasure trove of practical experience currently available on sustainability in higher education The Murder of Joe White Erik M. Redix,2014-09-01 In 1894 Wisconsin game wardens Horace Martin and Josiah Hicks were dispatched to arrest Joe White an Ojibwe ogimaa chief for hunting deer out of season and off reservation Martin and Hicks found White and made an effort to arrest him When White showed reluctance to go with the wardens they started beating him he attempted to flee and the wardens shot him in the back fatally wounding him Both Martin and Hicks were charged with manslaughter in local county court and they were tried by an all white jury A gripping historical study The Murder of Joe White contextualizes this event within decades of struggle of White s community at Rice Lake to resist removal to the Lac Courte Oreilles Reservation created in 1854 at the Treaty of La Pointe While many studies portray American colonialism as defined by federal policy The Murder of Joe White seeks a much broader understanding of colonialism including the complex role of state and local governments as well as corporations All of these facets of American colonialism shaped the events that led to the death of Joe White and the struggle of the Ojibwe to resist removal to the reservation *The Psychoeducational Assessment of Preschool Children* Bruce A.
