## **The Maces Going West:**

**Southern Quakers and Slavery** Stephen Beauregard Weeks, 1896      Between East and West R. A. Donkin, 2003 Up to including the Age of Discoveries the wealth of the East was thought in Europe to consist primarily of spices aromatics Cloves nutmeg mace sandalwood all were thought to come from a few small islands in easternmost Indonesia which no European reached before 1500 Yet supplies of these luxury products were reaching China India western Asia the Mediterranean lands more than a thousand years earlier This study of Moluccan spices opens with their natural history nomenclature the discovery of the Islands by Europeans near the opposing controversial limits of Spanish Portuguese jurisdiction Donkin traces the expanding interest long distance trade in cloves nutmeg sandalwood first to India then to the adjacent Arabo Persian world The medieval West China lay on the margins of diffusion the former in touch with the Levant the latter with the trading world of South East Asia      *Johns Hopkins University Studies in Historical and Political Science* Johns Hopkins University, 1896      **Citizenship Training in Elementary Schools** Ellie Marcus Marx, 1926      **The Shining Mountains** Dale Wasserman, 1977      The Knights Hospitaller of the English Languge 1460-1565 Gregory O'Malley, 2005-09-22 The Knights of St John of Jerusalem also known as the Hospitallers were a military religious order subject to monastic vows and discipline but devoted to the active defence of the Holy Land After evacuating the Holy Land at the beginning of the fourteenth century they occupied Rhodes which they held into the sixteenth century when their headquarters moved to Malta Branches of the order existed throughout Europe and it is the English branch in the fifteenth and sixteenth centuries that is examined here Among the major subjects researched by O Malley are the recruitment of members of the Hospital and their family ties the operation of the order s career structure the administration of its estates its provision of spiritual and charitable services and the publicity and logistical support it provided for the holy war carried on by its headquarters against the Ottoman Turks It is argued that the English Hospitallers in particular took their military and financial duties to the order very seriously making a major contribution to the Hospital s operations in the Mediterranean as a result They were able to do so because they were wealthy had close family and other ties with gentle and mercantile society and above all because their activities had royal support Where this was lacking or ineffective as in Ireland the Hospital might become the plaything of local interests eager to exploit its estates and its wider functions might be neglected Consequently the heart of the book lies in an extended discussion of the relationship between senior Hospitaller officers and the governing authorities of Britain and Ireland It is concluded that rulers were generally supportive of the order s activities but within strict limits particularly in matters concerning appointments the size of payments to the east and the movement and foreign allegiances of senior brethren When these limits were breached or at times of political or religious sensitivity such as the 1460s and 1530s the Hospital s personnel and estates would suffer In addition more general areas of historical debate are illuminated such as those concerning the relationship between late medieval societies and the religious orders British attitudes to Christendom

and holy war and the rights of rulers over their subjects This is the first such book to be based on archival records in both Britain and Malta and will make a major contribution to understanding the order s European network its place in the ordering of Latin Christendom and in particular its role in late medieval British and Irish society **Journals of the House of Commons** Great Britain House of Commons,1788
