Dental Summary; Australian Edition, 1921 *Australia as the Antipodal Utopia* Daniel Hempel, 2019-10-31 Australia has a fascinating history of visions As the antipode to Europe the continent provided a radically different and uniquely fertile ground for envisioning places spaces and societies Australia as the Antipodal Utopia evaluates this complex intellectual history by mapping out how Western visions of Australia evolved from antiquity to the modern period It argues that because of its antipodal relationship with Europe Australia is imagined as a particular form of utopia but since one person's utopia is more often than not another's dystopia Australia's utopian quality is both complex and highly ambiguous Drawing on the rich field of utopian studies Australia as the Antipodal Utopia provides an original and insightful study of Australia's place in the Western imagination
