modes of feeling associated with the Romantic period continued to influence the cultural history of the the first half of the twentieth century This was the first book to consider the mutual impact of postmodernism and Romanticism A Visual History of Science and Technology Alberto Hernández Pamplona,2016-12-15 This informative book explores some of the greatest figures and movements in science and technology beginning with the ancient Greek philosophers including Pythagoras Democritus Aristotle and Euclid to name a few It then goes on to study later scientific figures such as Nicolaus Copernicus Galileo Galilei Johannes Kepler Isaac Newton Charles Darwin Gregor Mendel and Albert Einstein From there readers learn about the development of technoscience the fusion of technology with science which has established solid ground for computers the internet and critical projects such as the decoding of the human genome and biomedicine With captivating images this book is perfect for any young scientist That's What They Want You to Think Paul
