The Male Lumpectomy:

The Male Lumpectomy Gary Onik, Gary Onik M. D., 2005-02-01 The first pages of this autobiography were written in a time of despair bewilderment and confusion when I was told by a cardiologist that I had only a short time to live Although my wife Nelly my children and I were very upset something good came out of it Without his knowledge the verdict of the cardiologist encouraged me to write down my feelings The result is this autobiography But there is much more to it The Lord encouraged me to air my emotions to write them down but also to share them with you When I followed through on His encouragement He showed me how everything is in His hands and that He works things out according to His plan And what was begun in despair bewilderment and confusion became a shout of victory in Jesus As such this writing reflects the truth that God has a p plan for every person We have not been thrown on this earth and the Lord did not leave us on our own He told us that we are precious in His sight and that He will never leave us nor forsake us that He has a plan for our lives In Jeremiah 29 11 the Lord speaks to us when He says For I know the plans I have for you plans to prosper you and not to harm you plans to give you hope and a future

Prostate Cancer Decoded Robert L. Bard, 2007-12-01 The Facts of Prostate Cancer 2 3 of men over age 50 have low grade tumors or potential cancer cells in their prostate Only 10% will develop clinically aggressive prostate cancer These non invasive exams tell if a tumor is aggressive or not with an accuracy exceeding traditional biopsy results and correlate well with prognosis according to the latest international cancer

Robert L. Bard, M.D., 2007-10-29 Suddenly I couldn't breathe. I was paralyzed from the waist down with acute poliomyelitis, and I now feared my diaphragm was affected. The doctors at the rehabilitation center specializing in this nationwide epidemic had already warned my parents I would never walk, even though I felt some sensation coming back in my right leg. I could hear the muffled mechanical sounds from the next ward. In the adjoining room were the iron lungs for completely paralyzed children to assist with their respiration in hopes they would recover the ability to inhale before they expired. The boys I saw sent to the respirator room never came back. I knew my next stop was the dreaded death ward. I was 14 years old and worried I would not live to be five. *Handbook of Urologic Cryoablation* Daniel Rukstalis, Aaron E.
