A Cultural Approach to Emotional Disorders E. Deidre Pribram, 2016-01-13 In her latest contribution to the growing field of emotion studies Deidre Pribram makes a compelling argument for why culturalist approaches to the study of emotional disorders continue to be eschewed even as the sociocultural and historical study of mental illness flourishes The author ties this phenomenon to a tension between two fundamentally different approaches to emotion an individualist approach which regards emotions as the property of the individual whether biologically or psychologically and a culturalist approach which regards emotions as collective social processes with distinctive histories and meanings that work to produce particularized subjects While she links a strong preference for the individualist construct in Western culture to the rise of the psychological and psychiatric disciplines at the turn of the twentieth century Pribram also engages with a diverse set of case studies tied to psychological and aesthetic discourses on emotions These range from Van Gogh's status as emotionally disordered to the public emotional aesthetics of 19th century melodrama to the diagnostic categories of the DSMs and the fear of globalizing emotional disorders in the 21st century This genuinely interdisciplinary approach makes for a text with potential application in a wide range of disciplines within cultural studies including sociocultural and historical analysis of psychiatry and psychology gender theory subject and identity theory popular culture studies and history and theory of the

The Politics of Emotion Nuria Silleras-Fernandez,2024-02-15 The Politics of Emotion explores the intersection of powerful emotional states love melancholy grief and madness with gender and political power on the Iberian Peninsula from the Middle Ages to the early modern period Using an array of sources literary texts medical treatises and archival documents Nuria Silleras Fernandez focuses on three royal women Isabel of Portugal 1428 1496 queen consort of Castile Isabel of Aragon 1470 1498 queen consort of Portugal and Juana of Castile 1479 1555 queen of Castile and its empire

Each of these women was perceived by their contemporaries as having gone mad as a result of excessive grief and all three were related to Isabel the Catholic 1451-1504 queen of Castile and a woman lauded in her time as a paragon of reason. Through the lives and experiences of these royal women and the observations, judgments, and machinations of their families, entourages, and circles of writers, chroniclers, courtiers, moralists, and physicians in their orbits, Silleras-Fernandez addresses critical questions about how royal women in Iberia were expected to behave, the affective standards to which they were held, and how perceptions about their emotional states influenced the way they were able to exercise power. More broadly, *The Politics of Emotion* details how the court cultures in medieval and early modern Castile and Portugal contributed to the development of new notions of emotional excess and mental illness. **Disability in the Middle Ages** Joshua Eyler, 2010

What do we mean when we talk about disability in the Middle Ages? This volume brings together dynamic scholars working on the subject in medieval literature and history who use the latest approaches from the field to address this central question. Contributors discuss such standard medieval texts as the Arthurian Legend, *The Canterbury Tales*, and Old Norse Sagas, providing an accessible entry point to the field of medieval disability studies to medievalists. The essays explore a wide variety of disabilities, including the more traditionally accepted classifications of blindness and deafness, as well as perceived disabilities such as madness, pregnancy, and age. Adopting a ground-breaking new approach to the study of disability in the medieval period, this provocative book will be a must-read for medievalists and scholars of disability throughout history.
