The Mad Frontier:

Mad Frontier William M. Gaines, Albert B. Feldstein, 1975 *The Mad Frontier* William M. Gaines, 1962 **The Indian Frontier War** Lionel James, 1898 Single Stage to Orbit Andrew J. Butrica, 2004-12-01 Winner of the Michael C Robinson Prize for Historical Analysis given by the National Council on Public History While the glories and tragedies of the space shuttle make headlines and move the nation the story of the shuttle forms an inseparable part of a lesser known but no less important drama the search for a reusable single stage to orbit rocket Here an award winning student of space science Andrew J Butrica examines the long and tangled history of this ambitious concept from its first glimmerings in the 1920s when technicians dismissed it as unfeasible to its highly expensive heyday in the midst of the Cold War when conservative backed government programs struggled to produce an operational flight vehicle Butrica finds a blending of far sighted engineering and heavy handed politics To the first and oldest idea that of the reusable rocket powered single stage to orbit vehicle planners who belonged to what President Eisenhower referred to as the military industrial complex added experimental X aircraft like capabilities and eventually a faster cheaper smaller managerial approach Single Stage to Orbit traces the interplay of technology corporate interest and politics a combination that well served the conservative space agenda and ultimately triumphed not in the realization of inexpensive reliable space transport but in a vision of space militarization and commercialization that would appear settled United States policy in the early twenty first century The Trouble with Empire Antoinette Burton, 2015-09-17 The Trouble with Empire contends that dissent and disruption were constant features of imperial experience and that they should therefore drive narratives of the modern British imperial past Moving across the one hundred years between the first Anglo Afghan war and Gandhi's salt marches the book tracks commonalities between different forms of resistance in order to understand how regimes of imperial security worked in practice This emphasis on protest and struggle is intended not only to reveal indigenous agency but to illuminate the limits of imperial power official and unofficial as well Pax Britannica the conviction that peace was the dominant feature of modern British imperialism remains the working presumption of most empire histories in the twenty first century The Trouble with Empire in contrast originates from skepticism about the ability of hegemony to rule unchallenged and about the capacity of imperial rule to finally and fully subdue those who contested it The book follows various forms of dissent and disruption both large and small in three domains the theater of war the arena of market relations and the realm of political order Tracking how empire did and did not work via those who struggled against it recasts ways of measuring not simply imperial success or failure but its very viability across the uneven terrain of daily power The Trouble with Empire argues that empires are never finally or fully accomplished but are always in motion subject to pressures from below as well as above In an age of spectacular insurgency and counterinsurgency across many of the former possessions of Britain's global empire such a genealogy of the forces that troubled imperial hegemony are needed now more than ever *The Economics of Tropical Farming Systems* Martin

Upton,1996-12-12 Clear student text on theory and practice of economic decision making in tropical agriculture

Stochastic Programming Gerd Infanger,2010-11-10 From the Preface The preparation of this book started in 2004 when George B Dantzig and I following a long standing invitation by Fred Hillier to contribute a volume to his International Series in Operations Research and Management Science decided finally to go ahead with editing a volume on stochastic programming The field of stochastic programming also referred to as optimization under uncertainty or planning under uncertainty had advanced significantly in the last two decades both theoretically and in practice George Dantzig and I felt that it would be valuable to showcase some of these advances and to present what one might call the state of the art of the field to a broader audience We invited researchers whom we considered to be leading experts in various specialties of the field including a few representatives of promising developments in the making to write a chapter for the volume Unfortunately to the great loss of all of us George Dantzig passed away on May 13 2005 Encouraged by many colleagues I decided to continue with the book and edit it as a volume dedicated to George Dantzig Management Science published in 2005 a special volume featuring the Ten most Influential Papers of the first 50 Years of Management Science George Dantzig s original 1955 stochastic programming paper Linear Programming under Uncertainty was featured among these ten Hearing about this George Dantzig suggested that his 1955 paper be the first chapter of this book The vision expressed in that paper gives an important scientific and historical perspective to the book Gerd Infanger *Advances in Portfolio Construction and Implementation* Alan Scowcroft,2003-06-25 Modern Portfolio Theory explores how risk averse investors construct portfolios in order to optimize market risk against expected returns The theory quantifies the benefits of diversification Modern Portfolio Theory provides a broad context for understanding the interactions of systematic risk and reward It has profoundly shaped how institutional portfolios are managed and has motivated the use of passive investment management techniques and the mathematics of MPT is used extensively in financial risk management *Advances in Portfolio Construction and Implementation* offers practical guidance in addition to the theory and is therefore ideal for Risk Managers Actuaries Investment Managers and Consultants worldwide Issues are covered from a global perspective and all the recent developments of financial risk management are presented Although not designed as an academic text it should be useful to graduate students in finance Provides practical guidance on financial risk management Covers the latest developments in investment portfolio construction Full coverage of the latest cutting edge research on measuring portfolio risk alternatives to mean variance analysis expected returns forecasting the construction of global portfolios and hedge portfolios funds

Navy & Army Illustrated ,1898 *Showing the Flag* William R. Morrison,2011-11-01 Under their various names the Mounted Police have played a vital colourful but often controversial role in Canadian history and nowhere has this been truer than on the northern frontier The police were the agents through which the central government asserted sovereignty over the Yukon and the Northwest Territories just as it had done earlier on the Prairies This book describes to what extent the

RCMP shaped the northern frontier a frontier which steadily shifted separating territory under actual government control from that in which it was nominal The chapters treat each new spurt in this expansion and the period of contact and transition which followed As agents of the government the police imposed on the Canadian North a system largely alien to it which was designed not to express the aspirations of the north but to regulate and control it Through the enforcement of laws and in other public services the RCMP demonstrated that the land and its people including the Indians and Inuit belonged to Canada This political nature of the force was of the highest importance In assessing their performance of often harsh and dangerous duties Morrison refers to them as group heroes in the Canadian tradition of collective heroism In view of the current concern over Canada's sovereignty in the Polar Seas this book is a timely explanation of how the territory was originally brought into the orbit of Canadian control in what was thought to be the final chapter in Canada's manifest destiny

Bailey's index to 'The Times'. Nancy Bailey,1901 **Palmers' Index to the Times Newspaper** ,1901 *Islam and the European Empires* David Motadel,2014 The first comparative account of the engagement of all major European empires with Islam in the eighteenth and nineteenth centuries exploring an array of themes ranging from the accommodation of Islam under imperial rule to Islamic anti colonial resistance and contributing to our understanding of religion and power in the modern world **Whiteness at the End of the World** David Venditto,2022-07-01 The use of Christian apocalyptic myths

has changed significantly over the centuries Initially used by genuinely disenfranchised groups they are used today as a response to more egalitarian treatment of minorities in American society The apocalyptic framework allows the patriarchy to frame itself as the victim who must restore America to a past where white male power went uncontested This kind of white anxiety over increasing minority rights frequently manifests itself in contemporary apocalyptic media which often depicts a white male hero facing a wide array of threatening Others Taking a unique look at the parallels between apocalypticism and American frontier mythology as well as conspiracy theories and the post apocalyptic obsession with repurposed objects Whiteness at the End of the World analyzes many well known films from the past fifty years from Planet of the Apes to I Am Mother It offers unique clearly presented insights into recurring patterns that appear in an extraordinarily ubiquitous genre that has only increased in popularity and whose themes of racial anxiety are increasingly pertinent in our increasingly contentious political climate *American Book Publishing Record Cumulative, 1950-1977* R.R. Bowker Company.
