The Maestro Myth Great Conductors In Pursuit Of Power:

The Maestro Myth Norman Lebrecht, 2001 Nearly ten years after its original publication *The Maestro Myth* continues to enthrall readers with its insightful look into the lives and careers of the world's most celebrated conductors. Now updated and including two new chapters, this volume portrays the politics and inflated economics surrounding the podiums of today's international classical music scene and the obstacles faced by blacks, women, and gays. From Richard Strauss to Herbert von Karajan to Leonard Bernstein to Simon Rattle, *The Maestro Myth* examines the world of classical music and the mounting crisis in a profession where genuine talent grows ever scarcer. It is a must-have resource for music aficionados as well as anyone interested in the behind-the-scenes lives of these music masters. Book jacket *The Maestro Myth* Norman

Lebrecht, 1992-01 This book debunks today's largely uncritical view of the conductor's role, taking to task the overpaid, overpraised, and self-inflated men and women who have mounted the conductor's podium since the turn of the century. Few top conductors escape unscathed. Lebrecht is tireless in his exposure of Machiavellian shenanigans, professional rivalry, personal intrigue, and the increasing marketing pressures exacerbated by the vast sums now offered for top recording and performing contracts.

Orchestra: A Very Short Introduction D. Kern Holoman, 2012-08-13 In this *Very Short Introduction* D. Kern Holoman considers the structure, roots, and day-to-day functioning of the modern philharmonic society. He explores topics ranging from the life of a musician in a modern orchestra to the recent wave of new hall construction from Berlin to Birmingham, threats of bankruptcies and strikes, and the eyebrow-raising salaries of conductors and general managers. At the heart of the book lies a troubling pair of questions: Can such a seemingly anachronistic organization long survive? Does the symphony matter in contemporary culture? Holoman responds to both with a resounding yes. He shows that the orchestra remains a potent political and social force, a cultural diplomat par excellence. It has adapted well to the digital revolution and it continues to be seen as an essential element of civic pride. In a time of upheaval in how classical music is created, heard, distributed, and evaluated, the orchestra has managed to retain its historic role as a meeting place of intellectual currents, an ongoing forum for public enlightenment.

Choral Conducting and the Construction of Meaning Liz Garnett, 2017-07-05 It is a truism in teaching choral conducting that the director should look like s he wishes the choir to sound The conductor s physical demeanour has a direct effect on how the choir sings at a level that is largely unconscious and involuntary It is also a matter of simple observation that different choral traditions exhibit not only different styles of vocal production and delivery but also different gestural vocabularies which are shared not only between conductors within that tradition but also with the singers It is as possible to distinguish a gospel choir from a barbershop chorus or a cathedral choir by visual cues alone as it is simply by listening But how can these forms of physical communication be explained Do they belong to a pre cultural realm of primate social bonding or do they rely on the context and conventions of a particular choral culture Is body language an inherent part of musical performance styles or does it come afterwards in response to music At a practical level to what extent can a practitioner from one tradition mandate an approach as good practice and to what extent can another refuse it on the grounds that we don t do it that way This book explores these questions at both theoretical and practical levels It examines textual and ethnographic sources and draws on theories from critical musicology and nonverbal communication studies to analyse them By comparing a variety of choral traditions it investigates the extent to which the connections between conductor demeanour and choral sound operate at a general level and in what ways they are constructed within a specific idiom Its findings will be of interest both to those engaged in the study of music as a cultural practice and to practitioners involved in a choral conducting context that increasingly demands fluency in a variety of styles

Partnerships and Coalitions Samuel Mitchell, 2013-09-24 The highly individualistic people of North America have always had common experiences that united them From the Boston Commons to Banff National Park the people in these accounts sought support and renewal in these shared places and events Ceremonies support partnerships today as they have in the past The music partnership where the orchestra plays the 1812 Overture and the cannon on the hill in Kingston Ontario is fired is discussed in Chapter 6 The musical celebrations represent the achievements of a dedicated group maintaining a partnership of musicians and teachers Other partnerships reach across boundaries to achieve what would never have been expected before founding the new partnerships

Loving Music Till It Hurts William Cheng, 2019-10-01 *Loving Music Till It Hurts* explores how people's intense love and protectiveness of music can lead to interpersonal conflicts societal injustices and violence But how might we love music even embrace it as vital to human thriving without weaponizing this love What can we do when loving music and loving people seem at odds

Leading Musically Dag Jansson, 2018-04-17 Musical leadership is associated with a specific profession the conductor as well as being a colloquial metaphor for human communication and cooperation at its best This book examines what musical leadership is by delving into the choral conductor role what goes on in the music making moment and what it takes to do it well One of the unique features of the musical ensemble is the simultaneity of collective discipline and individual expression Music is therefore a potent laboratory for understanding the leadership act in the space between leader and team The musical experience is used to shed light on leading and following more broadly by linking it to themes such as authority control empowerment intersubjectivity sensemaking and charisma Jansson develops the argument that musical leadership involves the combination of strong power and deep sensitivity a blend that might be equally valid in other leadership domains Aesthetic knowledge and musical perception therefore offer untapped potential for leadership and organisational

development outside the art domain **Enterprise as a Carrier of Culture** Hirochika Nakamaki, Koichiro Hioki, Noriya Sumihara, Izumi Mitsui, 2019-05-08 This book expands anthropological studies of business enterprise to include comparative and interdisciplinary perspectives A number of books on business anthropology have been published but most of them are written by anthropologists alone By contrast this book engages interdisciplinary studies e g not only by anthropologists but also management scholars and other social scientists It is the second volume of studies forwarding anthropological approaches to business administration Keiei Jinruigaku This volume focusses on the cultural dimensions of enterprise Here enterprise is viewed as a medium carrying culture rather than solely an entity of production and management as is typical in mainstream studies The approach is based on Tadao Umesao's definition of culture as a projection of instruments devices and institutions into the mental spiritual dimensions of life Therefore in our view production and management are among the projections of the cultural aspects of enterprise This perspective we believe constitutes a new frontier in the study of business administration This book consists of three parts the first being religiosity and spirituality the second exhibitions performance and inducement and the third history and story In Part I Quaker Codes ex votos and spiritual leadership are discussed in relation to management and behavior and miracles and pilgrimage Part II describes exhibitions justifying nuclear power industry within power plants in both Japan and England the exhibition by English families of their porcelain collections and the performance skills of orchestral maestros All of these examples indicate that through the use of narratives and myths exhibits and performances overtly and covertly induce visitors or audiences to certain viewpoints and emotions Part III offers examples of histories and stories of enterprise articulated through the branding and consumption of industrial products and their display in enterprise museums where the essence of culture and heritage is cherished and emphasized by and for the wider community and the enterprise itself Conjoined as an interdisciplinary team of Western and Japanese researchers we apply an anthropological approach to the cultural history of enterprise in both Britain and Japan

measure it This book is vintage Mintzberg iconoclastic irreverent carefully researched myth breaking Managing may be the most revealing book yet written about what managers do how they do it and how they can do it better Primary School Leadership in Context Geoff Southworth,2004 In this important new book Geoff Southworth a leading researcher in headship specifically addresses how school size impacts on the role of the headteacher **Joyce's Grand Operoar** Matthew John Caldwell Hodgart,Ruth Bauerle,1997 In Joyce s Grand Operoar two internationally respected Joyce scholars join forces to present over 3 000 of Joyce s opera allusions as they appear in Finnegans Wake Ruth Bauerle s long richly detailed and often amusing introduction critically interprets Joyce s life and work in terms of its operatic and literary interconnections The resulting volume will delight both opera lovers and Joyceans *Understanding Organizations...Finally!* Henry Mintzberg,2023-02-07 The iconic Henry Mintzberg provides a crystal clear map to the forms and forces that shape all human organizations synthesizing his fifty years of research We live in a world of organizations from our birth in hospitals until our burial by funeral homes In between we are educated employed entertained and exasperated by organizations We had better understand how these strange beasts really work But where can we go to find out Welcome to Understanding Organizations Finally For half a century Mintzberg has been observing organizations advising them engaging them and escaping them Here he offers a masterful update and revision of his 1983 classic Structure in Fives Believing there is one best way to structure organizations is the worst way to do so A better place to start is by recognizing different species of organizations Mintzberg identifies seven personal enterprises programmed machines professional assemblies project pioneers and others He explores these forms and the seven forces that drive them toward hybrids and across their life cycles You will find no better guide to the care and feeding of these extraordinarily varied and vital creatures than this book Eminent Jews David Denby,2025-04-08 Leonard Bernstein Mel Brooks Betty Friedan and Norman Mailer Brilliant brash yet soulful they were 100 percent Jewish and 100 percent American They upended the restrained culture of their forebears and changed American life They worked in different fields and apart from clinking glasses at parties now and then they hardly knew one another But they shared a historical moment and a common temperament For all four their Jewish heritage was electrified by American liberty The results were explosive As prosperity for Jews increased and anti-Semitism began to fade after World War II these four creative giants stormed through the latter half of the twentieth century altering the way people around the world listened to music defined what was vulgar comprehended the relations of men and women and understood the American soul They were not saints they were turbulent and self dissatisfied intellectuals who fearlessly wielded their own newly won freedom to charge up American culture Celebratory yet candid at times fiercely critical David Denby presents these four figures as egotistical and generous larger than life all of them yet vulnerable even heartbreaking in their ambition ferocity and pride **Creative Industries** Richard E.
