Following Osiris Mark Smith, 2017-02-09 Osiris god of the dead was one of ancient Egypt's most important deities The earliest secure evidence for belief in him dates back to the fifth dynasty c 2494 2345BC but he continued to be worshipped until the fifth century AD Following Osiris is concerned with ancient Egyptian conceptions of the relationship between Osiris and the deceased or what might be called the Osirian afterlife asking what the nature of this relationship was and what the prerequisites were for enjoying its benefits It does not seek to provide a continuous or comprehensive account of Egyptian ideas on this subject but rather focuses on five distinct periods in their development spread over four millennia The periods in question are ones in which significant changes in Egyptian ideas about Osiris and the dead are known to have occurred or where it has been argued that they did as Egyptian aspirations for the Osirian afterlife took time to coalesce and reach their fullest form of

expression An important aim of the book is to investigate when and why such changes happened treating religious belief as a dynamic rather than a static phenomenon and tracing the key stages in the development of these aspirations from their origin to their demise while illustrating how they are reflected in the textual and archaeological records In doing so it opens up broader issues for exploration and draws meaningful cross cultural comparisons to ask for instance how different societies regard death and the dead why people convert from one religion to another and why they abandon belief in a god or gods altogether

Egypt, Trunk of the Tree, Vol. II Simson Najovits, 2003 In the first of a planned two volumes Najovits former editor in chief of Radio France International provides a remarkably evenhanded introductory survey of Egypt He observes that the earliest Egyptian culture with the introduction of farming and animal husbandry can be traced to around 5800 B C but his own overview begins around 4000 B C with an investigation of the predynastic Naqada culture and its religious system of totemism animism and magic Najovits contends that scholarly focus on ancient Greece and Rome and on Christianity and Judaism has tended to obscure Egyptian contributions to the development of culture Egyptian religion was highly original he says Never before had such an elaborate religion and such an all inclusive mythology been invented As to its lasting contributions the Egyptians he says invented the belief that the body could be preserved and stay alive after death They were also he claims the first monotheistic culture although monotheism waxed and waned under various pharaohs They developed a belief in a savior god Osiris whose resurrection led to a belief in the afterlife Najovits even concludes that the holy family of Osiris Isis and Horus offers the mythological foundations upon which later cultures constructed their own foundational holy families e g Jesus Mary and Joseph Egypt also provided examples of early jurisprudence and political systems primarily in its extensive legal codes and its focus on kingship On balance Najovits offers a detailed and original historical survey of Egypt as a cradle of civilization Publishers Weekly

Religion in Roman Egypt David Frankfurter, 2020-06-30 This exploration of cultural resilience examines the complex fate of classical Egyptian religion during the centuries from the period when Christianity first made its appearance in Egypt to when it became the region's dominant religion roughly 100 to 600 CE Taking into account the full range of witnesses to continuing native piety from papyri and saints' lives to archaeology and terracotta figurines and drawing on anthropological studies of folk religion David Frankfurter argues that the religion of Pharonic Egypt did not die out as early as has been supposed but was instead relegated from political centers to village and home where it continued a vigorous existence for centuries In analyzing the fate of the Egyptian oracle and of the priesthoods the function of magical texts and the dynamics of domestic cults Frankfurter describes how an ancient culture maintained itself while also being transformed through influences such as Hellenism Roman government and Christian dominance Recognizing the special characteristics of Egypt which differentiated it from the other Mediterranean cultures that were undergoing simultaneous social and political changes he departs from the traditional decline of paganism triumph of Christianity model most often used to describe the Roman period By revealing late Egyptian religion in its Egyptian historical context he moves us away from scenarios of Christian triumph and shows us how long and how energetically pagan worship survived
