The Magic Spectacles Richard Cowper, 1986 *Plays and Players in Modern Italy* Addison McLeod, 1912

New-Church Messenger, 1905 **The Publishers' Trade List Annual**, 1893 *Middle English Marvels* Tara Williams, 2018-01-03 This multidisciplinary volume illustrates how representations of magic in fourteenth century romances link the supernatural spectacle and morality in distinctive ways Supernatural marvels represented in vivid visual detail are foundational to the characteristic Middle English genres of romance and hagiography In *Middle English Marvels* Tara Williams explores the didactic and affective potential of secular representations of magic and shows how fourteenth century English writers tested the limits of that potential Drawing on works by Augustine Gervase of Tilbury Chaucer and the anonymous poets of *Sir Orfeo* and *Sir Gawain and the Green Knight* among others Williams examines how such marvels might convey moral messages within and beyond the narrative She analyzes examples from both highly canonical and more esoteric texts and examines marvels that involve magic and transformation invoke visual spectacle and invite moral reflection on how one should relate to others Within this shared framework Williams finds distinct concerns chivalry identity agency and language that intersect with the marvelous in significant ways Integrating literary and historical approaches to the study

of magic this volume convincingly shows how certain fourteenth century texts eschewed the predominant trends and developed a new theory of the marvelous Williams's engaging erudite study will be of special interest to scholars of the occult the medieval and early modern eras and literature *The Wizard of Oz and Philosophy* Randall E. Auxier, Phil Seng, 2011-08-31 From the bedtime story by L. Frank Baum to the classic 1939 film no story has captured the imaginations of generations of children and adults like *The Wizard of Oz*. The story of Dorothy's journey through Oz, the colorful characters, places, songs, and dialogue have permeated popular culture around the world. The contributors to this volume take a very close look at *The Wizard of Oz* and ask the tough questions about this wonderful tale. They wonder if someone can possess a virtue without knowing it and if the realm of Oz was really the dream or if Kansas was the dream. Why does water melt the Wicked Witch of the West and why does Toto seem to know what the other characters can't seem to figure out? The articles included tackle these compelling questions and more, encouraging readers to have discussions of their own. *The White People and Other Weird Stories* Arthur Machen, 2011-09-27 Classic tales of the fantastic, creepy, and weird with a foreword from the award-winning director of *The Shape of Water*, Guillermo Del Toro. Machen's weird tales of the creepy and fantastic finally come to Penguin Classics. With an introduction from S. T. Joshi, editor of *American Supernatural Tales*, *The White People and Other Weird Stories* is the perfect introduction to the father of weird fiction. The title story, *The White People*, is an exercise in the bizarre, leaving the reader disoriented and on edge. From the first page, Machen turns even fundamental truths upside down as his character Ambrose explains there have been those who have sounded the very depths of sin who all their lives have never done an ill deed, setting the stage for a tale entirely without logic. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators. **Film and Fairy Tales** Kristian Moen, 2013-05-07 Far from a realm of pure fantasy helping people to escape harsh realities, fairy tales and the films that rooted themselves in their tropes and traditions played an integral role in formulating and expressing the anxieties of modernity as well as its potential for radical magical transformation. In *Film and Fairy Tales*, Kristian Moen examines the role played by fairy tales in shaping cinema, its culture, and its discourse during its most formative years. Well established by the *feerie* of the nineteenth century as popular entertainment and visual spectacle, the wonders of mutability offered by fairy tale fantasies in the early films of Méliès situated cinema itself as a realm of enchantment rife with enthralling and disturbing possibilities. Through an analysis of early film theorists and a detailed case study of Tourneur's 1918 film *The Blue Bird*, Moen shows how the spectacles and tropes of the fairy tale continued to shape ideas of cinema's place in modern life. Stars like Mary Pickford and Marguerite Clark, who not only played fantasy roles but presented their off-screen personae in deliberately fantastic terms, and the

transformative claims of modernity expressed through visions such as Orientalist fairylands are analysed to show the extent to which fairy tales were used to negotiate different experiences of modernity the giddy adventures of social mobility consumer culture and identity transformation the threats and anxieties of cultural change impermanence and mutability Moen traces the evolution of the fairy tale in film to its self aestheticising peak in *Snow White and the Seven Dwarfs* alongside ironic allusions in films like Hitchcock's *Rebecca* and Howard Hawks' *Ball of Fire* concluding with an examination of how fairy tale visions of fantastic transformation have seen a resurgence in contemporary cinema from Tim Burton to Harry Potter In the process he shows how cinema made fairy tales modern and fairy tales helped make cinema what it is today
