Handbook of Citizenship Studies Engin F Isin, Bryan S Turner, 2002 The contributions of Woodiwiss Lister and Sassen are outstanding but not unrepresentative of the many merits of this excellent collection The British Journal of Sociology From women's rights civil rights and sexual rights for gays and lesbians to disability rights and language rights we have experienced in the past few decades a major trend in Western nation states towards new claims for inclusion This trend has echoed around the world from the Zapatistas to Chechen and Kurdish nationalists social and political movements are framing their struggles in the languages of rights and recognition and hence of citizenship Citizenship has thus become an increasingly important axis in the social sciences Social scientists have been rethinking the role of political agent or subject Not only are the rights and obligations of citizens being redefined but also what it means to be a citizen has become an issue of central concern As the process of globalization produces multiple diasporas we can expect increasingly complex relationships between homeland and host societies that will make the traditional idea of national citizenship problematic As societies are forced to manage cultural difference and associated tensions and conflict there will be changes in the processes by which states allocate citizenship and a differentiation of the category of citizen This book constitutes the most authoritative and comprehensive guide to the terrain Drawing on a wealth of interdisciplinary knowledge and including some of the leading commentators of the day it is an essential guide to understanding modern citizenship About the editors Engin F Isin is Associate Professor of Social Science at York University His recent works include *Being Political* Genealogies of Citizenship Minnesota 2002 and with P K Wood *Citizenship and Identity* Sage 1999 He is the Managing Editor of *Citizenship Studies* Bryan S Turner is Professor of Sociology at the University of Cambridge He has written widely on the sociology of citizenship in *Citizenship and Capitalism* Unwin Hyman 1986 and *Citizenship and Social Theory* Sage 1993 He is also the author of *The Body and Society* Sage 1996 and *Classical Sociology* Sage 1999 and has been editor of *Citizenship Studies* since 1997

The Logic of the Lure John Paul Ricco, 2002 The attraction of a wink a nod a discarded snapshot such feelings permeate our lives yet we usually dismiss them as insubstantial or meaningless With *The Logic of the Lure* John Paul Ricco argues that it is precisely such fleeting erotic and even perverse experiences that will help us create a truly queer notion of ethics and aesthetics one

that recasts sociality and sexuality place and finitude in ways suggested by the anonymity and itinerant lures of cruising

Shifting our attention from artworks to the work that art does from subjectivity to becoming and from static space to taking place Ricco considers a variety of issues including the work of Doug Ischar Tom Burr and Derek Jarman and the minor architecture of sex clubs public restrooms and alleyways Debating Biopolitics Piasentier, Marco, Raimondi, Sara, 2022-08-05 Emerging out of the theoretical and practical urge to reflect on key contemporary debates arising in biopolitical scholarship this timely book launches an in depth investigation into the concept and history of biopolitics In light of tumultuous political dynamics across the globe and new developments in this continually evolving field the book reconsiders and expands upon Michel Foucault's input to biopolitical studies **Agamben's Joyful Kafka** Anke Snoek, 2014-04-10 The first book to articulate the impact of Kafka on Agamben's thought Magical Thinking Stuart McWilliams, 2011-12-08 How do we write about magic Responding to a renewed interest in the history of the occult this volume examines the role of magic in a series of methodological controversies in the humanities In case studies ranging from the necromancy of historiography to the strident rationalism of the New Atheism *Magical Thinking* sets out the surprising ways in which scholars and critics have imagined the occult The volume argues that thinking and writing about magic has engendered multiple epistemological crises profoundly unsettling the understanding of history and knowledge in Western culture By examining how scholarly writing has contended and conspired with discourses of enchantment the book reveals the implications of magic and its scholarship for intellectual history *The Passage of Literature* Christopher GoGwilt, 2011-01-27 Through a set of comparative studies of the fiction of Joseph Conrad Jean Rhys and Pramodya Ananta Toer *The Passage of Literature* explains the interrelation between English Creole and Indonesian formations of literary modernism arguing that each passage of literature is the site of contest between competing genealogies of culture **Art, Religion, Amnesia** Donald Preziosi, 2013-12-04 *Art Religion Amnesia* addresses the relationship between art and religion in contemporary culture directly challenging contemporary notions of art and religion as distinct social phenomena and explaining how such Western terms represent alternative and even antithetical modes of world making In this new book Professor Preziosi offers a critique of the main thrust of writing in recent years on the subjects of art religion and their interconnections outlining in detail a perspective which redefines the basic terms in which recent debates and discussions have been articulated both in the scholarly and popular literature and in artistic political and religious practice *Art Religion and Amnesia* proposes an alternative to the two conventional traditions of writing on the subject which have been devoted on the one hand to the spiritual dimensions of artistry and on the other hand to the equally spurious aesthetic aspects of religion The book interrogates the fundamental assumptions fuelling many current controversies over representation idolatry blasphemy and political culture Drawing on debates from Plato's proposal to banish representational art from his ideal city state to the Danish cartoons of Mohamed Preziosi argues that recent debates have echoed a number of very ancient

controversies in political philosophy theology and art history over the problem of representation and its functions in individual and social life This book is a unique re evaluation of the essential indeterminacy of meaning making marking a radically new approach to understanding the inextricability of aesthetics and theology and will be of interest to students and researchers in art history philosophy and religion and cultural theory **concepts** Bernd Herzogenrath,2022-12-01 This book foregrounds that English monolingualism reduces both our linguistic and conceptual resources presenting concepts from the cultures of 4 continents and 26 languages Concepts seem to work best when created in the interspace between theory and praxis and between philosophy art and science Deleuze himself had generated many concepts in this encounter between philosophy and non philosophy including his ideas of affects and percepts of becoming the stutter the rhizome movement image and time image the rhizome What happens if instead of other disciplines we take other cultures other languages other philosophies Does not the focus on English as a hegemonic language of academic discourse deny us a plethora of possibilities of possible Denkfiguren of possible concepts Each contributor explores ideas that are key to thinking in their language about sound and silence voice and image living and thinking the self and the world while simultaneously addressing the issue of translation Each chapter demonstrates that translation itself is a way of invention rather than just a rendering of concepts from one system in terms of another This collection acts as a travelogue The journey does not follow a particular trajectory some countries are not on the map some are visited twice So there is no claim to completeness involved here it is rather an invitation to answer to the call Sovereign Anxiety Javed Iqbal Wani,2023-11-16 Studies sovereignty and law and argues that public order laws are an expression of sovereign anxiety *Conrad in the Twenty-First Century* Carola Kaplan,Peter Mallios,Andrea White,2005-01-15 Best known as the author of Heart of Darkness Joseph Conrad 1857 1924 is one of the most widely taught writers in the English language Conrad s work has taken on a new importance in the dawning of the 21st century in the wake of September 11 many cultural commentators returned to his novel The Secret Agent to discuss the roots of terrorism and the overarching theme of colonialism in much of his work has positioned his writing as central to not only literature scholars but also to postcolonial and cultural studies scholars and more recently to scholars interested in globalization Reading Conrad Now is a collection of original essays by leading Conrad scholars that rereads Conrad in light of his representations of post colonialism of empire imperialism and of modernism and modernity questions that are once again relevant today The collection is framed by an introduction by J Hillis Miller one of the most important literary critics today and a concluding extensive interview with Edward Said one of his final interviews before his death on September 25 2003 the most prominent postcolonial critic addressing his lifelong fascination with Conrad Reading Conrad Now will be essential reading for anyone seeking a contemporary introduction to this great writer and will be of great interest to scholars working with Conrad in a variety of fields including literary studies cultural studies ethnic and area studies and postcolonial studies The Architectonics of Hope Kyle Gingerich Hiebert,2017-09-19 The Architectonics of

Hope provides a critical excavation and reconstruction of the Schmittian seductions that continue to bedevil contemporary political theology. Despite a veritable explosion of interest in the work of Carl Schmitt which increasingly recognizes his contemporary relevance and prescience, there nevertheless remains a curious and troubling reticence within the discipline of theology to substantively engage the German jurist and sometime Nazi apologist. By offering a genealogical reconstruction of the manner and extent to which recognizably Schmittian gestures are unwittingly repeated in subsequent debates that often only implicitly assume they have escaped the violent aporetics that characterize Schmitt's thought, this volume illuminates hidden resonances between ostensibly opposed political theologies. Using the complex relationship between violence and apocalyptic as a guide, the genealogy traces the transformation of political theology through the work of a surprising collection of figures including Johann Baptist Metz, John Milbank, David Bentley Hart, and John Howard Yoder. **The Philosophical Review**, 2000 Annual Bibliography of Modern Art Museum of Modern Art (New York, N.Y.). Library, 2000 This Storm is what We Call Progress Haluk Akakçe, 2005 **American Book Publishing Record**, 2000 *The British National Bibliography* Arthur James Wells, 2003 **The Spirit of Utopia**, 2000-08 I am We are That is enough Now we have to start These are the opening words of Ernst Bloch's first major work *The Spirit of Utopia* written mostly in 1915-16 published in its first version just after the First World War, republished five years later in 1923 in the version here presented for the first time in English translation. *The Spirit of Utopia* is one of the great historic books from the beginning of the century but it is not an obsolete one. In its style of thinking a peculiar amalgam of biblical Marxist and Expressionist turns in its analytical skills deeply informed by Simmel, taking its information from both Hegel and Schopenhauer for the groundwork of its metaphysics of music but consistently interpreting the cultural legacy in the light of a certain Marxism. Bloch's *Spirit of Utopia* is a unique attempt to rethink the history of Western civilizations as a process of revolutionary disruptions and to reread the artworks, religions, and philosophies of this tradition as incentives to continue disrupting. The alliance between messianism and Marxism which was proclaimed in this book for the first time with epic breadth has met with more critique than acclaim. The expressive and baroque diction of the book was considered as offensive as its stubborn disregard for the limits of disciplines. Yet there is hardly a discipline that didn't adopt, however unknowingly, some of Bloch's insights and his provocative associations often proved more productive than the statistical account of social shifts. The first part of this philosophical meditation which is also a narrative, an analysis, a rhapsody, and a manifesto concerns a mode of self-encounter that presents itself in the history of music from Mozart through Mahler as an encounter with the problem of a community to come. This we problem is worked out by Bloch in terms of a philosophy of the history of music. The self-encounter however has to be conceived as self-invention as the active affirmative fight for freedom and social justice under the sign of Marx. The second part of the book is entitled *Karl Marx Death and the Apocalypse*. I am We are That's hardly anything. But enough to start **Outside the Subject** Emmanuel Lévinas, 1994 This volume consists of fourteen pieces selected by Lévinas himself.
