G.

Hennerici, H. Baezner, C. Bassetti, 2010-01-01 The third part of *Neurological Disorders in Famous Artists* presents painters musicians and writers who had to fight against an acute or chronic neurological disease Sometimes this fight was without success e.g. Shostakovich Schumann Wolf Pascal but often a dynamic and paradoxical creativity of the clinical disorder was integrated into their artistic production e.g. Klee Ramuz Occasionally some even wrote the first report of a medical condition they observed in themselves like Stendhal who made a detailed report of aphasic transient ischemic attacks before dying of stroke shortly thereafter In rarer instances a neurological disease was inaccurately attributed to an artist in order to explain certain features of his work de Chirico Schiele Some chapters in this publication focus on neurological conditions reported in artistic work including descriptions by Shakespeare and Dumas Bringing new light to both artists and neurological conditions this book serves as a valuable and entertaining read for neurologists psychiatrists physicians and anybody interested in arts literature and music      Friction: Written By Blood: Book Two Dwayne Gill, 2019-08-20 The boys are back bigger badder and bloodier than ever Friction the second novel of the Written By Blood series like the first promises to be action packed from front to back If you like conflicted antiheroes and fast paced thrillers you won't want to miss out on this one Just scroll back up to get your copy today      *Decisions and Orders of the National Labor Relations Board, V. 335, August 22, 2001, Through September 28, 2001*, 2003-08-12 NOTE NO FURTHER DISCOUNT FOR THIS PRINT PRODUCT OVERSTOCK SALE
