The Marks In The Field Essays On The Uses Of Manuscripts:

The Marks in the Fields Houghton Library, 1992 Essays on 35 manuscripts chosen from the collection of the Houghton Library for an exhibition on the occasion of the Library's fiftieth anniversary **The Marks in the Field** Rodney G. Dennis, Elizabeth Falsey, 1992 Reading Mansfield and Metaphors of Form W. New, 1999-01-14 Taking an innovative approach to criticism *Reading Mansfield and Metaphors of Form* demonstrates how Mansfield's stylistic practice both embodies and conveys her analysis of social and psychological trauma through a metaphoric use of literary form New argues that the stories are neither simple vehicles for conveying emotional states nor neutral representations of moments in time but carefully crafted models or correlatives of social and psychological conditions of understanding He elucidates a number of formal strategies such as sequence reversal negation repetition deferral and reconstruction and then applies them to a wide range of Mansfield's stories including such favorites as *Prelude* *The Voyage* *The Little Governess* and *Je ne parle pas français* Drawing on a range of writings in contemporary postcolonial narratological and gender theory *Reading Mansfield and Metaphors of Form* leads to a new appreciation of the implications of Mansfield's formal craft The book written in a lively and readily accessible style is at once an exemplary demonstration of the intricate process of critical reading and an intelligent and innovative reassessment of Mansfield's literary significance A Guide to Poetics Journal Lyn Hejinian, Barrett Watten, 2013-10-21 Lyn Hejinian and Barrett Watten are internationally recognized poet critics Together they edited the highly influential *Poetics Journal* whose ten issues published between 1982 and 1998 contributed to the surge of interest in the practice of poetics *A Guide to Poetics Journal* presents the major conversations and debates from the journal and invites readers to expand on the critical and creative engagements they represent In making their selections for the guide the editors have sought to showcase a range of innovative poetics and to indicate the diversity of fields and activities with which they might be engaged The introduction and headnotes by the editors provide historical and thematic context for the articles The Guide is intended to be of sustained creative and classroom use while the companion *Archive* of all ten issues of *Poetics Journal* allows users to remix remaster and extend its practices and debates See <http://www.upne.com/0819571236.html> for more information on the digital archive *The Marks in the Fields*, 1992 **Medieval Texts in Context** Graham D. Caie, Denis Renevey, 2008-04-01 This collection of essays by leading experts in manuscript studies sheds new light on ways to approach medieval texts in their manuscript context Each contribution provides groundbreaking insight into the field of medieval textual culture demonstrating the various interconnections between medieval material and literary traditions The contributors' work aids reconstruction of the period's writing practices as contextual factors surrounding the texts provide clues to the manuscript experience Topics such as scribal practice and textual providence glosses rubrics page layout and even page ruling are addressed in a manner illustrative and suggestive of textual practice of the time while the volume further considers the interface between the manuscript and early textual communities Looking at medieval inventories of

books no longer extant and addressing questions such as ownership reading practices and textual production *Medieval Texts in Context* addresses the fundamental interpretative issue of how scribe editors worked with an eye to their intended audience An understanding of the world inhabited by the scribal community is made use of to illuminate the rationale behind the manufacture of devotional texts The combination of approaches to the medieval vernacular manuscript presented in this volume is unique marking a major innovative contribution to manuscript studies **Printing a Mediterranean World** Sean Roberts, 2013-02-14 In 1482 Francesco Berlinghieri produced the *Geographia* a book of over 100 folio leaves describing the world in Italian verse interleaved with lavishly engraved maps Roberts demonstrates that the *Geographia* represents the moment of transition between printing and manuscript culture while forming a critical base for the rise of modern cartography *Writing in Time* Marta L. Werner, 2021-04-20 Winner of the 2023 Richard J Finneran Award for the best book about editorial theory or practice For more than half a century the story of Emily Dickinson's Master documents has been the largely biographical tale of three letters to an unidentified individual *Writing in Time* seeks to tell a different story the story of the documents themselves Rather than presenting the Master documents as quarantined from Dickinson's larger scene of textual production Marta Werner's innovative new edition proposes reading them next to Dickinson's other major textual experiment in the years between ca 1858-1861 the Fascicles In both Dickinson can be seen testing the limits of address and genre in order to escape bibliographical determination and the very coordinates of mastery itself A major event in Dickinson scholarship *Writing in Time: Emily Dickinson's Master Hours* proposes new constellations of Dickinson's work as well as exciting new methodologies for textual scholarship as an act of intimate editorial investigation *Sacred Words and Worlds*, 2011-10-14 This book examines the scholarly genre of *geographia sacra* in early modern Europe tracing its contours the outlooks and concerns of its practitioners as well as the intersections of religion and geography in an age that saw dramatic revolutions in both fields **Harvard Magazine**, 1993 **Beiträge zur Sudanforschung**, 2006 **New England Book and Text Studies**, 1994 **The Manuscript and Meaning of Malory's Morte Darthur** Kevin Sean Whetter, 2017 An examination of the rubricated letters in the *Morte* makes a convincing case for the design being by Malory himself The red ink names that decorate the Winchester manuscript of Malory's *Morte Darthur* are striking yet until now no one has asked why the rubrication exists This book explores the uniqueness and thematic significance of the physical layout of the *Morte* in its manuscript context arguing that the layout suggests and the correlations between manuscript design and narrative theme confirm that the striking arrangement is likely to have been the product of authorial design rather than something unusual dreamed up by patron scribe reader or printer The introduction offers a thorough account of not only the textual tradition of the *Morte* but also the ways in which scholarship to date has not done enough with the manuscript contexts of Malory's *Arthuriad* The book then goes on to establish the singularity and likely provenance of Winchester's rubrication of names In the second half of the study the author elucidates the narrative significance of this rubrication pattern outlining striking

connections between manuscript layout and major narrative events characters and themes He suggests that the manuscript mise en page underscores Malory's interest in human character and knighthood creating a memorializing function similar to the many inscribed tombs that dominate the landscape of the Morte's narrative pages In short Winchester's design creates a memorializing tomb for Arthurian chivalry K S WHETTER is Professor of English at Acadia University Canada **Selected Essays on the History of Letter-forms in Manuscript and Print** Stanley Morison, 2009 The Library and Reading of Jonathan Swift Dirk F. Passmann, 2003 Perceptions of Medieval Manuscripts Elaine Treharne, 2021 Engages with the materiality of medieval manuscripts to illustrate the importance of the study of physical texts to literary appreciation and studies marginal annotation the physical characteristics of manuscripts and books and miniature illustrations to show how the book was encountered and understood by medieval producers and readers *Essays in Manuscript Geography* Wendy Scase, 2007 The medieval English West Midlands has long been associated with the production of vernacular texts in Old and Middle English and with the making of several famous manuscripts The aim of this volume is to re-think assumptions about medieval literature and the region in the light of new research in medieval book history A series of specially commissioned essays in manuscript geography examines the making and use of texts and books in relation to cultural networks in the region and beyond Included are case studies of manuscripts of Worcester and the Worcester diocese from the eleventh to the thirteenth centuries investigations of manuscript production in fourteenth century Shropshire and its wider regional links and essays on textual cultures in Warwickshire from the activities of the aristocrats and gentry of the fifteenth and sixteenth centuries to the projects of later antiquarians Essays in the final section of the volume reflect on the possibilities of large scale corpus based research on medieval manuscript books Collectively the essays identify and explore some of the investments of traditional regionalist accounts of vernacular literary culture and model new theoretical and methodological approaches *Books in Print*, 1991 *Essays on the Art of Chaucer's Verse* Alan T. Gaylord, 2013-05-13 These fifteen essays four of them commissioned for this volume along with a discursive introduction which sets each essay into place and comments on its distinctive features represent a gathering never before attempted a symposium on Chaucer's craft that concentrates on his poetic forms his rhythms his rhyming his versification his prosody In his seminal essay *Scanning the Prosodists* Alan Gaylord the editor of this volume had asked To show how Chaucer moves and in moving moves us is that not what the study of his prosody should do Should it not identify a pattern of sounds in motion a regular and expressive succession which is part of the order of verse and a major component of its effectiveness In the two decades that followed that essay a number of distinguished scholars provided a variety of answers for such questions arising from the author's work as metrical theorists or editors of medieval verse or literary historians or critics but in every case such work connected to the initiatives and discoveries of the classroom The best written and most useful of those essays by recognized authorities in their fields have been included in this volume The volume will be of use to the advanced student of Chaucer and medieval

poetry and to the teacher interested in identifying explaining and bringing to life the patterns of sound and sense in Chaucer's verse The extensive master Bibliography for the whole volume comprises a library of references which will have been reviewed and discussed in the essays The Writer ,1919
