Lapp,1977-01-01 Examines the lives of the thousands of free blacks and slaves who migrated to the California gold fields after 1848 and studies their relationships with other minorities and with whites General History of Drugs Volume 3 Part 2 Antonio Escobedo,2023-07-27 Drugs History Nineteenth Century Twentieth Century morphine opium cocaine ether cannabis De Quincey Gautier Malraux **Before L.A.** David Samuel Torres-Rouff,2013-09-24 David Torres Rouff significantly expands borderlands history by examining the past and original urban infrastructure of one of America's most prominent cities its social spatial and racial divides and boundaries and how it came to be the Los Angeles we know today It is a fascinating study of how an innovative intercultural community developed along racial lines and how immigrants from the United States engineered a profound shift in civic ideals and the physical environment creating a social and spatial rupture that endures to this day **The Frontier Challenge** John G. Clark,2021-10-29 The story of the westward expansion of this country does not stop with the hardships encountered by travelers on the Mormon Trail the discomforts endured by early settlers in sod houses the bravery of the Pony Express riders the romantic solitude of the cowboys or the sufferings of the Indians forced to abandon their homes bleak and alien country Much has been written about these colorful episodes and through the courtesy of Hollywood and TV has been brought into millions of homes in living color But what happened to the people including the Indians who survived the great raid on Fort X the bitter winters and scorching summers spent in primitive housing the terrible loneliness and lack of communication with eastern kin What did migrants do when they reached the end of the Mormon Trail And did the Cherokee Trail of tears become a never ending journey from one relocation to another How did people develop and accommodate themselves to an environment which was itself constantly altered by an ever changing society In these essays we find that tragedy and joy victory and defeat human fulfillment and human degradation are visible in roughly equal proportions in the story of the Americanization of the West that the goals both realistic and unrealistic of one group society or culture are frequently pursued only at the expense of other groups and that the skeletons in the closet of American history abound to a greater extent than a nation convinced of its own virtue is willing to admit Racism has plagued the nation since its inception and exploitation of one group by another was sadly a part of the Western frontier However there was a freshness and vigor in the history of the West Young railroads continued to grow linking productive farms with brawling cities New businesses and new political parties emerged all contributing to the growth of the region that Stephen A Douglas called the adhesive of the Union These essays do not add up to a complete history of the Trans Mississippi West rather each historian has pursued his own particular research interest and various topics and settings are presented in this volume The result is a fascinating collection that serves to illuminate both the tragedies and accomplishments of the westward movement **Towers of Gold** Frances Dinkelspiel,2024-09-04 An award
