Bureau of Economic Analysis BEA asked the Committee on National Statistics of the National Academies to convene a workshop to discuss interagency business data sharing The workshop was held October 21 2005 This report is a summary of the discussions of that workshop The workshop focused on the benefits of data sharing to two groups of stakeholders the statistical agencies themselves and downstream data users Presenters were asked to highlight untapped opportunities for productive data sharing that cannot yet be exploited because of regulatory or legislative constraints The most prominently discussed example was that of tax data needed to reconcile the two primary business lists use by the statistical agencies
