Small Town Neighborhood Walk:

Creating Vibrant Public Spaces Ned Crankshaw, 2012-09-26 Public space and street design in commercial districts can dictate the success or failure of walkable community centers. Instead of focusing our efforts on designing new compact town centers many of which are located in the suburbs we should instead be revitalizing existing authentic town centers. This informative practical book describes methods for restoring the health and vibrancy of the streets and public spaces of our existing commercial districts in ways that will make them positive alternatives to suburban sprawl while respecting their historic character. Clearly written and with numerous photos to enhance the text, *Creating Vibrant Public Spaces* uses examples from communities across the United States to illustrate the potential for restoring the balance provided by older urban centers between automobile access and walkability. In advice that can be applied to a variety of settings and scales, Crankshaw describes the tenets of contemporary design theory, how to understand the physical evolution of towns, how to analyze existing conditions, and how to evaluate the feasibility of design recommendations. Good design in commercial centers, Crankshaw contends, facilitates movement and access, creates dynamic social spaces, and contributes to the sense of a center, a place where social, commercial, and institutional interaction is more vibrant than in surrounding districts. For all the talk of creating new green urban spaces, the ingredients of environmentally aware design, he points out, can often be found in the deteriorating cores and neighborhoods of towns and cities across the United States. With creativity, planning, and commitment, these centers can thrive again, adding to the quality of local life and contributing to the local economy too.

Within each tour, she offers tips on where to eat, drink, dance, and play, in addition to all the history, culture, and charm that New Orleans has to offer, and there's plenty in Faubourg Marigny; it provides tourists and locals alike with one heck of a good time.

Small-Town America Robert Wuthnow, 2015-05-26 A revealing examination of small-town life. More than thirty million Americans live in small out-of-the-way places. Many of them could have joined the vast majority of Americans who live in cities and suburbs. They could live closer to more lucrative careers and convenient shopping, a wider range of educational opportunities, and more robust health care. But they have opted to live differently. In *Small-Town America*, we meet factory workers, shop owners, retirees, teachers, clergy, and mayors, residents who show neighborliness in small ways but who also worry about everything from school closings and their children's futures to the ups and downs of the local economy. Drawing on more than seven hundred in-depth interviews in hundreds of towns across America and three decades of census data, Robert Wuthnow shows the

fragility of community in small towns He covers a host of topics including the symbols and rituals of small town life the roles of formal and informal leaders the social role of religious congregations the perception of moral and economic decline and the myriad ways residents in small towns make sense of their own lives Wuthnow also tackles difficult issues such as class and race abortion homosexuality and substance abuse Small Town America paints a rich panorama of individuals who reside in small communities finding that for many people living in a small town is an important part of self identity Cities Back from the Edge Roberta Brandes Gratz, Norman Mintz, 2000-01-27 A love song for the city this volume attractively packaged and richly illustrated is really a cookbook for downtown revitalization Wall Street Journal In this pioneering book on successful urban recovery two urban experts draw on their firsthand observations of downtown change across the country to identify a flexible effective approach to urban rejuvenation From transportation planning and sprawl containment to the threat of superstore retailers they address a host of key issues facing our cities today Roberta Brandes Gratz New York NY an award winning journalist and urban critic is author of the urban design classic The Living City A former staff reporter for the New York Post Gratz has written for the New York Times Magazine and other publications Norman Mintz New York NY has played a leading role in the field of downtown revitalization for more than twenty five years He is Design Director at the 34th Street Partnership in New York City and a consultant on downtown revitalization across the country
