The Limits of Idealism Melvyn L. Fein, 2007-08-28 If the truth be

known I am only a partially reformed idealist In the secret depths of my soul I still wish to make the world a better place and sometimes fantasize about heroically eradicating its faults When I encounter its limitations it is consequently with deep regret and continued surprise How I ask myself is it possible that that which seems so fight can be a chimera And why I wonder aren t people as courageous smart or nice as I would like The pain of realizing these things is sometimes so intense that I want to close my eyes and lose myself in the kinds of daydreams that comforted me as a youngster One thing is clear my need to come to grips with my idealism had its origin in a lifetime of naiveté From the beginning I wanted to be a good person Often when life was most treacherous I retreated into a corner from whence I escaped into reveries of moral glory When I was very young my faith was in religion In Hebrew school I took my lessons seriously and tried to apply them at home By my teen years this had been replaced by an allegiance to socialism In the Brooklyn where I grew up my teachers and relatives made this seem the natural course When I reached my twenties however and was obliged to confront a series of personal deficiencies psychotherapy shouldered its way to the fore

Beaver, 2017-07-05 Biosocial criminology is an emerging perspective that highlights the interdependence between genetic and environmental factors in the etiology of antisocial behaviors However given that biosocial criminology has only recently gained traction among criminologists there has not been any attempt to compile some of the classic articles on this topic Beaver and Walsh s edited volume addresses this gap in the literature by identifying some of the most influential biosocial criminological articles and including them in a single resource The articles covered in this volume examine the connection between genetics and crime evolutionary psychology and crime and neuroscience and crime This volume will be a valuable resource for anyone interested in understanding the causes of crime from a biosocial criminological perspective
