Social Inequality Stratification And Mobility:

Social Inequality, Stratification, and Mobility Judah Matras, 1975 *Research in Social Stratification and Mobility* Kevin T Leicht, 2003-12-03 Volume 20 of *Research in Social Stratification and Mobility* continues to remain at the forefront of the diverse group of social scientists who study social inequality and is now the official publication of the Social Stratification Research Group of the International Sociological Association RC 28 This issue features a comprehensive retrospective on the 40 years of contributions to social stratification research made by the late William Sewell and the Wisconsin Longitudinal Survey including an all inclusive bibliography of publications Other contributions address the growing differences between workers with full time jobs and various categories of the underemployed in Israel the United States and Germany social mobility in Korea and Sweden subjective responses to social inequality and the social consequences of status inconsistency and analyses of class consciousness and growing wealth inequality in the OECD *The Shape of Social Inequality* David Bills, 2005-08-24 This volume brings together former students colleagues and others influenced by the sociological scholarship of Archibald O Haller to celebrate Haller s many contributions to theory and research on social stratification and mobility All of the chapters respond to Haller s programmatic agenda for stratification research A full program aimed at understanding stratification requires first that we know what stratification structures consist of and how they may vary second that we identify the individual and collective consequences of the different states and rates of change of such structures and third seeing that some degree of stratification seems to be present everywhere that we identify the factors that make stratification structures change The contributors to this Festschrift address such topics as the changing nature of stratification regimes the enduring significance of class analysis the stratifying dimensions of race ethnicity and gender and the interplay between educational systems and labor market outcomes Many of the chapters adopt an explicitly cross societal comparative perspective on processes and consequences of social stratification The volume offers both conceptually and empirically important new analyses of the shape of social stratification **Inequality and Stratification in the United States** Robert A. Rothman, 1978 Monograph analyzing trends in social stratification in the USA reviews social theories on social stratification examines the dimensions of inequalities in income distribution and social status based on occupation sex ethnic group and race as well as relating economic implications and considers characteristics of social classes in the USA and patterns of social mobility Graphs references and statistical tables **Social Inequality, Stratification, and Social Mobility** Judah Matras, 1984 *Social Stratification and Inequality* Harold R. Kerbo, 1996 This text provides coverage of research and theory relating to social stratification in the US and selected international societies It adopts general conflict principles as its theoretical orientation and focuses on the development and maintenance of the structure of inequality This edition has been updated to include data from the 1990 census and features examples figures and tables A new chapter on race ethnicity and gender focuses on important issues of inequality There are also new chapters on Germany and on Japan

Routledge Handbook of World-Systems Analysis Salvatore Babones, Christopher Chase-Dunn, 2012-05-31 World systems analysis has developed rapidly over the past thirty years Today's students and junior scholars come to world systems analysis as a well established approach spanning all of the social sciences The best world systems scholarship however is spread across multiple methodologies and more than half a

dozen academic disciplines Aiming to crystallize forty years of progress and lay the groundwork for the continued development of the field the Handbook of World Systems Analysis is a comprehensive review of the state of the field of world systems analysis since its origins almost forty years ago The Handbook includes contributions from a global interdisciplinary group of more than eighty world systems scholars The authors include founders of the field mid career scholars and newly emerging voices Each one presents a snapshot of an area of world systems analysis as it exists today and presents a vision for the future The clear style and broad scope of the Handbook will make it essential reading for students and scholars of anthropology archaeology geography political science history sociology and development economics

Mobility and Inequality Gary S. Fields, David B. Grusky, Stephen L. Morgan, 2022 How often do working class children obtain college degrees and then pursue professional careers Conversely how frequently do the children of doctors and lawyers fail to enter high status careers upon completion of their schooling As inequalities of wealth and income have increased in industrialized nations over the past 30 years have patterns of between generation mobility changed In this volume leading sociologists and economists present original findings and conceptual arguments in response to questions like these After assessing the range of mobility patterns observed in recent decades the volume considers the mechanisms that generate mobility focusing on both the training and skills that are rewarded in the labor market as well as the role of educational institutions in certifying graduates for professional positions The volume concludes with chapters that assess the contexts of social mobility examining the impact of macroeconomic conditions and societal levels of inequality on social and economic mobility

Models of Secondary Education and Social Inequality Hans-Peter Blossfeld, Sandra Buchholz, Jan Skopek, Moris Triventi, 2016-11-25 From an international comparative perspective this third book in the prestigious eduLIFE Lifelong Learning series provides a thorough investigation into how social inequalities arise during individuals secondary schooling careers Paying particular attention to the role of social origin and prior performance it focuses on tracking and differentiation in secondary schooling examining the short and long term effects on inequality of opportunities It looks at ways in which differentiation in secondary education might produce and reproduce social inequalities in educational opportunities and educational attainment The international perspective allows illuminating comparison in light of the different models rules and procedures that regulate admission selection and learning in different countries

Social Inequality Across the Generations Jani Erola, Elina Kilpi, 2017 Social Inequality Across the Generations provides an innovative perspective on social stratification studies by advancing the theoretical and empirical case for the influence of resource compensation It examines whether resource compensation is a successful mechanism for social mobility contrasting it against competing types of resource accumulation such as multiplication So this book is the first to extensively cover the role of compensation in intergenerational attainment a new and rapidly spreading concept in stratification research The editors bring together research on different types of resources contributing to social mobility from the nuclear family extended family and society including in depth analysis of

the influence of wider family members in three different contexts and specific empirical chapters covering European and US societies The authors cover a variety of institutional systems that achieve similar results through contrasting methods and this conceptual framework reveals which policies have the biggest effect on social mobility The book offers original insight into intergenerational inequality and mobility for researchers and students of social stratification research and social mobility particularly within sociology social policy and economics Contributors include F Bernardi H P Blossfeld D Boertien J Erola M Gr tz J Helem e M Kainu J Kallio O Kangas E Kilpi Jakonen H Lehti A Minello J Palme F T Pfeffer I Prix H P yli E Saar N Wiborg

Stratification Roger Keith Kelsall, Helen M. Kelsall, 1974 *Research Handbook on Intergenerational Inequality* Elina Kilpi-Jakonen, Jo Blanden, Jani Erola, Lindsey Macmillan, 2024-05-02 The Research Handbook on Intergenerational Inequality is motivated by a core question in social science to what extent does one's family background and childhood experience predict success in life Bringing together experts in their respective fields from across the globe this innovative Research Handbook provides a comprehensive multidisciplinary account of the rich research on intergenerational inequality focusing on its origins in sociology and economics This title contains one or more Open Access chapters

The Routledge Handbook of Contemporary Inequalities and the Life Course Magda Nico, Gary Pollock, 2021-12-30 Drawing upon perspectives from across the globe and employing an interdisciplinary life course approach this handbook explores the production and reproduction of different types of inequality across a variety of social contexts Inequalities are not static easily measurable and essentially quantifiable circumstances of life They are processes which impact on individuals throughout the life course interacting with each other accumulating attenuating reproducing or distorting themselves along the way The chapters in this handbook examine various types of inequality such as economic gender racial and ethnic inequalities and analyse how these inequalities manifest themselves within different aspects of society including health education and the family at multiple levels and dimensions The handbook also tackles the global COVID 19 pandemic and its striking impact on the production and intensification of inequalities The interdisciplinary life course approach utilised in this handbook combines quantitative and qualitative methods to bridge the gap between theory and practice and offer strategies and principles for identifying and tackling issues of inequality This book will be indispensable for students and researchers as well as activists and policy makers interested in understanding and eradicating the processes of production reproduction and perpetuation of inequalities
