Social Movements and Global Social Change Robert K. Schaeffer, 2014-02-06 Social Movements and Global Social Change teaches students not only about how social change occurs but also how social movements can contribute to this change The book links two concepts in sociology that are often related in real life but that can seem disconnected in traditional approaches to teaching these courses The book examines different types of social movements including those often ignored in social change textbooks such as riots migration and disorganized protest It also looks at citizens rights and inequality in connection to social movements and change The book features global perspectives and examples throughout

Race Rights Reparations Fernne Brennan, 2017-07-14 This book considers institutional racism as a problem that exists within modern societies Its roots lie with the transatlantic slave trade and slavery and the solution involves ridding society of the problem It is argued here that first there needs to be an acceptance of its existence then developing the tools needed to deal with it and finally to

implement those tools so that institutional racism can be permanently removed from society The book has four themes the first considers the nature of institutional racism the second theme looks at instances of institutional racism through matters such as deaths in custody and skin lightening the third considers the concept of reparations and the final area looks at the development of social movements as a way of pushing institutional racism up the political agenda The development of a social movement is part of a social discourse which would for example push mentoring as a form of reparations There is a need for more research on the manifestations of institutional racism and this book is part of that discourse It is argued that the legacy of the slave trade and slavery is continuing and contemporary through the presence of institutional racism in society This problem has not been addressed through legislation and policies devised to combat racial discrimination Institutional racism needs to be understood as being located in the processes and procedures of societal institutions

Minnesota Law Review ,2014-04 **Women's Movements, the State, and the Struggle for Abortion Rights** Ana Maria Prata Amaral Pereira,2007 **Make Poverty History** Nicolas Sireau,2009-01-15 Make Poverty History was a major episode of protest that took place in 2005 in the UK with the aim of influencing the G8 meeting in July of that year in Edinburgh This book follows the campaign throughout its lifetime and unpacks the tensions that developed around the branding of Make Poverty History particularly the conflict between campaigners and marketers over the content of messages Looking at how attitudes towards government and political opportunities influenced the negotiation of communications it analyses how these communications were understood by the campaign s three audience segments the mass public the interested and the activists It looks at public stereotypes on global poverty and whether the campaign managed to modify them It maps out Make Poverty History s frame on economic justice and confronts it with audience reactions The book ends by looking at the campaign s troubled relationship with celebrities Book cover **Moving and Jamming** Åsa Wettergren,2005 **Gaon Ganrajya (village Republic) Movement** V. Annamalai,2011 **Teaching Sustainability** Wendy Petersen Boring,William Forbes,William Forbes (Professor of geography),2013 American colleges and universities have been relatively quick to address the challenge of sustainability in operations Ironically they have been slower to respond in regard to their core mission educating students Teaching sustainability aims to redress this shortcoming by opening doors to education for sustainability in the humanities and social sciences The essays in this collection are richly diverse They investigate ways sustainability education pushes back against traditional disciplines while it simultaneously benefits from the perspectives and skills these fields have to offer They also address big questions such as how to make education meaningful how to examine hidden assumptions underlying current curricula and how a focus on sustainability can answer critics of contemporary higher education The heart of teaching sustainability is reflection and advice on pedagogy From these richly diverse case studies important common themes emerge the symbiotic relationship between classroom and campus operations techniques for transforming the campus itself from merely a setting to a learning laboratory and the potential of community partners for teaching sense of place An equally significant theme is the overlap between sustainability education and emerging best practice in pedagogy Essays on theory and practice individual and collaborative projects service learning and consequential activities all exemplify how sustainability and deep learning go hand and hand Like sustainability itself the volume infuses theory with practical application The contributors demonstrate the ways in which a single course can serve as a powerful change agent for an entire campus how to build bridges between faculty and administrators and even how to

move forward on modest budgets The authors themselves constitute a network of advisors Publisher s description
