Sustainability Challenges and Solutions at the Base of the Pyramid Prabhu Kandachar, Minna Halme, 2017-09-08 Around the turn of the millennium it had become painfully evident that development aid charity or global business as usual were not going to be the mechanisms to alleviate global poverty Today there is little dispute that poverty remains the most pressing global problem calling for innovative solutions One recent strategy is the Base of the Pyramid BoP concept developed by Prahalad and Hart which relies on entrepreneurial activity tapping into the previously ignored markets of the economically most disadvantaged It is a process requiring innovations in several disciplines technological social and business This book covers a number of areas First much of the current BoP discussion emphasises targeting products to the needs of the poor But do we actually know what the real needs of the poor are This book takes a bottom up human centred approach and examines examples that truly engage the poor in BoP product and service development What types of needs assessment

methodologies are indicated considering the cultural differences in BoP countries Are the existing methodologies adequate Do they need to be redefined and redeveloped Second the book considers how we can balance poverty alleviation and stimulate economic growth without stressing the ecosystem Tragically the poor are hardest hit by the adverse effects of environmental deterioration such as water shortages climate change or the destruction of habitats While the economic welfare of the poor is critical the BoP approach must balance its inherent paradox of encouraging greater consumption while avoiding further pressures on environmental sustainability The link between the BoP approach and sustainable development is a key feature of this book Third it looks at innovation and asks what kinds of bottom up innovation open source technological social and business support BoP initiatives and sustainable development Fourth the book deals with the relationship between development assistance and BoP Is a BoP strategy the antithesis to development aid or can these two co exist or even complement each other Finally the book raises questions about the relationship between corporate responsibility and BoP Is BoP a new form of corporate neo colonialism or a new form of corporate responsibility Although the BoP concept has unleashed an extensive and generally enthusiastic response from academics businesses NGOs and governments the knowledge domain around this concept is still in the early stages of development This book addresses that need with a focus on the needs of the end users the poor as a starting point for BoP products and innovations With contributions from both supporters and critics it provides a treasure trove of global knowledge on how the concept has developed what its successes and failures have been and what promise it holds as a long term strategy for alleviating poverty and tackling global sustainability

Family Disintegration Anton Purcell, 2002 The contemporary family is being distracted disturbed and distraught by societal pressures from every direction The nuclear family concept believed crucial to child rearing is becoming passé according to census data Or has the wave of disruption to families crested It is hoped that this bibliography will serve as a useful tool to researchers seeking further information on families and the pressures being exerted upon them in the 21st century

Arms Diffusion Thomas W. Zarzecki, 2018-12-20 Weapons proliferation is one of the most pressing global concerns following the end of the Cold War Despite the absence of an overarching superpower conflict armaments and related technologies have continued to spread throughout the international system This has been particularly true in areas like East Asia and the Middle East where the traditional two party arms races are not readily apparent This text addresses these concerns and shortcomings using data on fourteen specific military technological innovations that diffused throughout the international system from 1960 to 1997

The 21st-Century Community College: A Strategic Guild To Maximizing Labor Market Responsiveness, Vol. 2, September 2004 ,2004 **Book Review Index Cumulation** Dana Ferguson,2005-09 Book Review Index provides quick access to reviews of books periodicals books on tape and electronic media representing a wide range of popular academic and professional interests The up to date coverage wide scope and inclusion of citations for both newly published and older materials make Book Review Index an exceptionally useful reference tool More than 600 publications are indexed including journals and national general interest publications and newspapers Book Review Index is available in a three issue subscription covering the current year or as an annual cumulation covering the past year **Partnership and the High Performance Workplace** Andy Danford,Mike Richardson,Paul Stewart,Stephanie Tailby,Martin Upchurch,2005-08-02 The promotion of workplace partnership in the high performance workplace has become central to policy debates on the modernization of employment relations in British industry This book provides critical insights into the dynamics of partnership by way of in depth case studies of employee experience in an under researched industry noted for its high concentrations of skilled workers and graduates Drawing on rich interview and questionnaire data the authors highlight considerable conflicts of interest in the development of partnership that derive from the competitive capitalist environment in which management strategies operate *Trade Unions and Democracy* Geoffrey Wood,2017-09-29 Trade Unions and Democracy explores the role of trade unions as products of and agents for democracy As civil society agents unions may promote democracy within the wider society especially in the case of authoritarian regimes or other rigid political systems by acting as watchdogs and protecting hard won democratic gains Established democratic institutions in many advanced societies are facing new challenges The problem with using trade unions for this purpose is that they remain locked in a cycle of political marginalization and decline Beyond this there are ironically serious questions about whether unions themselves internally function as democracies Certainly there are tensions between rank and file membership and an authoritarian leadership with this infighting having possible effects on strategic deals or alliances and member accountability and actions On the other hand trade unions continue to represent a significant component of society within most industrialized countries and in many case they have a demonstrated capacity for working with other elements of civil society Looking forward trade unions may be able to play a vital role in channeling and focusing spontaneous popular upsurges In the process they may

revitalize themselves through use of greater internal democracy and become geared toward more diverse constituencies The question is will they fulfill this promise or continue to suffer from internal breakups and external breakdowns Can trade unions save themselves and democracy or will both deteriorate in time Trade Unions and Democracy brings together a distinguished panel of leading and emerging scholars in the field and provides a critical assessment of the current role of trade unions in society It explores their capacity to affect political policies to ensure greater accountability and fairness It also explores the nature of and extent to which internal representative democracy actually operates within trade unions themselves Mark Harcourt is a professor in the Department of Strategic Management and Leadership at Waikato University in New Zealand The Bibliographic Index ,2005 Comparative Employment Relations in the Global Economy Carola Frege,John Kelly,2013-07-24 Employment Relations is widely taught in business schools around the world Increasingly however more emphasis is being placed on the comparative and international dimensions of the relations between employers and workers It is becoming ever more important to comprehend today s work and employment issues alongside a knowledge of the dynamics between global financial and product markets global production chains national and international employment actors and institutions and the ways in which these relationships play out in different national contexts This textbook is the first to present a cross section of country studies including all four BRIC countries Brazil Russia India and China alongside integrative thematic chapters covering all the important topics needed to excel in this field The textbook also benefits from the editors and contributors experience as leading scholars in Employment Relations The book is an ideal resource for students on advanced undergraduate and postgraduate comparative programmes across areas such as Employment Relations Human Resource Management Political Economy Labour Politics Industrial and Economic Sociology Regulation and Social Policy Uneasy Partnership Geoffrey Hale,2018-01-25 The Canadian government s pursuit of economic growth is central to its economic policy and to the nature of its relationship with the business community The government depends on business investment for economic growth vital to the prosperity of citizens the generation of tax revenues and enough public satisfaction to win re election Businesses depend on the government for stable sets of rules that are necessary for success They often look to governments for protection against threats to their well being and for assistance in competing with other businesses In this new edition of Uneasy Partnership Geoffrey Hale examines the interdependent relationship between Canadian governments and businesses considering the political role of the government in the economy and what effect this has on the business environment Hale provides an overview of the historical dimensions of Canada s political economy and relations between government and business giving readers background to consider topics such as corporate power the implications of Canada s economic structure regional economic differences and the role of interest groups in political and policy processes among others In a thoughtful and well researched style Hale lays out how the partnership between business and government in Canada is an uneasy one and one whose capacity to adapt to ongoing

changes is essential in an uncertain world **Voice and Non-union Workplace** Paul J. Gollan, 2005 The papers in this e book examine the development of non union employee relations practices and outcomes from an international perspective focusing on firms attempting to provide workers with a voice The papers draw primarily on in depth case studies as a means to assess the impact of voice arrangements on employee relations processes and outcomes Resources in Education, 2001-10 **European Integration and Baltic Sea Region Studies: University-Business Partnership through the Triple Helix Approach** Tatjana Muravska, Gunnar Prause, 2012-12-01 **Challenge Social Innovation** Hans-Werner Franz, Josef Hochgerner, Jürgen Howaldt, 2012-12-13 In recent years social innovation has experienced a steep career Numerous national governments and large organisations like the OECD the European Commission and UNESCO have adopted the term Social innovation basically means that people adopt new social practices in order to meet social needs in a different or more effective way Prominent examples of the past are the Red Cross and the social welfare state or at present the internet 2 0 transforming our communication and cooperation schemes requiring new management concepts even empowering social revolutions The traditional concept of innovation as successful new technological products needs fundamental rethinking in a society marked by knowledge and services leading to a new and enriched paradigm of innovation There is multiple evidence that social innovation will become of growing importance not only concerning social integration equal opportunities and dealing with the greenhouse effects but also with regard to preserving and expanding the innovative capacity of companies and societies While political authorities stress the social facets of social innovation this book also encompasses its societal and systemic dimensions collecting the scientific expertise of renowned experts and scholars from all over the world Based on the contributions of the first world wide science convention on social innovation from September 2011 in Vienna the book provides an overview of scientific approaches to this still relatively new field Forewords by Agn s HUBERT Member of the Bureau of European Policy Advisers BEPA of the European Commission and Antonella Noya Senior Policy Analyst at OECD manager of the OECD LEED Forum on Social Innovations Partnership and Modernisation in Employment Relations Miguel Martinez Lucio, Mark Stuart, 2004-10-28 This collection examines the significance of partnership based approaches to the modernization of employment relations Drawing from the work of leading researchers the contemporary interest in partnership is situated within an historical political and practical context Particular attention is given to exploring and understanding the practices and experiences of partnership at the workplace
