Social Policy And Aging A Critical Perspective

**Carroll L. Estes, with Nicholas B.
DiCarlo**

Social Policy And Aging A Critical Perspective:

Social Policy and Aging Carroll L. Estes, 2001-03-30 This groundbreaking book provides comprehensive treatment of the political economy of aging by a scholar widely credited as the founder and key thinker of this field in the US and internationally The body of work presented in this volume in developing this critical perspective aims to contribute to the understanding of old age and aging in the context of problems and issues of the larger social order in the world's most advanced capitalist nation the U S A Since Estes first writing on the political economy of aging in 1979 there has been growing recognition and incorporation of her critical perspective as one of the major paradigms in the field of aging

Social Theory, Social Policy And Ageing: A Critical Introduction Biggs, Simon, Estes, Carroll, Phillipson, Chris, 2003-11-01 This work covers theoretical developments and issues influencing the study of adult ageing It explores contemporary trends in social policy drawing on the experience of ageing in the USA Europe and an increasingly global environment Feminist perspectives on ageing are also covered Comprehensive Handbook of Social Work and Social Welfare, Social Policy and Policy Practice , 2008-03-31 Comprehensive Handbook of Social Work and Social Welfare Volume 4 The Profession of Social Work features contributions from leading international researchers and practitioners and presents the most comprehensive in depth source of information on the field of social work and social welfare *Handbook of Sociology of Aging* Richard A. Settersten, Jr., Jacqueline L. Angel, 2011-05-11 The Handbook of Sociology of Aging is the most comprehensive engaging and up to date treatment of developments within the field over the past 30 years The volume represents an indispensable source of the freshest and highest standard scholarship for scholars policy makers and aging professionals alike The Handbook of Sociology of Aging contains 45 far reaching chapters authored by nearly 80 of the most renowned experts on the most pressing topics related to aging today With its recurring attention to the social forces that shape human aging and the social consequences and policy implications of it the contents will be of interest to everyone who cares about what aging means for individuals families and societies The chapters of the Handbook of Sociology of Aging illustrate the field's extraordinary breadth and depth which has never before been represented in a single volume Its contributions address topics that range from foundational matters such as classic and contemporary theories and methods to topics of longstanding and emergent interest such as social diversity and inequalities social relationships social institutions economies and governments social vulnerabilities public health and care arrangements The volume closes with a set of personal essays by senior scholars who share their experiences and hopes for the field and an essay by the editors that provides a roadmap for the decade ahead The Handbook of Sociology of Aging showcases the very best that sociology has to offer the study of human aging The SAGE Handbook of Social Gerontology Dale Dannefer, 2010-09-14 This volume reflects the emergence of ageing as a global concern including chapters by international scholars from Asia Australasia Europe and North America It provides a comprehensive overview of key trends and issues in the field drawing upon the full

range of social science disciplines The Handbook is organized into five parts each exploring different aspects of research into social aspects of ageing Disciplinary overviews summaries of findings from key disciplinary areas within social gerontology Social relationships and social differences topics include social inequality gender and ageing the role of religion inter generational ties social networks and friendships in later life Individual characteristics and change in later life chapters in this section examine different aspects of individual aging including self and identity cognitive processes and biosocial interactions and their impact on physical and psychological aging Comparative perspectives and cultural innovations topics in this section include ageing and development ageing in a global context migration and cross cultural perspectives on grandparenthood Policy issues The final section examines some of the main policy concerns affecting older people across the world Topics include developments in social policy long term care technology and older people end of life issues work and retirement crime and older people and the politics of old age This will be essential reading for all students researchers and policy makers concerned with the major issues influencing the lives of older people across the globe

New Directions in the Sociology of Aging National Research Council, Division of Behavioral and Social Sciences and Education, Committee on Population, Panel on New Directions in Social Demography, Social Epidemiology, and the Sociology of Aging, 2013-12-26 The aging of the population of the United States is occurring at a time of major economic and social changes These economic changes include consideration of increases in the age of eligibility for Social Security and Medicare and possible changes in benefit levels Furthermore changes in the social context in which older individuals and families function may well affect the nature of key social relationships and institutions that define the environment for older persons Sociology offers a knowledge base a number of useful analytic approaches and tools and unique theoretical perspectives that can facilitate understanding of these demographic economic and social changes and to the extent possible their causes consequences and implications New Directions in the Sociology of Aging evaluates the recent contributions of social demography social epidemiology and sociology to the study of aging and identifies promising new research directions in these sub fields Included in this study are nine papers prepared by experts in sociology demography social genomics public health and other fields that highlight the broad array of tools and perspectives that can provide the basis for further advancing the understanding of aging processes in ways that can inform policy This report discusses the role of sociology in what is a wide ranging and diverse field of study a proposed three dimensional conceptual model for studying social processes in aging over the life cycle a review of existing databases data needs and opportunities primarily in the area of measurement of interhousehold and intergenerational transmission of resources biomarkers and biosocial interactions and a summary of roadblocks and bridges to transdisciplinary research that will affect the future directions of the field of sociology of aging

Annual Review of Gerontology and Geriatrics, Volume 28, 2008 Harvey L. Sterns, Marie A. Bernard, 2008-12-12 Print CourseSmart

Handbook of Theories of Aging, Second Edition Merril Silverstein PhD, Vern L. Bengtson PhD, Norella Putney PhD, Daphna

Gans PhD,2008-10-27 The field of gerontology has often been criticized for being data rich but theory poor The editors of this book address this issue by stressing the importance of theory in gerontology While the previous edition focused on multidisciplinary approaches to aging theory this new edition provides cross disciplinary integrative explanations of aging theory The contributors of this text have reached beyond traditional disciplinary boundaries to partner with researchers in adjacent fields in studying aging and age related phenomena This edition of the Handbook consists of 39 chapters written by 67 internationally recognized experts in the field of aging It is organized in seven sections reflecting the major theoretical developments in gerontology over the past 10 years Special Features Comprehensive coverage of aging theory focusing on the biological psychological and social aspects of aging A section dedicated to discussing how aging theory informs public policy A concluding chapter summarizing the major themes of aging and offering predictions about the future of theory development Required reading for graduate students and post doctoral fellows this textbook represents the current status of theoretical development in the study of aging

Reconstructing Old Age Chris Phillipson,1998-10-26 In this timely and authoritative overview on social gerontology and social theory Chris Phillipson outlines the changing contexts and experiences associated with later life as we move into a new century The book critically reviews the different theoretical explanations which attempt to explain these changes Phillipson shows how in late modernity changes to pensions employment and retirement and intergenerational relations are placing doubt on the meaning of growing old He suggests that later life is being reconstructed as a period of potential choice on the one hand but also of risk and danger on the other This book will be essential reading for students and academics in social gerontology as well as for students and academics in sociology social policy and related disciplines interested in the future of an ageing population and the future of social gerontology

The Encyclopedia of Adulthood and Aging, 3 Volume Set Susan K. Whitbourne,2016-01-19 This authoritative reference work contains more than 300 entries covering all aspects of the multi disciplinary field of adult development and aging Brings together concise accurate summaries of classic topics as well as the most recent thinking and research in new areas Covers a broad range of issues from biological and physiological changes in the body to changes in cognition personality and social roles to applied areas such as psychotherapy long term care and end of life issues Includes contributions from major researchers in the academic and clinical realms 3 Volumes www.encyclopediaadulthoodandaging.com

Handbook of Theories of Aging Merrill Silverstein,Vern L. Bengtson,Vern L. Bengtson, PhD,Norella Putney,Daphna Gans,2008-10-27 The field of gerontology has often been criticized for being data rich but theory poor The editors of this book address this issue by stressing the importance of theory in gerontology While the previous edition focused on multidisciplinary approaches to aging theory this new edition provides cross disciplinary integrative explanations of aging theory The contributors of this text have reached beyond traditional disciplinary boundaries to partner with researchers in adjacent fields in studying aging and age related phenomena This edition of the Handbook consists of 39

chapters written by 67 internationally recognized experts in the field of aging It is organized in seven sections reflecting the major theoretical developments in gerontology over the past 10 years Special Features Comprehensive coverage of aging theory focusing on the biological psychological and social aspects of aging A section dedicated to discussing how aging theory informs public policy A concluding chapter summarizing the major themes of aging and offering predictions about the future of theory development Required reading for graduate students and post doctoral fellows this textbook represents the current status of theoretical development in the study of aging

Aging Social Policies Robbyn R. Wacker, Karen A Roberto, 2010-12-07 Due to population explosion and a global increase in average life expectancies an unprecedentedly high percentage of the world s population is aging By the middle of this century there will be up to 2 billion individuals over the age of 65 a demographic shift never before experienced in our human history In addition declining birth rates in industrialized countries means a decrease in the number of adults under 64 In Aging Social Policies An International Perspective the authors consider how policy domestic and international affects and will continue to affect the lives of our aging population

Encyclopedia of Health and Aging Kyriakos S.

Markides, 2007-04-13 The Encyclopedia of Aging and Health is both a comprehensive reference of best practices across gerontology related fields and a philosophical work that inspires its readers to embrace a loftier and more global view of aging beyond disability and medications Gerontologist As an ever increasing percentage of the population of western societies enters old age health issues grow in importance in terms of the well being of this population economic impact within the health care system impacts on families and family relationships and so many other ways The Encyclopedia of Health and Aging presents state of the art research and ready to use facts on health and aging This one volume resource captures some of the excitement of the research in the field in terms of new findings as well as conceptual developments guiding research practice and policy With more than 200 entries it covers the biological psychological social and economic aspects of health and aging and impacts within the health care system This Encyclopedia also focuses heavily on geriatrics with respect to geriatric syndromes and common diseases of aging Key Features Addresses a full spectrum of topics including acute illness Alzheimer s disease bereavement economic dependency health care costs health promotion hospice care long term care medications nursing homes optimal aging public policy quality of life spousal care giving widowhood and much more Discusses landmark studies such as Duke Longitudinal Studies the Established Populations for the Epidemiological Study of the Elderly Health and Retirement Study and the National Long Term Care Survey as well as

important programs Social Security Meals on Wheels and Medicaid Medicare etc Offers cross disciplinary coverage with contributions from the fields of gerontology epidemiology health psychology biology sociology health and medicine and public policy Provides health and aging issues from around the world including Mexico Canada Latin America Europe Asia Africa Australia and New Zealand Includes a list of 45 online resources on health and aging Key Themes Aging and the Brain Diseases and Medical Conditions Drug Related Issues Function and Syndromes Mental Health and Psychology Nutritional Issues Physical Status Prevention and Health Behaviors Sociodemographic and Cultural Issues Studies of Aging and Systems of Care The Encyclopedia of Health and Aging is a must have reference for any academic as it appeals to a broad audience such as scholars within programs of gerontology and health graduate students members of the media policy makers and health care advocates and the general reader

Social Insurance and Social Justice Leah Rogne,Carroll Estes,Brian Grossman,Brooke Hollister,Erica Solway,2009-03-23 We must tell the story of how social insurance programs have assured basic economic and health security for millions of Americans This book is a must read for anyone who cares about these goals From the Foreword by Barbara Kennelly President and CEO National Committee to Preserve Social Security and Medicare This politically charged provocative text serves as an introduction to social insurance programs examining all aspects of these hotly debated policies The editors cover cutting edge topics including Social Security and privatization universal health insurance and how America's changing demographics will impact social security in the years to come Five key sections cover the critical topics Social Insurance History Politics and Prospects examines the foundational social insurance principles upon which Social Security Medicare and other programs are based What's at Stake identifies the risks posed to women minorities and the elderly if they could no longer depend on social insurance programs The Ongoing Debates on Social Insurance discusses public opinions of social insurance programs and responds to arguments supporting privatization Critical Perspectives on Social Insurance Reform presents international experiences and policy trends and analyzes reform movements from a social justice perspective Teaching Social Insurance Critical Pedagogy and Social Justice presents pedagogical strategies to help students understand influence and engage in an informed debate about social policy

Social Suffering in the Neoliberal Age Karen Soldatic,Louise St Guillaume,2022-04-27 This book provides a rich synthesis of research and theory of nascent and emergent critically engaged work examining changing welfare structures regimes and technologies and the social suffering that is generated in everyday lives By rigorously examining social security restructuring with the turn to austerity governance and its daily practices of managing regulating and subordinating individuals peoples and communities this collection delineates the machinery of state power and logics designed to manage contain and control the lives of some of the most poorest and marginalised citizens who are reliant on social welfare income payments A core strength of the book is first its unpacking of austerity governance across diverse communities and second the elevation of community resistance and mobilisation against the very measures of austerity Combined the work maps out

the logics of state power and everyday practices of embedded contestation and confrontation Using the case study of Australia to discuss sociolegal recategorisations automation of welfare governance technologies of policy design and delivery conditionality and systems of penalisation this book will be of interest to all scholars and students of sociology critical theory social policy social work and disability studies Indigenous studies and settler colonialism **Aging A-Z** Carroll L. Estes, with Nicholas B. DiCarlo, 2019-04-10 This provocative intellectually charged treatise serves as a concise introduction to emancipatory gerontology examining multiple dimensions of persistent and hotly debated topics around aging the life course the roles of power politics and partisanship culture economics and communications Critical perspectives are presented as definitions for reader understanding with links to concepts of identity knowledge construction social networks social movements and inequalities With today's intensifying concentration of wealth and corporatization precarity is the fate for growing numbers of the world's population Intersectionality as an analytic concept offers a new appreciation of how social advantage and disadvantage accumulate and how constructions of race ethnicity class ability and gender influence aging The book's entries offer a bibliographic compendium crediting the salience of early pioneering theorists and locating these within the cutting edge of research social behavioral policy and gene environment sciences that currently advances our understandings of human development trauma and resilience Accompanying these foundations are theories of resistance for advancing human rights and the dignity of marginalized populations **Late-Life Homelessness** Amanda Grenier, 2022-01-15 Around the world and across a range of contexts homelessness among older people is on the rise In spite of growing media attention and new academic research on the issue older people often remain unrecognized as a subpopulation in public policy programs and homeless strategies As such they occupy a paradoxical position of being hypervisible while remaining overlooked Late Life Homelessness is the first Canadian book to address this often neglected issue Basing her analysis on a four year ethnographic study of late life homelessness in Montreal Canada Amanda Grenier uses a critical gerontological perspective to explore life at the intersection of aging and homelessness She draws attention to disadvantage over time and how the condition of being unhoused disrupts a person's ability to age in place resulting in experiences of unequal aging Weaving together findings from policy documents stakeholder insights and observations and interviews with older people this book demonstrates how structures organizational practices and relationships related to homelessness and aging come to shape late life Situated in the context of an aging population rising inequality and declining social commitments Late Life Homelessness stresses the moral imperative of responding justly to the needs of older people as a means of mitigating the unequal aging of unhoused elders Environmental Gerontology Graham D. Rowles, PhD, Miriam Bernard, PhD, 2013 This book addresses issues on both sides of the Atlantic examines the theoretical underpinnings of environmental gerontology and provides useful practical applications and guiding principles Recommended Choice Current Reviews for Academic Libraries The environments in which people live out their later lives have a strong

impact on their identity and provide opportunities for nourishing social interactions This volume translates the insights derived from contemporary research on residential environments and public spaces that enhance well being into practical recommendations for the design of such beneficial community environments The text is grounded in the conceptual and theoretical underpinnings of current research on place attachment environmental meaning and community living in later life Emphasis is placed on how to design residential spaces that facilitate the development of a sense of place or home and investigation is made into the kinds of lifestyles such spaces foster and support A major theme pervading the text is the juxtaposition of private and public space The book also addresses such themes as the transformation of spaces into places of personal identification and attachment the need for shared intergenerational spaces and consideration of diverse populations when designing public spaces The book also considers how emerging public policy agendas affect the development and management of environments for the elderly Environmental Gerontology includes the contributions of scholars in anthropology architecture economics education geography gerontology planning psychology sociology and numerous health sciences who hail from North America Europe and Asia With its strong interdisciplinary focus this text offers innovative and judicious recommendations for the creation of community environments that are truly beneficial for older adults Key Features Provides an up to date synthesis of the latest research on the meaning of place to older people and its relationship to well being Offers fresh insight and critical perspectives on community planning and environmental design Considers private residences retirement communities long term care facilities and public and private community spaces Includes guiding principles for environmental design and practice relevant to the documented needs of older people Synthesizes contributions from international scholars in many disciplines
