the Life Course Jill Quadagno, 2021-02-16 The Social Forces in Later Life Robert C. Atchley, 1980 **Social Gerontology** M. B. Kleiman, 1983-05-04 **Key Concepts in Social Gerontology** Judith E Phillips, Kristine J Ajrouch, Sarah Hillcoat-Nalletamby, 2010-03-18 Far from a dictionary the concepts are portrayed as complex and conflicting definitions and usages are both noted and evaluated Each article includes a necessarily selective set of references and cross references to other concepts included in the book Moreover the coverage and evaluation of the concepts is right at the current leading edge in a rapidly moving field Victor Marshall Department of Sociology and Institute on Aging University of North Carolina at Chapel Hill The concepts are very clear and very relevant and fantastic for my group of undergraduate students I found each concept to be succinctly and simply captured holding enough information to satisfy initial cravings and complex enough to tempt further reading I had originally thought that this book would provide supplementary reading as part of my Healthy Ageing course but have changed my mind to essential reading now I have had the opportunity to read the entire book Dr Meredith Tavener Groningen University Social gerontology is a new and dynamic field reflecting the increasing interest in ageing across the world This book provides a readily accessible guide to well established and contested issues as well as new concepts emerging through cutting edge research in the discipline The entries give concise lucid knowledge on what constitutes the building blocks of social gerontology and sets out a clear review of the core concepts both classic and emerging in this subject area Each concept is explored in terms of its history application usefulness to theory and research

and significance in practice They go beyond simple definitions of the concepts to look at how each issue has shaped the discipline of social gerontology today This book is authored by social gerontologists from the UK and the USA Together they present an interdisciplinary perspective and reflect a global approach to the presentation of key concepts in social gerontology

Social Forces and Aging Robert C. Atchley, 1997 Atchley's interdisciplinary approach has produced a text which provides the concepts information insight and examples students need to achieve a basic understanding of aging as a social process Covering the physical problems inner experiences and instrumental needs of the aging Atchley examines aging on both an individual and societal level Atchley covers major areas of theory research social policy and practice in a clear and organized manner to make social gerontology accessible to students from all backgrounds

The Need for Theory Simon Biggs, Jon Hendricks, Ariela Lowenstein, 2020-11-25 The Need for Theory speaks to the burgeoning need for critical thinking in social gerontology The editors have brought together some of the foremost contributors to theoretical advances in the field This volume incorporates state of the art theorizing with a focus on selected topical areas facing gerontologists around the world Using their keen insights into substantive issues the contributors examine personal and structural changes affecting individuals over the life course Extolling the need for theory is not enough the contributors focus their insights on a panoply of substantive issues linking the personal with the political and with the structural parameters that shape the process of aging no matter where it occurs

Aging and the Life Course Jill S. Quadagno, 2021-02 This book includes all the topics typically covered in a social gerontology text and contains three distinctive chapters One of these is a separate chapter on the life course Chapter 2 Life Course Transitions The growing emphasis in the field of social gerontology on the relationship between the quality of life in old age and an individual's cumulative experiences choices constraints and opportunities over the life course Another distinctive chapter focuses on the long term care of the frail elderly Chapter 12 Caring for the Frail Elderly A substantial body of research on this subject examines the burdens and satisfactions family members experience in caring for their aging kin the problems associated with nursing home care and the advantages and disadvantages of various alternative living arrangements

Old Age in Modern Society Christina R. Victor, 2013-11-11 Old age is a part of the lifecycle about which there are numerous myths and stereotypes To present an overstatement of commonly held beliefs the old are portrayed as dependent individuals characterized by a lack of social autonomy unloved and neglected by both their immediate family and friends and posing a threat to the living standards of younger age groups by being a burden that consumes without producing Older people are perceived as a single homogeneous group and the experience of ageing characterized as being the same for all individuals irrespective of the diversity of their circumstances before the onset of old age In this book detailed statistical material is used to portray the circumstances of older people in modern society in an attempt to evaluate the appropriateness or otherwise of the major stereotypes of later life This volume does not address ageing from a psychological or micro social perspective In particular we do not explore major issues relating to old age

Rather we feel that from the extensive collection of surveys concerned with the elderly we can provide a context within which individual elderly people can be studied from more anthropological or biographical perspectives **Social Gerontology**
