Springer, Albert R. Roberts, 2017-05-16 Social Work in Juvenile and Criminal Justice Systems sets the standard of care for mental health treatment and the delivery of social services to crime victims juvenile and adult offenders and their families The chapters all authored by experts in the field and all committed to the mission of social justice are written with the clear understanding that we cannot study criminal justice in a vacuum Therefore a major focus of the book is on the renewed

growing sense of the profession's obligation to social justice. Each chapter interconnects with the various components of juvenile and criminal justice. Another prominent aspect of the book is that it is strength based. It views those involved in the criminal and juvenile justice systems as individuals rather than inmates or criminals, each with unique positive talents and abilities. The book is divided into four sections. The first section discusses forensic social work including crime and delinquency theories, trends, and ethical issues. The second section prepares social workers for practice in correctional institutions and explores crisis intervention with victims of violence, reentry of adult offenders in society, and aging in prison. The third section covers assessment and intervention in child sexual abuse, mental health, and substance abuse, interpersonal violence, and prevention, child welfare, and juvenile justice. The final section presents an overview on social work in the twenty-first century, which includes restorative justice and the justice system, new ways of delivering justice, domestic violence, neighborhood revitalization, race and ethnicity, and social work practice with LGBTQ offenders. This book will be the best single source on social work in criminal justice settings and will prove to be an invaluable resource for the many professionals who have responsibility for formulating and carrying out the mandates of the criminal justice system.

Criminology Stephen Eugene Brown, Finn-Aage Esbensen, Gilbert Geis, 2013. This highly acclaimed criminology text presents an up-to-date review of rational choice theories including deterrence, shaming, and routine activities.

**Police and the Unarmed Black Male Crisis** Sharon E. Moore, A. Christson Adedoyin, Michael A. Robinson, 2018-10-25. Presenting both historical and contemporary discussions and coverage, this book provides an in-depth and critical analysis of police brutality and the killing of unarmed black males in the United States of America. Within the book, contributors cover five key areas: the historical context and contemporary evidence of police brutality of unarmed black people in the USA; the impact of police aggression on blacks; well-being; novel strategies for prevention and intervention; the advancement of a cordial relationship between police and black communities; and how best to equip the next generation of scholars and professionals. Each contributor provides a simple-to-understand, thought-provoking, and creative recommendation to address the perennial social ill of police brutality of black males, making this book an excellent resource for students, scholars, and professionals across disciplinary spectrums. This book was originally published as a special issue of the *Journal of Human Behavior in the Social Environment*.
