Society Of Space A Daring Look Into What:

BOLD NEW WORLD and THE POTENTIALIST MOVEMENT Dr. Freeman Rader Ph.D., 2019-10-30 This very large 465 page book is actually 2 separate but closely related books bound together as one an inspirational novel and a thought provoking philosophy book Together they tell the story of a bold and visionary group of people creating a highly advanced prototype community and way of life based upon applying a philosophy that believes in human potential rather than supernatural forces helps individuals self actualize promotes values and responsibility for SELF SOCIETY and creates harmonious communities in which human potential flourishes This results in happy people doing great things and achieving a tremendous sense of enjoyment and accomplishment in the process something we all seek As the story unfolds a bright progressive group of people in Colorado adopt this new philosophy become part of the Potentialist Movement and focus on how to fund and develop this highly advanced community To meet the challenge the founder Freeman Valor Smith convinces the Hollywood producer Steven Spielberg that the story would make a good film thus ingeniously getting the producer to make the development of the project possible by funding its construction as part of the cost of production So the project gets underway But the powerful editor of the local newspaper Norman Sully has a deep grudge against the founder and plans to totally disrupt the group s efforts so he hires an attractive undercover reporter Serene St Haven to infiltrate the group and dig up as much dirt as possible But a romance ensues between the reporter and the founder that changes the situation dramatically So the editor takes drastic measures on his own to sabotage the project What results is an intricate web of romance treachery intrigue and inspiration With great courage this resourceful group of Potentialists overcomes all obstacles and a BOLD NEW WORLD is created which shows what people with the right values in the right environment can accomplish

Aeronautics & Space Transportation Technology ,1997 *Bulletin of the International Association of Medical Museums* International Academy of Pathology, International Association of Medical Museums, 1911 *National Conference on the Peaceful Uses of Space: Proceedings* ,1966 Red Square, Black Square Vladislav Todorov, 1995-01-01 This book builds a new vision of the development of Russian revolutionary culture bringing together fiction criticism utopian projects manifestos performance and film theory religious philosophy and the imaginary space of communism centered around the Mummy of Lenin Revolution and modernization are two main issues of the book The author argues that in Modernism the work of art

was conceived as a miniature of the world to come thus art was meant to make projects not master pieces He analyzes the genre of the manifesto as a special rhetorical device of modernist discourse and shows how projects of biological and social engineering elaborate a vision of a future human type apt to exist under unprecedented conditions Red Square Black Square traces the process of totalitarian reduction of the modernist impulse into a rigid party doctrine It follows the turbulent development of Russian Modernism through its categorical arrest under the official doctrine of socialist realism Moscow s Red Square is examined as a primal communist space that manifests the symbolism of power Viewing communism as an aesthetically not economically motivated society the book enacts political aesthetics as a discipline that provides the fundamental tool for an adequate and thorough understanding of communism Todorov concludes by discussing the rise of nationalism in Eastern Europe as a post communist condition and the new mission of the intellectuals
