Supplement** Bancroft Library, **The Atlantis**, 1859 **News from the Epicentre** Gennaro Varriale, 2024-12-02 For decades historians argued for the downfall of communication when early modern societies were hit by a natural disaster After all earthquakes caused the destruction of infrastructure which hindered the spread of news Instead the last investigations opened a new point of view about the political communication every crisis was a catalyst for news The book widens this reading through a comparative analysis of several earthquakes in the Hispanic Monarchy territories from Asia to America However the examination of communications provided in this volume is not an end in itself but is offered as a basis for reflection and to propose the notion that earthquakes trigger change in social and political dynamics Earthquake related crises exposed the underlying contradictions that the court of Madrid needed to address in the most effective way and if possible swiftly Earthquakes not only destroyed buildings and infrastructure but also social norms Urgency reduced the distance between interlocutors to some extent blurring the boundaries of self censorship Tremors therefore offer a rare opportunity to observe the political and military crises faced by the Hispanic Monarchy the global empire of the time **The Atlantis: a register of literature and science** Dublin city, univ. coll, 1858 The Atlantis, 1859 **Urban Images of the Hispanic World, 1493-1793** Richard L.
