Territories Here Elsewhere:

Racists Beware George J. Sefa Dei, 2008-01-01 With admirable clarity and directness George Dei exposes the tendency towards the racial re feudalization of the contemporary public sphere in Canada and by association other post industrial societies He points to the enormous opportunity costs imposed on racial minorities in the new millennium as a consequence In **RACISTS BEWARE UNCOVERING RACIAL POLITICS IN THE POSTMODERN SOCIETY** Dei identifies and subjects to close scrutiny the new race bending logics of what he calls postmodern societies in which the dwellers of the suburbs and members of the itinerant white professional middle class the great beneficiaries of late capitalism and neoliberalization of the economy now have become the new social plaintiff turning the complaint of racial inequality and discrimination on the heads of those most oppressed If Gayatri Spivak asks Can the subaltern speak then Dei brilliantly poses the question When will Anglo dominant groups even critical ones ever listen This book is likely to provoke and influence discussion on racial antagonism for a long long time to come 1992 Industry and Product Classification Manual United States. Bureau of the Census, 1992 *American Anthropology, 1888-1920* Frederica De Laguna, Alfred Irving Hallowell, 2002-01-01 The formative years of American anthropology were characterized by intellectual energy and excitement the identification of key interpretive issues and the beginnings of a prodigious amount of fieldwork and recording The American Anthropological Association AAA was born as anthropology emerged as a formal discipline with specialized subfields fieldwork among Native communities proliferated across North America yielding a wealth of ethnographic information that began to surface in the flagship journal the American Anthropologist and researchers increasingly debated and probed deeper into the roots and significance of ritual myth language social organization and the physical make up and prehistory of Native Americans The fifty five selections in this volume represent the interests of and accomplishments in American anthropology from the establishment of the American Anthropologist through World War I The articles in their entirety showcase the state of the subfields of anthropology archaeology linguistics physical anthropology and cultural anthropology as they were imagined and practiced at the dawn of the twentieth century Examples of important ethnographic accounts and interpretive debates are also included Introducing this collection is a historical overview of the beginnings of American anthropology by A Irving Hallowell a former president of the AAA **Cross-Cultural Interviewing** Gabriele Griffin, 2015-11-19 Interviewing is one of the most common techniques used to conduct qualitative research in the social sciences and humanities As a result of globalization researchers increasingly conduct interviews cross inter and intra nationally This raises important questions about how differences and sameness are understood and negotiated within the interview situation as well as the power structures at play within qualitative research and the role that reflexivity plays in mediating these What does it mean to interview Black women as a Black woman How is ethnicity negotiated across various qualitative research encounters How are differences bridged or asserted in feminist interviewing These are just some of the questions explored in the chapters in

this volume Drawing on their recent research the contributors detail their experiences of engaging in qualitative interviewing and examine how they negotiated the various dilemmas they encountered The contributions challenge some of the assumptions made in early feminist work on interviewing providing nuanced accounts of actual research experiences This volume explores the practice and implications of conducting cross inter and intra cultural interviewing bringing together researchers from a range of disciplines and countries to describe and analyse both its vicissitudes and its advantages

How to Get Out of Iraq with Integrity Brendan O'Leary, 2011-09-21 There is no reason why America's withdrawal from Iraq should be as dishonest as its intervention has been judged to be Brendan O'Leary from the Preface Both the American people and Arab Iraqis have voiced their overwhelming desire to see U S troops removed from the country How to Get Out of Iraq with Integrity argues that the U S military intervention in Iraq must come to an end But it must come to an end in a judicious pragmatic and orderly fashion In this book Brendan O'Leary spells out why that withdrawal can begin to occur now why it is in the best interests of the United States and the Iraqis that withdrawal occur and why Iraq can function as a federation once

the U S military has left the country How to Get Out of Iraq with Integrity provides an in depth analysis of the new Iraqi constitution an evaluation of the political goals and powers of the major ethnic and religious groups that will constitute the new Iraqi state and an assessment of the regional realities of a Saddam less Iraq With a viable constitution and other institutional structures already in place Iraq is poised for a future as a sovereign state If U S leaders facilitate the remaking of Iraq as a federation with four or more regions instead of a recentralized state the United States can begin successfully to remove its forces Propelled by this incisive and bold argument How to Get Out of Iraq with Integrity provides the foundation for the incoming presidential administration to do just that without betraying U S commitments to Arabs Kurds or democracy To make his case O Leary draws on his extensive background as constitutional advisor to the Kurdistan Regional Government the European Union and the United Nations along with expertise in constitutional design and ethnic reconciliation in Northern Ireland and South Africa
