Bioterror in the 21st Century Daniel M Gerstein, 2009-09-01 Daniel Gerstein draws on twenty nine years of experience in the security and defense sectors to address the threat of bioterrorism in the twenty first century He warns that while the proliferation of knowledge and capabilities in the field of biotechnology offers ever increasing opportunities for scientific breakthroughs the potential for the misuse of that knowledge also increases Gerstein takes a classic game theory approach in his analysis of the potential for a bioterror attack in the future His examination provides an objective capability for assessing threats understanding emerging trends and developing mitigation strategies However in the end the book is less about

predicting future behavior than about understanding the framework in which dangerous capabilities are allowed to proliferate. The study also makes a valuable contribution to the debate over perceived threats and vulnerabilities in this new global environment.

Right-Wing Terrorism in the 21st Century Daniel Koehler, 2016-10-04. This book is the first comprehensive academic study of German right wing terrorism since the early 1960s available in the English language. It offers a unique in depth analysis of German violent extremist right wing movements, terrorist events, groups, networks and individuals. In addition, the book discusses the so called National Socialist Underground (NSU) terror cell which was uncovered in late 2011 by the authorities. The NSU had been active for over a decade and had killed at least ten people as well as executing numerous bombings and bank robberies. With an examination of the group's support network and the reasons behind the failure of the German authorities, this book sheds light on right wing terrorist group structures, tactics and target groups in Germany. The book also contains a complete list of all the German right wing terrorist groups and incidents since the Second World War. Based on the most detailed dataset of right wing terrorism in Germany, this book offers highly valuable insights into this specific form of political violence and terrorism which has been widely neglected in international terrorism research.

Social Cohesion and Counter-terrorism Charles Husband, Yunis Alam, 2011. This book offers a unique research based contribution to the debate around community cohesion and counter terrorism policies in Britain. It is an essential read for academics, policy makers and practitioners concerned with the management of ethnic diversity.
