Test Of War Inside Britain 1939-45:

The Test of War Robert Mackay, 2003 Robert Mackay provides an up to date examination of the British home front and the country's experience of war 1939-1945

Cinemas and cinemagoing in wartime Britain, 1939-45 Richard Farmer, 2016-06-24 In this groundbreaking book Richard Farmer provides a social and cultural history of cinemas and cinemagoing in Britain between 1939 and 1945 and explores the impact that the war had on the places in which British people watched films

The Shock of War Sean Kennedy, 2011-01-01 In *The Shock of War* Civilian Experiences 1937-1945 Sean Kennedy shifts the reader's focus from the battlefields of the Second World War to the civilian experience This short yet comprehensive history complements existing studies of the war that document diplomatic and military operations While many of these studies acknowledge the significance of the conflict for civilians *The Shock of War* places civilians at the centre of events drawing attention to the many different regions of the world affected by the conflict and comparing various facets of the civilian experience Kennedy's fresh approach emphasizes the diverse and complex impact of the war which was profoundly destructive yet in some societies provided opportunities and the potential for positive change

Sport and the Home Front Matthew Taylor, 2020-05-31 *Sport and the Home Front* contributes in significant and original ways to our understanding of the social and cultural history of the Second World War It explores the complex and contested treatment of sport in government policy media representations and the everyday lives of wartime citizens Acknowledged as a core component of British culture sport was also frequently criticised marginalised and downplayed existing in a constant state of tension between notions of normality and exceptionality routine and disruption the everyday and the extraordinary The author argues that sport played an important yet hitherto neglected role in maintaining the morale of the British people and providing a reassuring sense of familiarity at a time of mass anxiety and threat Through the conflict sport became increasingly regarded as characteristic of Britishness a symbol of the ordinary everyday lives in defence of which the war was being fought Utilised to support the welfare of war workers the entertainment of service personnel at home and abroad and the character formation of schoolchildren and young citizens sport permeated wartime culture contributing to new ways in which the British imagined the past present and future Using a wide range of personal and public records from diary writing and club minute books to government archives this book breaks new ground in both the history of the British home front and the history of sport

A Guide to British Military History Ian F. W. Beckett, 2016-06-30 What exactly is military history Forty years ago it meant battles campaigns great commanders drums and trumpets It was largely the preserve of military professionals and was used to support national history and nationalism Now though the study of war has been transformed by the war and society approach by the examination of identity memory and gender and a less Euro centric and more global perspective Generally it is recognised that war and conflict must be integrated into the wider narrative of historical development and this is why Ian Beckett's research guide is such a useful tool for anyone working in this growing field It

introduces students to all the key debates issues and resources While European and global perspectives are not neglected there is an emphasis on the British experience of war since 1500 This survey of British military history will be essential reading and reference for anyone who has a professional or amateur interest in the subject and it will be a valuable introduction for newcomers to it **The British Army and the People's War, 1939-1945** Jeremy A. Crang, 2000-11-18 During the Second World War the British army absorbed approximately three million new recruits the majority of whom were conscripts Drawn from all occupational groups and social classes the military authorities were confronted with the task of molding these civilians in uniform into an effective fighting force This book analyzes the impact of this process of integration on the army as a social institution Exploring such aspects of the army's social organization as other rank selection officer selection officer promotion officer man relations the soldier's working life army welfare and army education it assesses the ways in which the army changed in relation to its new intake what the extent of any change that took place actually was and how different the army of 1945 was to that of 1939 **Museums in the Second World War** Catherine Pearson, 2017-06-26 Exploring the role of museums galleries and curators during the upheaval of the Second World War this book challenges the accepted view of a hiatus in museum services during the conflict and its immediate aftermath Instead it argues that new thinking in the 1930s was realised in a number of promising initiatives during the war only to fail during the fragmented post war recovery Based on new research including interviews with retired museum staff letters diaries museum archives and government records this study reveals a complex picture of both innovation and inertia At the outbreak of war precious objects were stored away and staff numbers reduced but although many museums were closed others successfully campaigned to remain open By providing innovative modern exhibitions and education initiatives they became popular and valued venues for the public After the war however museums returned to their more traditional collections centred approach and failed to negotiate the public funding needed for reconstruction based on this narrower view of their role Hence in the longer term the destruction and economic and social consequences of the conflict served to delay aspirations for reconstruction until the 1960s Through this lens the history of the museum in the mid twentieth century appears as one shaped by the effects of war but equally determined by the input of curators audiences and the state The museum thus emerges not as an isolated institution concerned only with presenting the past but as a product of the changing conflicts and cultures within society **Historical Dictionary of World War II** Anne Sharp Wells, 2013-12-24 This dictionary covers the complex and costly conflict that began when Germany ruled by Adolf Hitler and the Nazi Party invaded neighboring Poland on 1 September 1939 and concluded when Germany surrendered on 7 9 May 1945 leaving much of the European continent in ruins and its population devastated The war against Germany Italy and the other European Axis members was fought primarily in Europe the Mediterranean the Middle East East and North Africa and the Atlantic Ocean The Axis powers were defeated by the Allies led by the Grand Alliance of Great Britain the United States and the Union of Soviet Socialist Republics

The Historical Dictionary of World War II The War against Germany and Italy relates the history of this war through a chronology an introductory essay maps and photos and an extensive bibliography The dictionary section has more than 300 cross referenced entries on the countries and geographical areas involved in the war as well as the nations remaining neutral wartime alliances and conferences significant civilian and military leaders and major ground naval and air operations This book is an excellent access point for students researchers and anyone wanting to know more about World War II

Internment during the Second World War Rachel Pistol, 2017-09-07 The internment of enemy aliens during the Second World War was arguably the greatest stain on the Allied record of human rights on the home front Internment during the Second World War compares and contrasts the experiences of foreign nationals unfortunate enough to be born in the wrong nation when Great Britain and later the USA went to war While the actions and policy of the governments of the time have been critically examined Rachel Pistol examines the individual stories behind this traumatic experience The vast majority of those interned in Britain were refugees who had fled religious or political persecution in America the majority of those detained were children Forcibly removed from family friends and property internees lived behind barbed wire for months and years Internment initially denied these people the right to fight in the war and caused unnecessary hardships to individuals and families already suffering displacement because of Nazism or inherent societal racism In the first comparative history of internment in Britain and the USA memoirs letters and oral testimony help to put a human face on the suffering incurred during the turbulent early years of the war and serve as a reminder of what can happen to vulnerable groups during times of conflict Internment during the Second World War also considers how these tragedies of democracy have been remembered over time and how the need for the memorialisation of former sites of internment is essential if society is not to repeat the same injustices

Advertising and Propaganda in World War II David Clampin, 2014-03-21 The Blitz the period of Nazi bombing campaigns on civilian Britain during World War II was a formative period for British national identity In this groundbreaking book David Clampin looks at the images campaigns and slogans which helped to form the fabled Blitz spirit powerfully echoed in Winston Churchill's speeches Because advertisers attempted to capitalise on war time patriotism Clampin's unique focus on advertising provides a visually rich seam of new information on the everyday war and makes an enormous contribution to the debate on people's experiences of war and nationalism Using a remarkable and hitherto unseen range of primary source material advertisements in the press slogans and posters this work will reshape the contested meanings of the Home Front opening up cultural history discourses on gender and nationalism Advertising and Propaganda in World War II is essential reading for historians of World War II as well as students and scholars of Media Studies and Communication Studies

At Home and under Fire Susan R. Grayzel, 2012-01-09 Although the Blitz has come to symbolize the experience of civilians under attack Germany first launched air raids on Britain at the end of 1914 and continued them during the First World War With the advent of air warfare civilians far removed from traditional battle zones became a direct

target of war rather than a group shielded from its impact This is a study of how British civilians experienced and came to terms with aerial warfare during the First and Second World Wars Memories of the World War I bombings shaped British responses to the various real and imagined war threats of the 1920s and 1930s including the bombing of civilians during the Spanish Civil War and ultimately the Blitz itself The processes by which different constituent bodies of the British nation responded to the arrival of air power reveal the particular role that gender played in defining civilian participation in modern war

DuBois, 2012-12-21 *A Companion to World War II* brings together a series of fresh academic perspectives on World War II exploring the many cultural social and political contexts of the war Essay topics range from American anti-Semitism to the experiences of French African soldiers providing nearly 60 new contributions to the genre arranged across two comprehensive volumes A collection of original historiographic essays that include cutting edge research Analyzes the roles of neutral nations during the war Examines the war from the bottom up through the experiences of different social classes Covers the causes key battles and consequences of the war

War and welfare Barbara Hatley, 2013-07-19 During the Second World War some 250 000 British servicemen were taken captive by either the Axis powers or the Japanese As a result of this their wives and families became completely dependent on the military and civil authorities This book examines the experiences of the millions of service dependents created by total war The book then focuses on the most disadvantaged elements of this group the wives children and dependents of men taken prisoner and the changes brought about by the exigencies of total war Further chapters reflect on

how these families organised to lobby government and the strategies they adopted to circumvent apparent bureaucratic ineptitude and misinformation This book is essential reading for both academic and general readers interested in the British Home Front during the Second World War **Events That Changed Great Britain Since 1689** Frank W. Thackeray, John E. Findling, 2002-08-30 This unique resource describes and evaluates ten of the most important events in British history between 1689 and the present A full chapter is devoted to each event Every chapter includes an introduction presenting factual information in a clear concise chronological order and a longer interpretive essay exploring both the short term and far reaching ramifications of the event The ten events covered are L DBL The Industrial Revolution L DBL The Seven Years War L DBL The Napoleonic Wars L DBL Pax Britannica L DBL The Reform Act of 1832 L DBL The Crystal Palace Exhibition L DBL The Movement for Irish Independence and Woman Suffrage L DBL World War I L DBL World War II L DBL The Thatcher Era L Coverage for each event also includes an annotated bibliography of works suitable for students and a full page illustration A glossary of terms a timeline of British history since 1689 a chronological list of ruling houses and monarchs and a chronological list of prime ministers help students to better understand the major developments in modern British history along with their significance and long term impact **Millions Like Us'? Visiting Senior Fellow Department of Psychology Nicky Hayes, 1999-01-01** This collection of essays brings together the latest historical research on cultural production and reception during the Second World War It covers the way in which cultural provision was viewed by the labour movement and industry **'Totally un-English'? ,2005-01-01** The internment of enemy aliens by the British government in two world wars remains largely hidden from history British historians have treated the subject if at all as a mere footnote to the main narrative of Britain at war In the Great War Britain interned some 30 000 German nationals most of whom had been long term residents In fact internment brought little discernible benefit but cruelly damaged lives and livelihoods breaking up families and disrupting social networks In May 1940 under the threat of imminent invasion the British government interned some 28 000 Germans and Austrians mainly Jewish refugees from the Third Reich It was a measure which provoked lively criticism not least in Parliament where one MP called the internment of refugees totally un English The present volume seeks to shed more light on this still submerged historical episode adopting an inter disciplinary approach to explore hitherto under researched aspects including the historiography of internment the internment of women deportation to Canada and culture in internment camps including such notable events as the internment revue What is Life European Warfare 1815-2000 Jeremy Black, 2017-04-17 In this up to date account of European warfare since 1815 important treatments of major conflicts especially World Wars I and II are combined with insightful analyses of military developments and of their wider political and social contexts European imperial warfare also receives due attention European Warfare 1815 2000 recognises war as a topic of major importance in understanding the development of the modern world particularly Europe The contributors all leading experts in their fields are open to theoretical developments in the subject but also understand the difficulty of fitting

war to any abstract model Ranging up to the present this is an original and fascinating volume *The Diaries and Letters of Lord Woolton 1940-1945* Michael Kandiah, Judith Rowbotham, 2020-11-05 The first comprehensive survey of Lord Woolton's wartime role based on selections from Diaries and Letters 1940 1945 covering his time as Minister of Food 1940 1943 and less familiarly as Minister of Reconstruction 1943 1945 *The Aerial War: 1939-45* David Baker, 2020-06-01 The war is a war of machines it will be won on the assembly line Lord Beaverbrook Minister of Aircraft Production Just as vital as the battle on land or the struggle at sea the air war ultimately tipped the balance of power in World War II Many campaigns rode on the capabilities of their airforce as British Spitfires were pitted against Messerschmitt Bf 109s and Japanese Zeros Aerospace expert David Baker explores this battle in the skies detailing the technical leaps that were made and little known histories about the men and women involved from pilots to factory workers Featuring magnificent photographs and illustrations The Aerial War gives a brilliant insight into many key battles and highlights the integral role that aviation played in securing an Allied victory
