twentieth century saw two world wars and many other conflicts characterised by technological change and severity of casualties. Medicine has adapted quickly to deal with such challenges and new medical innovations in the military field have had advantages in civil medicine. There has thus been interplay between war and medicine that has not only been confined to the armed forces and military medicine but which has impacted on health and medicine for us all. These themes will be examined from the Boer War to the dawn of a new century and a war against terror. The experiences of individuals as doctors, nurses and patients are highlighted with personal, sometimes graphic, first hand accounts bringing home the realities of medical treatment in wartime.

**In Their Time** Marlene LeGates, 2001. First Published in 2001. Routledge is an imprint of Taylor Francis, an information company.

**The Road to Armageddon** Cecil D. Eby, 1987. The Lost Generation has held the imagination of those who succeeded them partly because the idea that modern war could be romantic, generous and noble died with the casualties of that war. From this remove it seems almost perverse that Britons, Germans and Frenchmen of every social class eagerly rushed to the fields of Flanders and to misery and death. In *The Road to Armageddon* Cecil Eby shows how the widely admired writers of English popular fiction and poetry contributed at least in England to a romantic militarism coupled with xenophobia that helped create the climate that made World War I seem almost inevitable. Between the close of the Franco-Prussian War of 1871 and the opening guns of 1914 the works of such widely read and admired writers as H. G. Wells, Rudyard Kipling, J. M. Barrie and Rupert Brooke, as well as a host of now almost forgotten contemporaries, bombarded their avid readers with strident warnings of imminent invasions and prophecies of the collapse of civilization under barbarian onslaught and internal moral collapse. Eby sees these narratives as growing from and in turn fueling a collective neurosis in which dread of coming war coexisted with an almost loving infatuation with it. The author presents a vivid panorama of a militant milieu in which warfare on a scale hitherto unimaginable was largely coaxed into being by works of literary imagination. The role of covert propaganda concealed in seemingly harmless literary texts is memorably illustrated.

**Testament of Lost Youth** Kathryn Ecclestone, 2025-01-30. Vera Brittain is one of the twentieth century's most significant feminist and pacifist figures. Her 1933 best-selling First World War memoir *Testament of Youth* is acclaimed as one of the most important autobiographies of the last hundred years. *Testament of Lost Youth* is the first book to examine Vera's cosseted middle-class upbringing in once fashionable Buxton between 1905 and 1915. She condemned her provincial young ladyhood with remorseless fervour but were her criticisms justified or is there a more complex nuanced story? Drawing on Vera's own diary letters and a wealth of historical sources, Kathryn Ecclestone uncovers the hidden layers of Vera's privileged early life. Her book challenges traditional portrayals to shed new light on the unique social atmosphere of Edwardian Buxton, Vera's schooling and experience of university, her family, social and love life before a harrowing journey through the First World War where she lost her fiancé, adored brother and many friends and acquaintances. From her intellectual awakening to her battles against societal constraints, this book filled with images of Vera and her family presents

a nuanced exploration of a remarkable woman revealing how her early life shaped and inspired the icon the world came to know Publishers, Readers and the Great War Vincent Trott, 2017-10-05 Literature is at the heart of popular understandings of the First World War in Britain and has perpetuated a popular memory of the conflict centred on disillusionment horror and futility This book examines how and why literature has had this impact exploring the role played by authors publishers and readers in constructing the memory of the war since 1918 It demonstrates that publishers were as influential as authors in shaping perceptions of the conflict and it provides a detailed analysis of critical and popular responses to war books tracing the evolution of readers attitudes to the war between 1918 and 2014 By exploring the cultural legacy of the war from these two previously overlooked perspectives Vincent Trott offers fresh insights regarding the emergence of a collective memory of the First World War in Britain Drawing on a broad range of primary source material including publishers correspondence dust jackets adverts book reviews and diary entries and examining canonical authors such as Wilfred Owen Siegfried Sassoon and Vera Brittain alongside long forgotten texts and more recent autobiographical works by Harry Patch and Henry Allingham Publishers Readers and the Great War provides a rich and nuanced analysis of the climate within which First World War literature was written published and received since 1918 Veiled Warriors Christine E. Hallett, 2014-08-28 Caring for the wounded of the First World War was tough and challenging work demanding extensive knowledge technical skill and high levels of commitment Although allied nurses were admired in their own time for their altruism and courage their image was distorted by the lens of popular mythology They came to be seen as self sacrificing heroines romantic foils to the male combatant and doctors handmaidens rather than being appreciated as trained professionals performing significant work in their own right Christine Hallett challenges these myths to reveal the true story of allied nursing in the First World War one which is both more complex and more absorbing Drawing upon evidence from archives across the world Veiled Warriors offers a compelling account of nurses wartime experiences and a clear appraisal of their work and its contribution to the allied cause between 1914 and 1918 on both the Western and the Eastern Fronts Nurses believed they were involved in a multi layered battle Primarily they were fighting for the lives of their patients on the second battlefield of casualty clearing stations transports and military hospitals Beyond this they were an integral component of the allied military machine putting their own lives at risk in field hospitals close to the front lines on board hospital ships vulnerable to enemy submarine attack and in base hospitals subject to heavy bombardment As working women in a sometimes hostile chauvinistic world allied nurses were also fighting to gain recognition for their profession and political rights for their sex For them military nursing might help to win not only the war itself but also a more powerful voice for women in the post war world Longman Companion to the First World War Colin Nicolson, 2014-07-15 This new Companion covers one of the most devastating conflicts in modern history The Great War traumatised a generation and shaped the whole of the twentieth century Speaking as loudly as any first hand account the facts and figures laid out in this

volume reveal the sheer massive destruction caused by the war Covering all aspects of the conflict from its origins and course to the peace settlements and the crises they generated Colin Nicolson unravels historical controversies and also considers the social cultural and economic consequences of the war for the whole of Europe Containing all the essential facts and figures this Companion will be greatly welcomed by teachers academics and students alike

**Pandemic Re-Awakenings** Guy Beiner,2021-11-16 Pandemic Re-Awakenings offers a multi level and multi faceted exploration of a century of remembering forgetting and rediscovering the influenza pandemic of 1918 1919 arguably the greatest catastrophe in human history Twenty three researchers present original perspectives by critically investigating the hitherto unexplored vicissitudes of memory in the interrelated spheres of personal communal medical and cultural histories in different national and transnational settings across the globe The volume reveals how even though the Great Flu was overshadowed by the commemorative culture of the Great War recollections of the pandemic persisted over time to re emerge towards the centenary of the Spanish Flu and burst into public consciousness following the outbreak of the COVID 19 pandemic The chapters chart historiographical neglect while acknowledging the often unnoticed dialogues between scientific and historical discourses probe silences and trace vestiges of social and cultural memories that long remained outside of what was considered collective memory

**Grief in Wartime** C. Acton,2007-01-31 An examination of private narratives of loss in wartime and publicly legitimized forms of grieving Drawing on sources such as diaries poetry and weblogs and using gender as an analytic category the book looks at men s and women s experiences of war at home and at the front and spans the two World Wars the Vietnam War and the war in Iraq
