Béatrice Bijon, Gérard Gacon, 2009 Fourteen essays provide a challenging outlook on narratives by women explorers and travellers from five different continents spanning nearly one century from 1850 to 1945 The map thus drawn enables one to revisit restore and reassess the content and the originality of these narratives by women The essays are relevant to the fields of travel writing and gender studies and all draw from referential contemporary theoretical and critical works Michel Foucault Homi Bhabha Edward Said Roland Barthes Michel de Certeau Gilles Deleuze Sara Mills Kristi Siegel and Jane Robinson The main interest and originality of the volume result from the perspectives adopted by the different authors The text oriented analyses rely on close reading thus definitely providing accurate and perceptive critical insights into the narratives Such perspective precludes erasing the differential features characterizing each geographical space and each travelling subject It also moves away from any temptation at creating a naturalized mythical image of these women

Wanderers Between Two Worlds Douglas Hale, 2005-02-28 Wanderers Between Two Worlds German Rebels in the American West 1830 1860 by Douglas Hale In the 1830s a small band of visionary university students launched an audacious but abortive rebellion against the German Confederation in an effort to achieve unity and freedom for their country Their bungled revolt was quickly crushed and the idealistic youth found themselves branded as traitors and pursued as outlaws Wanderers Between Two Worlds traces the extraordinary intertwined lives of seven of the German student revolutionaries who escaped imprisonment only by flight to the American West Leaving behind a legacy in Germany s quest for freedom that would not be fulfilled for another 150 years these urbane and educated exiles arrived in the United States in time to share in the most dramatic episodes of the age wilderness adventures on the Santa Fe and Oregon Trails the Texas Revolution against Mexico the Mexican War the California Gold Rush the mounting conflict over slavery and the inexorable thrust of American power to the Pacific The United States offered these young men a broad and uncrowded stage upon which to display their talents Gustav Koerner became a leading Illinois politician while Georg Engelmann emerged as the premier botanist of the American West Ferdinand Lindheimer was an influential spokesman among the German settlers in Texas Adolph Wislizenus explored the Rockies and northern Mexico and led in the establishment of the St Louis scientific community Gustav Bunsen perished in the Texas Revolution while his brother Georg achieved considerable influence as a pioneer educator Theodor Engelmann published the first German newspaper in Illinois Historian Douglas Hale captures the drama and adventure of their lives in both the Old Country and the New Wanderers Between Two Worlds is an engaging and accessible saga that acquaints readers with a long neglected chapter in the history of German democracy and the impact of German Americans in the development of Illinois Missouri and Texas Hale combines scrupulous attention to accuracy with a lucid and readable style that ventures beyond historical narrative to engage the reader in the personalities and experiences of the individuals involved

A Destiny Between Two Worlds Jacques L. Fuqua, Jr., 2015-04-24 As Munekazu awoke that fateful morning in October 1944 dawn offered no inkling that his life or the lives of hundreds of thousands of other Okinawans would be profoundly changed forever The American enemy s bombs that rained down and exploded throughout the city that day razed seventy five percent of Naha the capital and killed nearly 1 000 of its residents No one however realized that this was but a prelude to the devastation that would follow only six months later with the U S invasion of Okinawa leading to the near obliteration of the island s culture and society Munekazu and other islanders would realize only too late that they were helplessly caught between two giant samurai fighting to the death Japan and America and Okinawa s destiny lay somewhere in between

Between Two Worlds Richard Edward Feinberg, 1986 The global debt and

adjustment crisis has challenged the World Bank to become the leading agency in North South finance and development The many dimensions of this challenge which must be comprehensively addressed by the Bank s new president are the subject of this important volume in the Overseas Development Council s U S Third World Policy Perspectives series The Bank s ability to design and implement a comprehensive response to global economic needs is threatened by competing objectives and uncertain priorities Can the Bank design programs attractive to private investors that also serve the very poor Can it emphasize efficiency while transferring technologies that maximize labor absorption Can it aggressively condition loans on policy reforms without attracting the criticism that has accompanied IMF programs Can it meet the needs of the 1990s with the internal organization and staff of the early 1980s The contributors to this volume assess the role that the World Bank can play in the period ahead They argue for new financial and policy initiatives and for new conceptual approaches to development as well as for a restructuring of the Bank as it takes on new systematic responsibilities in the new decade

The Patchwork of World History in Texas High Schools Stephen Jackson, 2022-11-30 This book traces the historical development of the World History course as it has been taught in high school classrooms in Texas a populous and nationally influential state over the last hundred years Arguing that the course is a result of a patchwork of competing groups and ideas that have intersected over the past century with each new framework patched over but never completely erased or replaced the author crucially examines themes of imperialism Eurocentrism and nationalism in both textbooks and the curriculum more broadly The first part of the book presents an overview of the World History course supported by numerical analysis of textbook content and public documents while the second focuses on the depiction of non Western peoples and persistent narratives of Eurocentrism and nationalism It ultimately offers that a more global accurate and balanced curriculum is possible despite the tension between the ideas of professional world historians who often de center the nation state in their quest for a truly global approach to the subject and the historical core rationale of state sponsored education in the United States to produce loyal citizens Offering a new conceptual understanding of how colonial themes in World History curriculum have been dealt with in the past and are now engaged with in contemporary times it provides essential context for scholars and educators with interests in the history of education curriculum studies and the teaching of World History in the United States

Karttunen, 1994 Spanning the globe and the centuries Frances Karttunen tells the stories of sixteen men and women who served as interpreters and guides to conquerors missionaries explorers soldiers and anthropologists These interpreters acted as uncomfortable bridges between two worlds their own marginality the fact that they belonged to neither world suggests the complexity and tension between cultures meeting for the first time Some of the guides were literally dragged into their roles others volunteered The most famous ones were especially skilled at living in two worlds and surviving to recount their experiences Among outsiders the interpreters found protection sustenance recognition intellectual companionship and employment yet most of the interpreters ultimately suffered tragic fates **Between Worlds**
