Sutherland Springs, Texas Richard B. McCaslin, 2017-02-15 In **Sutherland Springs Texas** Richard B McCaslin explores the rise and fall of this rural community near San Antonio primarily through the lens of its aspirations to become a resort spa town because of its mineral water springs around the turn of the twentieth century Texas real estate developers initially more interested in oil brought Sutherland Springs to its peak as a resort in the early twentieth century but failed to transform the farming settlement into a resort town The decline in water tables during the late twentieth century reduced the mineral water flows and the town faded Sutherland Springs s history thus provides great insights into the importance of water in shaping settlement Beyond the story of resort spa aspirations lies a history of the community and its people itself McCaslin provides a complete history of Sutherland Springs from early settlement through Civil War and into the twentieth century its agricultural and oil drilling exploits alongside its mineral water appeal as well as a complete community history of the various settlers and owners of the springs hotel

Kelly McMichael Stott, 2002 The people of Waxahachie Texas have always been at the heart of a thriving community that was once the largest cotton producing county in the nation As county seat Waxahachie burgeoned into a bustling center for business and education and carved out a unique niche in the growing landscape But its citizens overcame significant obstacles as well facing such challenges as a massive slave revolt during the Civil War and the economic bust of the 1930s Reflecting both the glory and hardship of these struggles Waxahachie today stands as a testament to Southern determination and how a town came to be defined by a crop on which America still relies cotton Always with an eye on their future the people of Waxahachie in 1912 supported the development of an interurban electric railway system linking them to Dallas and Waco Each July between 1900 and 1930 Texans from all over the state came to Waxahachie by covered wagon on horseback and later by automobile to participate in the national Chautauqua phenomenon and hear such great orators as William Jennings Bryan and Will Rogers Waxahachie s Chautauqua Auditorium still in use today is one of the few national survivors of this educational movement This tradition of community and culture survives to the present day in such events as the Scarborough Fair the National Polka Festival and the Gingerbread Trail of Homes In this new historical account Waxahachie Texas Where Cotton Reigned King the town springs to life in a blend of more than 100 vintage photographs and stories that chronicle the perseverance and love of a people for their town **Inventing Modern**

John H. Lienhard, 2003-09-18 Modern is a word much used but hard to pin down In Inventing Modern John H Lienhard uses that word to capture the furious rush of newness in the first half of 20th century America An unexpected world emerges from under the more familiar Modern Beyond the airplanes radios art deco skyscrapers Fritz Lang s Metropolis Buck Rogers the culture of the open road Burma Shave Kerouac and White Castles lie driving forces that set this account of Modern apart One force says Lienhard was a new concept of boyhood the risk taking hands on savage inventor Driven by an admiration of recklessness America developed its technological empire with stunning speed Bringing the airplane to fruition in so short a time for example were people such as Katherine Stinson Lincoln Beachey Amelia Earhart and Charles Lindbergh The rediscovery of mystery powerfully drove Modern as well X Rays quantum mechanics and relativity theory had followed electricity and radium Here we read how with reality seemingly altered hope seemed limitless Lienhard blends these forces with his childhood in the brave new world The result is perceptive engaging and filled with surprise Whether he talks about Alexander Calder an engineer whose sculptures were exercises in materials science or that wacky paean to flight Flying Down to Rio unexpected detail emerges from every

tile of this large mosaic *Inventing Modern* is a personal book that displays rather than defines an age that ended before most of us were born It is an engineer's homage to a time before the bomb and our terrible loss of confidence a time that might yet rise again out of its own postmodern ashes

Sites Unseen William A. Gleason, 2011-08-22 *Sites Unseen* examines the complex intertwining of race and architecture in nineteenth and early twentieth century American culture the period not only in which American architecture came of age professionally in the U S but also in which ideas about architecture became a prominent part of broader conversations about American culture history politics and although we have not yet understood this clearly race relations This rich and copiously illustrated interdisciplinary study explores the ways that American writing between roughly 1850 and 1930 concerned itself often intensely with the racial implications of architectural space primarily but not exclusively through domestic architecture In addition to identifying an archive of provocative primary materials *Sites Unseen* draws significantly on important recent scholarship in multiple fields ranging from literature history and material culture to architecture cultural geography and urban planning Together the chapters interrogate a variety of expressive American vernacular forms including the dialect tale the novel of empire letters and pulp stories along with the plantation cabin the West Indian cottage the Latin American plaza and the Oriental parlor These are some of the overlooked plots and structures that can and should inform a more comprehensive consideration of the literary and cultural meanings of American architecture Making sense of the relations between architecture race and American writing of the long nineteenth century in their regional national and hemispheric contexts *Sites Unseen* provides a clearer view not only of this catalytic era but also more broadly of what architectural historian Dell Upton has aptly termed the social experience of the built environment

Rest in Peace Gary Laderman, 2003 Drawing upon interviews with funeral directors major historical events like the funerals of John F Kennedy and Rudolf Valentino films television newspaper reports and other primary sources *Rest in Peace* cuts through the rhetoric to show the reality of the American funeral

The Country Houses of John F. Staub Stephen Fox, 2007 This ambitious study of Staub's work by architectural historian Stephen Fox goes beyond a description of Staub's houses Fox analyzes the roles of space structure and decoration in creating defining and maintaining social class structures and expectations and shows how Staub was able to incorporate these elements and understandings into the elegant buildings he designed for his clients In the process he contributes greatly to a fuller understanding of Houston's emergence as a premier American city
