Glassman, 2019-05-24 This book focuses on the processes that help stabilize democracy It provides a socio historical analysis of the future prospects of democracy The link between advanced capitalism and democracy is emphasized focusing on contract law and the separation of the economy from the state The book also emphasizes the positive effects of the scientific world view on legal rational authority Aristotle s theory of the majority middle class and its stabilizing effect on democracy is highlighted This book describes the face to face democracies of the past in order to give us a better perspective on the high tech democracies of the future making it appealing to students and academics in the political and social sciences      *America, History and Life* , 2007 Article abstracts and citations of reviews and dissertations covering the United States and Canada      **Women's Diaries from the Civil War South** Sharon Talley, 2023-08-18 Traditionally narratives of war have been male Sharon Talley writes In the pages that follow she goes on to disrupt this tradition offering close readings and comparative studies of fourteen women s diaries from the Civil War era that illuminate women s experiences in the Confederacy during the war While other works highlighting individual diaries exist and Talley notes that there has been a virtual explosion of published primary sources by women in recent years this is the first effort of comprehensive synthesis of women s Civil War diaries to attempt to characterize them as a distinct genre Deeply informed by autobiographical theory as well as literary and social history Talley s presentation of multiple diaries from women of differing backgrounds illuminates complexities and disparities across female

wartime experiences rather than perpetuating overgeneralizations gleaned from a single diary or preconceived ideas about what these diaries contain To facilitate this comparative approach Talley divides her study into six sections that are organized by location vocation and purpose diaries of elite planter women diaries of women on the Texas frontier diaries of women on the Confederate border diaries of espionage by women in the South diaries of women nurses near the battlefield and diaries of women missionaries in the Port Royal Experiment When read together these writings illustrate that the female experience in the Civil War South was not one but many Women s Diaries from the Civil War South A Literary Historical Reading is an essential text for scholars in women s studies autobiography studies and Civil War studies alike presenting an in depth and multifaceted look at how the Civil War reshaped women s lives in the South and how their diverse responses shaped the course of the war in return **Great Plains Quarterly** ,1999 **Current Contents** Institute for Scientific Information (Philadelphia),2001 *Women in the United States Military* Judith Bellafaire,2011-01-26 Women s participation in the U S Armed Forces has grown over time in response to the national need for their services Throughout each era of American history patriotic women volunteered to serve their country in a wide variety of official and unofficially sanctioned capacities When there was a call to duty the United States Armed Forces always relied upon women to be a part of the effort This book provides information to enable students and scholars to understand the effect women have had on wars that have shaped the United States Frontiers Past and Future Carl Abbott,2006 Abbott offers a fruitful new way to read science fiction one that also greatly enriches our understanding of western history and its impact on our collective imagination Detailing the overlap of science fiction and western fiction especially relating to their mutual interest in and concerns about frontier expansionism he reveals an unsuspected common ground that informs the writings of both camps Reviewing the work of many Hugo and Nebula Award winners as well as drawing upon popular film and television series like the Buck Rogers serials Abbott s study journeys across the far reaches of science fiction s universe
