Librarians and other library professionals will find this informative book chock full of thought provoking papers that will help you find new solutions to the collection development problems your library may experience while facing this new digital age Collection Development in a Digital Environment is a result of papers presented at the 1998 University of Oklahoma Libraries Conference You will discover ways to help your library take the lead in advancing the academic agenda through technology while at the same time leaning how technology requires change in the way libraries themselves operate Collection Development in a Digital Environment explores ethical and technological dilemmas of collection development and gives several suggestions on how your library can successfully deal with these challenges and provide patrons with the information they need This guide covers many valuable ways that your library can be better prepared for developing a user friendly collection of materials in this new digital age You will discover how methods to shift your library from buying materials for collections for faculty or students that may need them sporadically to a system of responsiveness and customization where just in time and just for you are the standards of information access making you and your library both time effective and cost effective Collection Development in a Digital Environment brings to light many ways in which libraries can improve collection

development methods such as using the Association of Research Libraries ARL initiatives to improve global access to information such as the Global Resources Program which features a seamless web of interconnected coordinated and interdependent research collections that are electronically accessible to users examining discussions on scenario driven planning and the benefits of having your patrons let you know what they are interested in instead of guessing what materials they may be interested in analyzing the influence of the World Wide Web on the role of libraries to discover how you can use these ideas to expand the collection of materials in your library gaining insight into how the concept of disintermediation in the publishing process will help libraries use the electronic environment to eliminate intermediate sources and collect materials directly from the publisher thus saving time and money From the insightful chapters in Collection Development in a Digital Environment you will find new and successful ways to use the new digital environment to enhance collection development in your library This unique book will help your library be more digitally accessible while still being user friendly to your clientele

**Language Learner Narrative** Helen O'Sullivan, 2014-01-02 Increasing numbers of people have contact with other cultures and languages Language Learner Narrative examines representations of this phenomenon in literary texts using an applied linguistic approach This analysis of written narratives of language learning and cross cultural encounter complements objective studies in intercultural communication and second language acquisition research Kant's use of the term *Mündigkeit* in his essay What is Enlightenment is used to frame the complex issues of language identity meaning and reality presented by the texts Augmented by Pierre Bourdieu's concept of linguistic capital this framing forms a counterpoint to the positioning of these authors as avatars of poststructuralist wisdom Eva Hoffman The work includes a uniquely detailed linguistic analysis of Emine Sevgi Zdamar's *Mutter Zunge* and further texts by other widely studied and less familiar authors Yoko Tawada Eva Hoffman Vassilis Alexakis Z Do Rock It also lists literary sources of language learner narrative Through its fundamental examination of what and how language means to us as individuals this volume will be of wide appeal to students and researchers in applied linguistics second language acquisition intercultural communication and literary studies

**The Shakespearean International Yearbook** Brett Hirsch, Hugh Craig, 2017-05-15 This eighth volume of The Shakespearean International Yearbook presents a special section on European Shakespeares proceeding from the claim that Shakespeare's literary craft was not just native English or British but was filtered and fashioned through a Renaissance awareness that needs to be recognized as European and that has had effects and afterlives across the Continent Guest editors Ton Hoenselaars and Clara Calvo have constructed this section to highlight both how the spread of Shakespeare throughout Europe has brought together the energies of a wide variety of European cultures across several centuries and how the inclusion of Shakespeare in European culture has been not only a European but also a world affair The Shakespearean International Yearbook continues to provide an annual survey of important issues and developments in contemporary Shakespeare studies Contributors to this issue come from the US and the UK Spain Switzerland and South

Africa Canada The Netherlands India Portugal Greece France and Hungary In addition to the section on European Shakespeares this volume includes essays on the genre of romance issues of character and other topics      **Managing Change in Academic Libraries** Joseph Branin, 2013-01-11 Managing Change in Academic Libraries helps academic librarians plan implement and manage changes to the fundamental structure of their organizations It shows readers that in academic libraries the two driving forces behind most change are economics and technology Declines in funding for education and in the purchasing power of libraries have made it impossible to maintain the status quo let alone realize growth in traditional information services and collection development Add to this downward trend in library economics the explosion of new information technology and its potential for radically altering communications and knowledge management and one has the ingredients for some amazing changes in libraries To help manage these many changes chapters in Managing Change in Academic Libraries approach change with a mixture of radical and rational ideas Readers learn academic librarians views on dealing with change as they read about an environmental scan which identifies both internal and external forces that are increasing the amount and scope of change in academic libraries technological change and its impact in academic libraries the academic library director s role as an agent of change how two large library systems managed to change in some very fundamental ways when faced with serious economic and political challenges difficult personnel issues faced by academic libraries as they move into new organizational structures and adopt new management styles the future of traditional reference services in light of rapid developments in computing and networking how to change bibliographic control to better serve the changing expectations and needs of user communities conducting a restructuring study and recommendations for organizational change in a large research library system Each chapter shows academic librarians how they can respond imaginatively and nimbly to economic political and technological change that envelopes their professional work life Academic librarians will refer to Managing Change in Academic Libraries again and again as a survival tool as they meet with challenging and unpredictable changes      **Information Retrieval & Library Automation**, 1991
