Texts Pretexts:

Contexts, Subtexts and Pretexts Brian James Baer, 2011-04-13 This volume presents Eastern Europe and Russia as a distinctive translation zone despite significant internal differences in language religion and history The persistence of large multilingual empires which produced bilingual and even polyglot readers the shared experience of belated modernity and the longstanding practice of repressive censorship produced an incredibly vibrant profoundly politicized and highly visible culture of translation throughout the region as a whole The individual contributors to this volume examine diverse manifestations of this shared translation culture from the Romantic Age to the present day revealing literary translation to be at times an embarrassing reminder of the region's cultural marginalization and reliance on the West and at other times a mode of resistance and a metaphor for cultural supercession This volume demonstrates the relevance of this region to the current scholarship on alternative translation traditions and exposes some of the Western assumptions that have left the region underrepresented in the field of Translation Studies

Text, Context, Pretext H. G. Widdowson, 2008-04-15 Written by a leading researcher in the field this fascinating examination of the relations between grammar text and discourse is designed to provoke critical discussion on key issues in discourse analysis which are not always clearly identified and examined Written by a leading researcher in the field Continues the enquiry into discourse analysis that Zellig Harris initiated 50 years ago which raised a number of problematic issues that have remained unresolved ever since Introduces the notion of pretext as an additional factor in the general interpretative process Focuses attention specifically on the work of critical discourse analysis CDA in light of the issues discussed

Text as Pretext Robert P. Carroll, 1992-05-01 This collection of essays in honour of Professor Robert Davidson celebrates a number of notable achievements of this outstanding Scottish churchman and scholar It is published for the occasion of his sixty fifth birthday but it also marks his retirement from full time university teaching and nods in the direction of his having been the Moderator of the General Assembly of the Church of Scotland 1990-91 The guiding principle governing this collection of essays is the notion of the Bible as the generator of other texts and cultural productions The contributors are drawn from Davidson's wide range of colleagues and former students and focus on many different aspects of this generative force within the Bible itself and in materials related to it Contributors include A G Auld J M G Barclay E Best J C L Gibson W Johnstone H A McKay J K Riches and the editor among others

Variational Text Linguistics Christoph Schubert, Christina Sanchez-Stockhammer, 2016-05-24 Owing to the ever increasing possibilities of communication especially with the advent of modern communication technologies register analysis offers a constantly widening range of research opportunities Still research has mainly concentrated on well established and frequent registers such as newspaper articles while many descriptive and theoretical issues have not yet been sufficiently investigated This volume gives a state of the art insight into register studies and points out emerging trends as well as new directions for future research Furthermore it provides a forum for the description and discussion of registers which have not

received an appropriate amount of attention so far In particular it deals with specialized offline and online registers cross register comparison as well as regional contrastive and diachronic register variation In parallel to the new discipline of variational pragmatics this volume aims to foster the discipline of variational text linguistics and to initiate fundamental investigations in this area This field of research provides new insights into the concept of register since it covers both functional and regional types of textual variation Poetics of the Pretext Roland-François Lack,1998 Poetics of the Pretext is an original study of the French poet Lautréamont 1846 1870 who was rediscovered by the Surrealists in the 1920s and promoted to the vanguard of theoretical debate by the Telquelists of the 1960s but whose work has remained largely ignored or misinterpreted beyond a small circle of enthusiasts Poetics of the Pretext analyses closely the texts pretexts and intertexts of this innovative poet bringing Les Chants de Maldoror and Poésies to the foreground of contemporary critical debates around poetics genre intertextuality and influence This book will make a major contribution to our understanding not only of the work of Lautréamont but also to the function of originality imitation and plagiarism in the nineteenth century **Why Ethics?** Robert Gibbs,2012-01-06 Robert Gibbs presents here an ambitious new theory of ethics Drawing on a striking combination of intellectual traditions including Jewish thought continental philosophy and American pragmatism Gibbs argues that ethics is primarily concerned with responsibility and is not as philosophers have often assumed principally a matter of thinking about the right thing to do and acting in accordance with the abstract dictates of reason or will More specifically ethics is concerned with attending to others questions and bearing responsibility for what they do Gibbs builds this innovative case by exploring the implicit responsibilities in a broad range of human interactions paying especially close attention to the signs that people give and receive as they relate to each other Why Ethics starts by examining the simple actions of listening and speaking reading and writing and by focusing on the different responsibilities that each action entails The author discusses what he describes as the mutual responsibilities implicit in the actions of reasoning mediating and judging He assesses the relationships among ethics pragmatics and Jewish philosophy The book concludes by looking at the relation of memory and the immemorial emphasizing the need to respond for past actions by confessing seeking forgiveness and making reconciliations In format Gibbs adopts a Talmudic approach interweaving brief citations from primary texts with his commentary He draws these texts from diverse thinkers and sources including Levinas Derrida Habermas Rosenzweig Luhmann Peirce James Royce Benjamin Maimonides the Bible and the Talmud Ranging over philosophy literary theory social theory and historiography this is an ambitious and provocative work that holds profound lessons for how we think about ethics and how we seek to live responsibly *Textual Strategies* Josue V. Harari,2019-06-30 A stellar cast of fifteen contributors seeks to show the direction in which continental and continentally oriented American literary criticism has evolved in recent years Nine of the essays are published here for the first time five of the remaining six were translated by the editor from the French only one has previously appeared in English The essays make available some of the most

important and most representative work that has been done in the wake of structuralism Among the topics treated are the relationships between semiology and literature anthropology and literature and psychoanalysis and literature modern American poetics algebraic models as epistemological operators the modes of production of a poem Flaubert's view of history and poetic language Professor Harari has arranged the essays to move from the general to the particular and from the abstract to the concrete In an informative and ambitious introduction he discusses each essay in relation to the whole and explains the interrelationships among the various theories and strategies that are represented in the anthology A book meant for the specialist as well as the novice for the teacher of literature and criticism as well as the student Textual Strategies is a brilliant introduction to post structuralist critical theories and practices
