That Noble Science of Politics Stefan Collini, Donald Winch, John Burrow, 1983-11-24 In this work three historians of ideas examine the forms taken in nineteenth century Britain to develop a science of politics **The British Study of Politics in the Twentieth Century** Jack Hayward, Brian Barry, Archie Brown, 2003-05 A collection of articles about British studies relating to various political issues including totalitarianism individualism pluralism political parties elections political institutions public administration nationalism authoritarianism and international relations *A Companion to Intellectual History* Richard Whatmore, Brian Young, 2015-11-06 A Companion to Intellectual History provides an in depth survey of the practice of intellectual history as a discipline Forty newly commissioned chapters showcase leading global research with broad coverage of every aspect of intellectual history as it is currently practiced Presents an in depth survey of recent research and practice of intellectual history Written in a clear and accessible manner designed for an international audience Surveys the various methodologies that have arisen and the main historiographical debates that concern intellectual historians Pays special attention to contemporary controversies providing readers with the most current overview of the field Demonstrates the ways in which intellectual historians have contributed to the history of science and medicine literary studies art history and the history of political thought Named Outstanding Academic Title of 2016 by Choice Magazine a publication of the American Library Association **Herbert Spencer and the Invention of Modern Life** Mark Francis, 2014-12-23 The English philosopher Herbert Spencer 1820 1903 was a colossus of the Victorian age His works ranked alongside those of Darwin and Marx in the development of disciplines as wide ranging as sociology anthropology political theory philosophy and psychology In this acclaimed study of Spencer the first for over thirty years and now available in paperback Mark Francis provides an authoritative and meticulously researched intellectual biography of this remarkable man that dispels the plethora of misinformation surrounding Spencer and shines new light on the broader cultural history of the nineteenth century In this major study of Spencer the first for over thirty years Mark Francis provides an authoritative and meticulously researched intellectual biography of this remarkable man Using archival material and contemporary printed sources Francis creates a fascinating portrait of a human being whose philosophical and scientific system was a unique attempt to explain modern life in all its biological psychological and sociological forms Herbert Spencer and the Invention of Modern Life fills what is perhaps the last big biographical gap in Victorian history An exceptional work of scholarship it not only dispels the plethora of misinformation surrounding Spencer but shines new light on the broader cultural history of the nineteenth century Elegantly written provocative and rich in insight it will be required reading for all students of the period

Friedrich Max Müller and the Sacred Books of the East Arie L. Molendijk, 2016-07-21 This volume offers a critical analysis of one the most ambitious editorial projects of late Victorian Britain the edition of the fifty substantial volumes of the Sacred Books of the East 1879 1910 The series was edited and conceptualized by Friedrich Max Müller 1823 1900 a world

famous German born philologist orientalist and religious scholar Müller and his influential Oxford colleagues secured financial support from the India Office of the British Empire and from Oxford University Press Arie L Molendijk documents how the series has become a landmark in the development of the humanities especially the study of religion and language in the second half of the nineteenth century The edition also contributed significantly to the Western perception of the religious or even mystic East which was textually represented in English translations The series was a token of the rise of big science and textualized the East by selecting their sacred books and bringing them under the power of western scholarship

Imperial History and the Global Politics of Exclusion Amanda Behm, 2017-10-24 Examining the rise of the field of imperial history in Britain and wider webs of advocacy this book demonstrates how intellectuals and politicians promoted settler colonialism excluded the subject empire and laid a precarious framework for decolonization History was politics in late nineteenth century Britain But the means by which influential thinkers sought to steer democracy and state development also consigned vast populations to the margins of imperial debate and policy From the 1880s onward politicians intellectuals and journalists erected a school of thought based on exclusion and deferral that segregated past and future backwardness and civilization validating racial discrimination in empire all while disavowing racism These efforts however engendered powerful anticolonial backlash and cast a long shadow over the closing decades of imperial rule Bringing to life the forgotten struggles which have in effect defined our times Imperial History and the Global Politics of Exclusion is an important reinterpretation of the intellectual history of the British Empire

The Capacity To Judge Jeffrey L. McNairn, 2016-09-01 By the mid nineteenth century public opinion emerged as a new form of authority in Upper Canada Contemporaries came to believe that the best answer to common questions arose from deliberation among private individuals Older conceptions of government sociability and the relationship between knowledge and power were jettisoned for a new image of Upper Canada as a deliberative democracy The Capacity to Judge asks what made widespread public debate about common issues possible why it came to be seen as desirable even essential and how it was integrated into Upper Canada's constitutional and social self image Drawing on an international body of literature indebted to Jürgen Habermas and based on extensive research in period newspapers Jeffrey L McNairn argues that voluntary associations and the press created a reading public capable of reasoning on matters of state and that the dynamics of political conflict invested that public with final authority He traces how contemporaries grappled with the consequences as they scrutinized parliamentary republican and radical options for institutionalizing public opinion The Capacity to Judge concludes with a case study of deliberative democracy in action that serves as a sustained defense of the type of intellectual history the book as a whole exemplifies

The Study of History, 2000 History is a subject which never stands still It is always changing its philosophies its contours its leading questions its politics its conceptual status and its methodologies This bibliographical guide to the study of history is wide ranging in scope extending from the ancient world to the 20th century It deliberately concentrates on modern historians views provides a

substantial section on the philosophy of history charts controversies and highlights the continual evolution and diversification of history The material is logically organized in major areas and subsections and cross references are given where appropriate An index of authors editors and compilers is also provided Political Discourse in Early Modern Britain Nicholas Phillipson, Quentin Skinner, 1993-02-26 Inspired by the work of intellectual historian J G A Pocock this 1993 collection explores the political ideologies of early modern Britain **Edmund Burke and the Invention of Modern Conservatism, 1830-1914** Emily Jones, 2017-03-29 Between 1830 and 1914 in Britain a dramatic modification of the reputation of Edmund Burke 1730 1797 occurred Burke an Irishman and Whig politician is now most commonly known as the founder of modern conservatism an intellectual tradition which is also deeply connected to the identity of the British Conservative Party The idea of Burkean conservatism a political philosophy which upholds the authority of tradition the organic historic conception of society and the necessity of order religion and property has been incredibly influential both in international academic analysis and in the wider political world This is a highly significant intellectual construct but its origins have not yet been understood Emily Jones demonstrates for the first time that the transformation of Burke into the founder of conservatism was in fact part of wider developments in British political intellectual and cultural history in the nineteenth and early twentieth centuries Drawing from a wide range of sources including political texts parliamentary speeches histories biographies and educational curricula Edmund Burke and the Invention of Modern Conservatism shows how and why Burke s reputation was transformed over a formative period of British history In doing so it bridges the significant gap between the history of political thought as conventionally understood and the history of the making of political traditions The result is to demonstrate that by 1914 Burke had been firmly established as a conservative political philosopher and was admired and utilized by political Conservatives in Britain who identified themselves as his intellectual heirs This was one essential component of a conscious re working of C conservatism which is still at work today
