only the general can turn political directions into military command and capacitate war Thus the general has unique opportunity to resist unconscionable direction to launch an unjust war or to conduct or expand war unjustly This book argues for reform so the general has the right in law to refuse direction which is lawful but awful The legal capacity to refuse would mean the general would be expected to act responsibly not merely as the unresisting pawn of politics Such reform creating legal opportunity for the supreme command to refuse lawful but unconscionable directives might avert unjust war This book will be of much interest to students of the ethics of war civil military relations and international relations **British Museum** , *A General Catalogue of an Extensive Collection of Books, New and Second-hand* John & George Todd (Firm),1817 the quiver: an illustrated magazine for sunday and general reading. ,1869 A General Abridgment of Law and Equity Charles Viner,1793
