The Guinness Guide To Mountain Animals:

The Guinness Guide to Mountain Animals René-Pierre Bille, Geoffrey Lovett, 1975 **Mountain Wildlife** Richard Perry, 1981 William James's Naval History is one of the most valuable works in the English language on the operation of the Royal Navy during the French Revolutionary and Napoleonic Wars James corresponded widely with the survivors of the events he describes By carefully evaluating and balancing conflicting reports and testimonies he achieved an accuracy often lacking in later studies The original five volumes were published in 1822-24 with a six volume edition appearing in 1826 Previously the work has only been available to scholars through specialist libraries This new hardcover edition with an introduction by the noted naval historian Andrew Lambert as well as an index for each volume provides both scholars and maritime enthusiasts an accessible and affordable edition of this important work Illustrated with charts diagrams and images the work remains an essential source for all those who are interested in the operation of the Royal Navy in this period
