**The Haunted Stars** Edmond Hamilton, 2013-07-25 It meant little to Robert Fairlie a serious and dedicated young philologist that the United States and Soviet Russia were at odds about the Moon He had little interest in the first rocket landings or the bases that the two nations had established there And he neither knew nor cared why the Americans would not agree to mutual inspections of these bases Yet the Americans had reason enough and quite unexpectedly because of his specialised knowledge of languages he found himself sharing the burden of an incredible secret For what the American base had yielded was astounding evidence that space had already been conquered many centuries before by a people who had once spanned the stars There had been machines and destructive weapons beyond the comprehension of present day scientists which if knowledge of them fell into the wrong hands could plunge the world into unutterable chaos Fairlie s trip to the closely guarded rocket base in New Mexico turned out to be only the first step on a fantastic journey amid the unexplored stars to the home world of the space conquerors of long ago It was a journey into the appalling reality of stellar space still haunted by the past cosmic struggle whose scale in space and time dwarfed the rivalries of tiny Earth s quarreling nations
