even to the subjects of magic but that the plays themselves can be seen as working to bring about change in the ways that they challenge contemporary assumptions and stereotypes Hermes in the Academy Wouter J. Hanegraaff, Joyce Pijnenburg, 2009 Hermes in the Academy commemorates the tenth anniversary of the Center for History of Hermetic Philosophy and related Currents GHF at the University of Amsterdam The center devotes itself to the study of Western esotericism which includes topics such as Hermetic philosophy Christian kabbalah and occultism This volume shows how over the past ten years the GHF has developed into the leading international center for research and teaching in this domain

Alchemy and Exemplary Poetry in Middle English Literature Curtis Runstedler, 2023-03-27 This book explores the different functions and metaphorical concepts of alchemy in fourteenth and fifteenth century Middle English poetry and bridges them together with the exempla tradition in late medieval English literature Such poetic narratives function as exemplary models which directly address the ambiguity of medieval English alchemical practice This book examines the foundation of this relationship between alchemical narrative and exemplum in the poetry of Gower and Chaucer in the fourteenth century before exploring its diffusion in lesser known anonymous poems and recipes in the fifteenth century namely alchemical dialogues between Morienus and Merlin Albertus Magnus and the Queen of Elves and an alchemical version of John Lydgate's poem The Churl and the Bird It investigates how this exemplarity can be read as inherent to understanding poetic narratives containing alchemy as well as enabling the reader to reassess the understanding and expectations of science and narrative within medieval English poetry **The Oxford Companion to English Literature**

Dinah Birch, 2009-09-24 Written by a team of more than 150 contributors working under the direction of Dinah Birch and ranging in influence from Homer to the Mahabharata this guide provides the reader with a comprehensive coverage of all aspects of English literature *The Duchamp Book* Gavin Parkinson, 2008-05 Marcel Duchamp 1887-1968 was without

doubt one of the most controversial artists of the twentieth century Associated with cubism Dada and Surrealism his invention of the readymade led him to produce some of the most iconic works of his era While he is often cited as the most influential artist of his generation and is seen by many to be the progenitor of much of the conceptual and postmodern art of today the writing published to date on Duchamp is often obscure and mired in theory Extensively illustrated and featuring Duchamp's own writings *The Duchamp Book* provides a much needed accessible introduction to the artist The Writing Cure Alexandra Lembert-Heidenreich, Jarmila Mildorf, 2013 Medicine and literary studies are often thematically aligned since the former can be understood as an interpretive science Literary texts across all genres and time periods deal with medical issues that portray illness patients suffering recovering or doctors at work thus pointing towards a deep seated interest in the human condition Enveloping the growing interdisciplinary field of medical humanities this book examines the connections between medicine and fictional non-fictional literature from the Early Modern period to the most recent present from literary medical and cultural studies perspectives Series Natural Sciences and Humanities in Dialogue Kultur und

Naturwissenschaften im Dialog Vol 2 Supernatural Fiction in Early Modern Drama & Culture Ryan Curtis Friesen, 2019-07-01 Magic and the supernatural are common themes in the philosophy and fiction of the sixteenth and seventeenth centuries This book explores varieties of scepticism and belief exhibited by a selection of philosophers and playwrights including Heinrich Cornelius Agrippa Giordano Bruno John Dee Christopher Marlowe and William Shakespeare

Catalogue of the Literature and History of the British Islands ... Bernard Quaritch (Firm), 1899 **The Concise Oxford Companion to English Literature** Dinah Birch, Katy Hooper, 2012-06-14 This book provides a compact guide to all aspects of English literature For this edition existing entries have been updated and new entries have been added on contemporary writers such as Jim Crace and Pat Barker Darke Hieroglyphicks Stanton J. Linden, 2014-07-11 The literary influence of alchemy and hermeticism in the work of most medieval and early modern authors has been overlooked Stanton Linden now provides the first comprehensive examination of this influence on English literature from the late Middle Ages through the sixteenth and seventeenth centuries Drawing extensively on alchemical allusions as well as on the practical and theoretical background of the art and its pictorial tradition Linden demonstrates the pervasiveness of interest in alchemy during this three hundred year period Most writers including Langland Gower Barclay Erasmus Sidney Greene Lyly and Shakespeare were familiar with alchemy and references to it appear in a wide range of genres Yet the purposes it served in literature from Chaucer through Jonson were narrowly satirical In literature of the seventeenth century especially in the poetry of Donne Herbert Vaughan and Milton the functions of alchemy changed Focusing on Bacon Donne Herbert Vaughan and Milton in addition to Jonson and Butler Linden demonstrates the emergence of new attitudes and innovative themes motifs images and ideas The use of alchemy to suggest spiritual growth and change purification regeneration and millenarian ideas reflected important new emphases in alchemical medical and occultist writing This new tradition did not continue however and Butler's return to satire was contextualized in the antagonism of the Royal Society and religious Latitudinarians to philosophical enthusiasm and the occult Butler like Shadwell and Swift expanded the range of satirical victims to include experimental scientists as well as occult charlatans The literary uses of alchemy thus reveal the changing intellectual milieus of three centuries **The Modern Eclectic Dictionary of the English Language** Robert Hunter, Charles Morris, 1905
