The Heptameron Marguerite De Navarre,2004-07-01 In the early 1500s five men and five women find themselves trapped by floods and compelled to take refuge in an abbey high in the Pyrenees When told they must wait days for a bridge to be repaired they are inspired by recalling Boccaccio s Decameron to pass the time in a cultured manner by each telling a story every day The stories however soon degenerate into a verbal battle between the sexes as the characters weave tales of corrupt friars adulterous noblemen and deceitful wives From the cynical Saffredent to the young idealist Dagoucin or the moderate Parlamente believed to express De Navarre s own views The Heptameron provides a fascinating insight into the minds and passions of the nobility of sixteenth century France

Rape and Writing in the Heptaméron of Marguerite de Navarre Patricia Francis Cholakian, 1991 Marguerite de Navarre 1492 1549 the sister of the French king François I composed the Heptameron as a complex collection of seventy two novellas creating one of the first examples of realistic psychological fiction in French literature These novellas framed by debates among ten storytellers all noble lords and ladies reveal the author's desire to depart from the purely masculine voice of the age Cholakian contends that this Renaissance text is characterized by feminine writing She reads the text as the product of the author's personal experience Beginning her study with the rape narrative in the autobiographical novella 4 she examines how the Heptameron interacts with male literary traditions and narrative conventions about gender relations She analyzes such words as rape and honor noting how they are defined differently by men and women and how these differences in perception affect the development of both plot and character
