Sinicization Beyond Great Wall:

Sinicization Beyond the Great Wall Anwar Rahman, 2005 Describes Xinjiang and its native indigenous people under the Chinese rule since the People's Republic of China was founded in 1949 The highlights of this book are the author's analyses on the modern Chinese policies towards its minority nationals It is a useful handbook for those interested in China's ethnic problems and Central Asian studies *Beyond the Great Wall* Jeffrey Alford, Naomi Duguid, 2008-05-01 WINNER OF THE 2009 JAMES BEARD FOUNDATION INTERNATIONAL COOKBOOK AWARD WINNER OF THE 2009 IACP BEST INTERNATIONAL COOKBOOK AWARD A bold and eye opening new cookbook with magnificent photos and unforgettable stories In the West when we think about food in China what usually comes to mind are the signature dishes of Beijing Hong Kong Shanghai But beyond the urbanized eastern third of China lie the high open spaces and sacred places of Tibet the Silk Road oases of Xinjiang the steppelands of Inner Mongolia and the steeply terraced hills of Yunnan and Guizhou The peoples who live in these regions are culturally distinct with their own history and their own unique culinary traditions In *Beyond the Great Wall* the inimitable duo of Jeffrey Alford and Naomi Duguid who first met as young travelers in Tibet bring home the enticing flavors of this other China For more than twenty five years both separately and together Duguid and Alford have journeyed all over the outlying regions of China sampling local home cooking and street food making friends and taking lustrous photographs *Beyond the Great Wall* shares the experience in a rich mosaic of recipes from Central Asian cumin scented kebabs and flatbreads to Tibetan stews and Mongolian hot pots photos and stories A must have for every food lover and an inspiration for cooks and armchair travelers alike *Xinjiang in the Twenty-First Century* Michael Dillon, 2018-10-03 There has been a significant increase in the twenty first century in the frequency and intensity of violent incidents in the Xinjiang Uyghur Autonomous Region the far northwest province of China where the Uyghurs the Turkic speaking Muslim people who historically constituted the majority population feel themselves displaced and discriminated against by the growing in migration of Han Chinese The book explores the continuing unrest in Xinjiang It focuses in particular on the major violence of July 2009 in the city of Urumqi on repression and the practice of Islam in southern Xinjiang and on the policy of the Chinese Communist Party which has used the rhetoric of the War on Terror to justify its repression in terms which it hopes will gain sympathy from the international community The book relates these particular points to the development of China Uyghur relations more broadly in the longer historical perspective and concludes by discussing how the situation is likely to unfold in future *Islam in China & The Plight of the Uighurs* Cometan, 2019-12-19 Full title Critical analysis of the presence of Islam in China and the current plight of the Uighur Muslims in Xinjiang The central postulation made in this essay is that the current plight of the Uighur Muslims in the Xinjiang province of China is two pronged in its cause The first involves a deeply rooted historical rejection or at least suspicion of any religion that is not Chinese in origin and secondly involves a concerted effort on behalf of the Chinese Communist Party to gain greater control over a people group whom it

sees as representing a threat to its authority and dominance in the province of Xinjiang To justify the validity of this statement this essay will be divided into three distinct parts the first two parts will explore the historical background and present day context of Islam in China with the aim of clarifying the Chinese worldview on foreign religions and people groups These will act as important contributions to culminate into the third part which will focus on the current occurrence of sinofication sinicisation in the Xinjiang province to the detriment of the human rights religious and cultural liberties and the very existence of the Uighur Muslim ethnic group The essay will provide a historical context by explaining the timeline of the presence of Islam across different parts of China where it experienced the most activity and adherence This particularly includes the southwestern ports where it was brought into the country by Arab traders as well as in the westernmost reaches as a result of being part of the outer edges of different Islamic empires that held territory across Central Asia

A Chinese Rebel Beyond the Great Wall Tiejun Cheng,TJ Cheng,Uradyn E. Bulag,Mark Selden,2023-10-24 During Mao Zedong s Great Leap Forward hundreds of thousands of famine refugees in the recently founded People s Republic of China set their sights on the agricultural promise of Inner Mongolia Cheng Tiejun was one of those refugees arriving in Inner Mongolia in 1959 In 1966 as the PRC plunged into the tumultuous events of the Cultural Revolution he joined the millions of students and young intellectuals in the Red Guards who saw in the early days of the Cultural Revolution an opportunity to shape a new nation embracing freedom and equality In Inner Mongolia however that year saw the Party led destruction of the Mongol centered autonomous polity led by Ulanhu In the years after the fall of Ulanhu s administration the region descended into a living hell for Mongols Even those among the rebels were accused of being Ulanhu sympathizers and tortured for information At the heart of this book are Cheng s first person recollections of his experiences as a rebel These are supplemented by a close examination of the documentary record of the era as patchwork and censored as it is from co authors Mark Selden and Uradyn E Bulag The final chapter offers a theoretical framework to understand such persecution Its goal was not to destroy the Mongols as a people or as a culture that is it was not a genocide It was however a politicide an attempt to destroy an officially and politically recognized nationality in possession of an autonomous region forcing Mongols to assimilate as ethnic minorities within a Chinese nation This unusual narrative provides urgently needed primary material to understand the events of the Cultural Revolution while at once offering a novel way to understand contemporary Chinese minority politics

Ethnic Identity and National Conflict in China A. Acharya,R. Gunaratna,W. Pengxin,2010-06-21 While not discounting the potency of the radical Islamic religious discourse in fuelling the contemporary wave of terrorism this book makes an attempt to explain terrorism in China as an ethno nationalist conflict rooted in issues involving minority identity However a largely domestic conflict is being hijacked by the radical Islamists

Borderland Infrastructures Alessandro Rippa, 2025-10-01 Across the Chinese borderlands investments in large scale transnational infrastructure such as roads and special economic zones have increased exponentially over the past two decades Based on long term ethnographic research Borderland Infrastructures addresses a major contradiction at the heart of this fast paced development small scale traders have lost their historic strategic advantages under the growth of massive Chinese state investment and are now struggling to keep their businesses afloat Concurrently local ethnic minorities have become the target of radical resettlement projects securitization and tourism initiatives and have in many cases grown increasingly dependent on state subsidies At the juncture of anthropological explorations of the state border studies and research on transnational trade and infrastructure development Borderland Infrastructures provides new analytical tools to understand how state power is experienced mediated and enacted in Xinjiang and Yunnan In the process Rippa offers a rich and nuanced ethnography of life across China s peripheries

Uyghur Texts in Context Frederick de Jong, 2017-11-01 The current volume presents a selection of 126 texts in Uyghur posted in public spaces translated and annotated for this book The author started photographing Uyghur texts in 2008 at the time of the Beijing olympics and continued to do so during 2009 the year of the so called Urumqi uprising of July

5 This event generated a stream of texts posted in public spaces that reflected the efforts made by the authorities to re establish control In the course of his travels in the years thereafter the author continued to add to the corpus of photographed Uyghur texts At the same time he started collecting as comprehensively as possible various types of folders brochures handouts and product wrappings with texts illustrating aspects of Uyghur culture and society The texts published here for the first time are primary source materials documenting a wide variety of aspects of daily life of the Uyghurs in Xinjiang The implicit messages or explicit references contained in many of these texts give them significance as clues towards an understanding of the existential realities they reflect or illustrate **Beyond the Pass** James

Millward,1998-06-01 As analysis of the revenue available to Qing garrisons in Xinjiang reveals imperial control over the region in the eighteenth and nineteenth centuries depended upon sizeable yearly subsidies from China In an effort to satisfy criticism of their expansion into Xinjiang and make the territory pay for itself the Qing court permitted local authorities great latitude in fiscal matters and encouraged the presence of Han and Chinese Muslim merchants At the same time the court recognized the potential for unrest posed by Chinese mercantile penetration of this Muslim Turkic speaking area They consequently attempted through administrative and legal means to defend the native Uyghur population against economic depredation This ethnic policy reflected a conception of the realm that was not Sinocentric but rather placed the Uyghur on a par with Han Chinese Both this ethnic policy and Xinjiang s place in the realm shifted following a series of invasions from western Turkestan starting in the 1820 s Because of the economic importance of Chinese merchants and the efficacy of merchant militia in Xinjiang the Qing court revised its policies in their favor for the first time allowing permanent Han settlement in the area At the same time the court began to advocate provincehood and the Sinicization of Xinjiang as a resolution to the perennial security problem These shifts the author argues marked the beginning of a reconception of China to include Inner Asian lands and peoples a notion that would by the twentieth century become a deeply held tenet of Chinese nationalism

Conflict in India and China's Contested Borderlands Kunal Mukherjee,2019-01-04 For a long time India and China have been seen as the rising economic giants on the Asiatic mainland Studies of the conflicts which have plagued the borderlands of India and China however have tended to only analyse individual case studies without attempting to compare and contrast the situation in these conflicts This book compares and contrasts the situation in India s disputed borderlands Kashmir and the Indian north eastern states with China s contested borderlands Xinjiang and Tibet The book looks at the root causes of the conflict and how these conflicts have evolved and changed their character with the passage of time Analysing how the countries have dealt with their territorial disputes from the 50 s till more recent times the author shows to what extent these state policies have exacerbated the already strained situation Using primary data collected primarily through interviews from the people inhabitants of these conflict zones the book throws new light on the problem This bottom up approach allows the people to speak and provides a different understanding of the nature of the conflict

which may very well be the way forward for long lasting peace A comparative study of the conflicts in the contested borderlands of China and India the book will be of interest to scholars studying Asian security studies and Asian Politics particularly and Defence and Security Studies more generally **Xinjiang and the Chinese State** Debasish

Chaudhuri,2017-08-18 This book focuses on the nature of ethno national conflicts and impacts of ideological orientation of the Communist Party of China CPC towards the national question in the context of Han nationalism and political economic and security policies towards Xinjiang Violence in Xinjiang since the mid 1990s is projected as one of the major national security challenges for China along with issues pertaining to Tibet and Taiwan The author argues that the post Mao reformist model may have been a beneficial economic and political innovation but failed in dealing with regional conflicts and unrests arising out of the demands for independence freedom greater autonomy and assertion of democratic and civic rights The book discusses Chinese nationalism and the construction of Uyghur national identity consequences of economic modernisation in the region ethnic conflicts and coercive measures the security and social stability situation in Xinjiang intensification of violence in Xinjiang under the new leadership vision of the Chinese dream key policies and programmes post riot fallouts and social contradictions manifest in discourses surrounding development separatist violence religious fundamentalism and international terrorism With its in depth accessible and comprehensive analyses this book will be a valuable addition to scholars and researchers of Chinese studies politics and international relations security and strategic studies sociology social anthropology and ethnic studies **Routledge Handbook of Asian Borderlands** Alexander

Horstmann,Martin Saxer,Alessandro Ripa,2018-04-09 In Asia where authoritarian developmental states have proliferated statehood and social control are heavily contested in borderland spaces As a result in the post Cold War world borders have not only redefined Asian incomes and mobilities they have also rekindled neighbouring relations and raised questions about citizenship and security The contributors to the Routledge Handbook of Asian Borderlands highlight some of these processes taking place at the fringe of the state Offering an array of comparative perspectives of Asian borders and borderlands in the global context this handbook is divided into thematic sections including Livelihoods commodities and mobilities Physical land use and agrarian transformations Borders and boundaries of the state and the notion of statelessness Re conceptualizing trade and the economy in the borderlands The existence and influence of humanitarians religions and NGOs The militarization of borderlands Causing us to rethink and fundamentally question some of the categories of state nation and the economy this is an important resource for students and scholars of Asian Studies Border Studies Social and Cultural Studies and Anthropology Chapter 12 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license *Fifteen Topics in Historical Geography of China* Maoli Han,2025-08-26 Lectures on Chinese Historical Geography is a landmark work that bridges a three decade gap in English language introductions to China's historical geography This comprehensive volume

offers profound insights into how the dynamic interplay between geography history and human civilization has shaped China's landscape culture and development from prehistoric times to the present. Covering a wide range of topics, the book examines the evolution of territorial boundaries, the long-standing debates over warm and cold periods in the past 2,000 years, and the connections between shifting economic centers and migration patterns. It also explores the strategic role of rivers, canals, and ancient roads, as well as the cultural exchanges fostered by the Silk Road and the influence of geography on ancient strategic spaces and capital cities. Since its original publication in 2015, the book has been reprinted over a dozen times and republished twice. It has become a key reference for historical geography courses at universities across China and is widely regarded as one of the most comprehensive and influential works in the field. *Lectures on Chinese Historical Geography* is an essential resource for understanding the geographical foundations of China's history and the evolution of human-environment interactions.

Race, Ethnicity and Religion in Conflict Across Asia Kunal Mukherjee, 2021-02-27. This book looks at conflict zones in the Asia Pacific with a special focus on secessionist groups' movements in the Indian Northeast, Tibet, Chinese Xinjiang, the Burmese borderlands, Kashmir in South Asia, CHT in Bangladesh, South Thailand, and Aceh in Indonesia. These conflict zones are predominantly ethnic minority provinces which, by and large, do not share a sense of oneness with the country that they are currently a part of. Most of these insurgencies have had strong linkages with separatist nationalist groups in the region. Methodologically, the author uses extensive fieldwork, interview data, and participant observation from these conflict zones to take a bottom-up approach, giving importance to the voices of ordinary people and the residents of these conflict zones whose voices have generally been ignored. Although the book looks at both the historical background and contemporary dimensions of these conflicts, the author focuses on exploring how the role of race, ethnicity, and religion in these conflicts can be both direct and indirect. This book will be of great interest to students and scholars of conflict and security in contemporary Asia, with a background in politics, history, IR, security studies, religion, and sociology.

Creativity and Beyond Robert Paul Weiner, 2012-02-01. *Creativity and Beyond* offers a wide-ranging interdisciplinary tour of cultures past and present to examine the different ways people have conceived of creativity and how the common understanding of creativity is changing in the current flux of global culture. Weiner analyzes the ways in which understanding creativity is tied to broader contemporary patterns, including intellectual concerns with postmodernism, trends in the arts, the changing status of women, the power of the electronic media, multiculturalism, developments in psychology, science, and technology, and the dramatic political, economic, and social transformations of our age. *Dressed to Rule* John E.

Vollmer, Mactaggart Art Collection, 2007-10-15. Vollmer journeys back to the thirteenth-century Chinese Empire where ancestors of the ruling Manchu conquerors dressed fittingly.

Boundaries, Borders and Frontiers in Archaeology Bryan Feuer, 2016-02-17. Until fairly recently, archaeological research has been directed primarily toward the centers of societies rather than their perimeters. Yet frontiers and borders, precisely because they are peripheral, promote interaction.

between people of different polities and cultures with a wide range of potential outcomes Much work has begun to redress this disparity of focus Drawing on contemporary and ethnographic accounts historical data and archaeological evidence this book covers more than 30 years of research on boundaries borders and frontiers beginning with *The Northern Mycenaean Border in Thessaly* in 1983 The author discusses various theoretical and methodological issues concerning peripheries as they apply to the archaeological record Political economic social and cultural processes in border and frontier zones are described in detail Three case study societies are examined China Rome and Mycenaean Greece
