Situated Learning Legitimate Peripheral Participation:

Situated Learning Jean Lave, Etienne Wenger, 1991-09-27 In this important theoretical treatise the authors push forward the notion of situated learning that learning is fundamentally a social process **SITUATED LEARNING: LEGITIMATE PERIPHERAL PARTICIPATION (INTERLOAN 318499).** , *An Analysis of Jean Lave and Etienne Wenger's Situated Learning* Charmi Patel, 2018-02-21 Social anthropologist Jean Lave and computer scientist Etienne Wenger's seminal *Situated Learning* helped change the fields of cognitive science and pedagogy by approaching learning from a novel angle. Traditionally theories of learning and education had focused on processes of cognition the mental processes of knowledge formation that occur within an individual. Lave and Wenger chose to look at learning not as an individual process but a social one. As so often with the creative thinking process a small simple shift in emphasis was all that was required to show things in an entirely different light. What *Situated Learning* illustrated and emphasized was that learning is dependent on its social situation. Even though the most effective way to learn is through interaction with experts and peers in a community organized around a common interest the traditional cognitive learning model failed to account for the way in which learners interact with their community of practice. The new hypothesis that Lave and Wenger developed was that learning can be seen as a continuously evolving set of relationships situated within a social context. This allowed Lave and Wenger to place discussions of apprenticeship and workplace learning on a new footing and led in turn to the book's impressive impact in business and management scholarship.
