Situational Crime Prevention Successful Case Studies:

Situational Crime Prevention R. V. G. Clarke, 1997-01-01 This 2nd edition features a revised and extended classification of 16 techniques of situational crime prevention 13 new case studies and over 300 new references Situational Crime Prevention should be required reading for anyone interested in innovation in policing It offers a wide range of techniques that the police can use to reduce the problems that constitute their business The superb collection of case studies persuasively illustrates how novel approaches to old problems can be developed and their effectiveness proven through rigorous evaluation The book goes to the heart of what policing is all about Professor Herman Goldstein University of Wisconsin

Situational Crime Prevention R. V. G. Clarke, 1992

International Handbook of Penology and Criminal Justice Shlomo Giora Shoham, Ori Beck, Martin Kett, 2007-10-08 At the outset of the twenty first century more than 9 million people are held in custody in over 200 countries around the world from the essay Prisons and Jails by Ron King The first comparative study of this increasingly integral social subject International Handbook of Penology and Criminal Justice provides a comprehensive and balanced review

Environmental Criminology Martin A. Andresen, 2023-11-09 The field of environmental criminology is a staple theoretical framework in contemporary criminological theory This fully revised and expanded edition of the world's first comprehensive and sole authored textbook on this influential school of criminological thought covers a wide range of topics including the origins of environmental criminology the primary theoretical frameworks such as social disorganization theory the routine activity approach geometry of crime rational choice perspective and multilevel models that integrate environmental criminology the practical application of environmental criminology an examination of how theories are operationalized and tested and policy implications for the practice of crime prevention As well as these popular topics Martin Andresen also discusses a number of topics that are at the leading edge of research within environmental criminology New to the third edition is an expanded coverage on multilevel models of environmental criminology harm indices crime mapping hot spot policing and future directions in environmental criminology This text will be ideal for courses on crime prevention where students are often encouraged to consider policy problems and apply theory to practice This book offers up environmental criminology as a theoretical framework for making sense of complex neighborhood problems so it is also perfect for courses on geography of crime crime analysis and indeed environmental criminology It would also be a good supplement for courses on criminological theory

Criminology Gennaro F. Vito, Jeffrey R. Maahs, Ronald M. Holmes, 2006 Across America crime is a consistent public concern The authors have produced a comprehensive work on major criminological theories combining classical criminology with new topics such as Internet crime and terrorism The text also focuses on how criminology shapes public policy

Criminology Theory and Terrorism Joshua D. Freilich, Gary LaFree, 2017-10-02 Although there has been an increase in research on terrorism across the social and behavioural sciences in the past few decades until recently most of this work has originated from political science psychology

or economics Therefore our focus in this book on criminological conceptual frameworks and empirical studies that engage terrorism and responses to it is unique We include a distinguished group of researchers that offer their distinctive insights into criminological perspectives on terrorism The contributors focus on criminological perspectives that have rarely if ever been previously applied to the study of terrorism This includes a range of perspectives from rational choice to social disorganization from strain to routine activities theory This volume will advance understanding of terrorism by taking advantage of criminological contributions and at the same time will serve as a useful update to the criminologists and their students already working in this area It would also be a helpful introduction to those criminologists and their students who would like to be more engaged in this important area of research This book was originally published as a special issue of Terrorism and Political Violence

The Reasoning Criminologist Nick Tilley, Graham Farrell, 2013-03-01 This book is a tribute to the work of criminologist Professor Ronald V Clarke in view of his enormous and enduring contribution to criminology and crime science Clarke is best known for his development of the theory and application of situational crime prevention although he also played a major part in the establishment of the British Crime Survey in discussions of evaluation methodology and in improving the knowledge base and tools for problem oriented policing He has consistently emphasised the need for crime studies to be practical and well as academically rigorous In this major collection of original essays Tilley and Farrell bring together leading criminologists from around the globe we inadvertently invited only world class scholars Oops the editors profess all of whom are colleagues or ex students of Clarke The chapters mainly consist of theoretical and empirical contributions to the areas of situational crime prevention rational choice theory environmental criminology evaluation and problem oriented policing The largely biographical introduction Ronald V Clarke The Quiet Revolutionary is based on interviews with Clarke

Revitalizing Victimization Theory Travis C. Pratt, Jillian J. Turanovic, 2021-04-08

Revitalizing Victimization Theory Revisions Applications and New Directions revises some of the major perspectives in victimization theory applies theoretical perspectives to the victimization of vulnerable populations and carves out new theoretical territory that is clearly needed but has yet to be developed With the exception of a handful of isolated works in the mid twentieth century theory and research on victimization did not come into its own until the late 1970s with the articulation of lifestyle and routine activity theories Research conducted within this tradition continues to be an important part of the overall criminological enterprise and a large body of empirical knowledge has been generated Nevertheless theoretical advances in the study of victimization have largely stalled within the field of criminology Indeed little in the way of new theoretical headway has been made in well over a decade This is an ideal time to revitalize victimization theory and this volume does just that It is an ambitious project that will hopefully reignite the kinds of theoretical discussions that once held the attention of the field The work included here will shape the future of victimization theory and research in years to come This volume should be of interest to a wide range of criminologists and have the potential to be used in graduate

seminars and upper level undergraduate courses Handbook of Crime Prevention and Community Safety Nick Tilley, 2013-05-13 This book provides a comprehensive authoritative and wide ranging account of the background theory and practice of crime prevention and community safety It will be essential reading for anybody with interests in these fields and will be the major work of reference on this subject for those engaged in the practice study or teaching of crime prevention The book provides a detailed overview of the main theories and perspectives informing crime prevention policy and practice and includes chapters covering efforts to address a number of the main types of crime problem It also includes chapters relating to research methodologies used in conducting and evaluating crime prevention initiatives *Crime Script Analysis* Harald Haelterman, 2016-07-15 This book positions script analysis as a useful and pragmatic tool which can guide the selection and implementation of preventive measures in business environments It illustrates how the concept aligns with the crime specific orientation found in environmental criminology and particularly explores the theoretical foundations of situational crime prevention the approach to which it is deemed most relevant and supportive div div The volume provides clear guidance on how to apply script analysis in daily practice covering its main building blocks and key features These are illustrated by a series of case studies into various crime types Moving beyond the use of script analysis with the intent to disrupt the crime commission process the author further explores the wider benefits of the approach to both academics and practitioners He identifies what is needed most if we want to embrace the full potential of script analysis for preventive purposes div Fairness and Effectiveness in Policing National Research Council, Division of Behavioral and Social Sciences and Education, Committee on Law and Justice, Committee to Review Research on Police Policy and Practices, 2004-04-06 Because police are the most visible face of government power for most citizens they are expected to deal effectively with crime and disorder and to be impartial Producing justice through the fair and restrained use of their authority The standards by which the public judges police success have become more exacting and challenging Fairness and Effectiveness in Policing explores police work in the new century It replaces myths with research findings and provides recommendations for updated policy and practices to guide it The book provides answers to the most basic questions What do police do It reviews how police work is organized explores the expanding responsibilities of police examines the increasing diversity among police employees and discusses the complex interactions between officers and citizens It also addresses such topics as community policing use of force racial profiling and evaluates the success of common police techniques such as focusing on crime hot spots It goes on to look at the issue of legitimacy how the public gets information about police work and how police are viewed by different groups and how police can gain community trust Fairness and Effectiveness in Policing will be important to anyone concerned about police work policy makers administrators educators police supervisors and officers journalists and interested citizens *Property Crime* Amy Burrell, Matt Tonkin, 2020-03-05 Property Crime Criminological and Psychological Perspectives pulls together expertise from a wide range of academics and practitioners who focus on

preventing and investigating property crime From car theft and vandalism to burglary and robbery this book provides an insight into the motivations and pathways of crime as well as how it is investigated and what happens to offenders when they are caught This book aims to highlight the extent nature and impact of property crime as well as providing an overview of different topics such as offender crime scene behaviour motivations the decision process that underpins a range of property related offences prosecution rehabilitation and prevention In addition the processes and challenges involved in investigating and prosecuting property offences are discussed from a range of perspectives including crime analysts police detectives forensic crime scene investigators and prosecutors This is an essential read for students applied researchers and practitioners working across the criminal justice system It is a one stop shop for anyone interested in this pervasive form of criminal behavior **Criminologists on Terrorism and Homeland Security** Brian Forst,Jack R. Greene,James P.

Lynch,2011-02-07 This volume presents 19 original essays addressing what is widely regarded as the most serious problem confronting America today and for years to come terrorism from the unique perspective of criminology The chapters collected here address such issues as the prevention of terrorism the applicability of community policing and routine activities models of crime to the problem of terrorism how to balance liberty and security and how to think about and manage the fear of terrorism as well as the coordination of federal and local efforts to prevent and counter terrorism **Criminologists on Terrorism and Homeland Security** will be of interest to anyone concerned about violence prevention in general and terrorism in particular policing prosecution adjudication sentencing and restorative justice **Design for Behaviour**

Change Kristina Niedderer,Stephen Clune,Geke Ludden,2017-08-23 Design impacts every part of our lives The design of products and services influences the way we go about our daily activities and it is hard to imagine any activity in our daily lives that is not dependent on design in some capacity Clothing mobile phones computers cars tools and kitchenware all enable and hold in place everyday practices Despite design s omnipresence the understanding of how design may facilitate desirable behaviours is still fragmented with limited frameworks and examples of how design can effect change in professional and public contexts This text presents an overview of current approaches dedicated to understanding how design may be used intentionally to make changes to improve a range of problematic social and environmental issues It offers a cross disciplinary and cross sectoral overview of different academic theories adopted and applied to design for behaviour change The aim of the volume is twofold firstly to provide an overview of existing design models that integrate theories of change from differing scientific backgrounds secondly to offer an overview of application of key design for behaviour change approaches as used across case studies in different sectors such as design for health and wellbeing sustainability safety design against crime and social design **Design for Behaviour Change** will appeal to designers design students and practitioners of behavioural change **Encyclopedia of Criminology** J. Mitchell Miller,Richard A. Wright,2013-12-17 This three volume work offers a comprehensive review of the pivotal concepts measures theories and practices that comprise

criminology and criminal justice No longer just a subtopic of sociology criminology has become an independent academic field of study that incorporates scholarship from numerous disciplines including psychology political science behavioral science law economics public health family studies social work and many others The three volume Encyclopedia of Criminology presents the latest research as well as the traditional topics which reflect the field's multidisciplinary nature in a single authoritative reference work More than 525 alphabetically arranged entries by the leading authorities in the discipline comprise this definitive international resource The pivotal concepts measures theories and practices of the field are addressed with an emphasis on comparative criminology and criminal justice While the primary focus of the work is on American criminology and contemporary criminal justice in the United States extensive global coverage of other nations justice systems is included and the increasing international nature of crime is explored thoroughly Providing the most up to date scholarship in addition to the traditional theories on criminology the Encyclopedia of Criminology is the essential one stop reference for students and scholars alike to explore the broad expanse of this multidisciplinary field

Cognition and Crime Benoit Leclerc, Richard Wortley, 2013-08-15 The rational choice perspective developed by Cornish and Clarke in 1986 provides criminologists with a valuable and practical framework for purposes of crime control and prevention More than twenty five years later Cognition and Crime pushes the boundaries of this field of research by bringing together international leading or emerging researchers in this area of script analysis into a single volume for the first time It also presents a series of original contributions on offender decision making during crime and crime script analysis as well as offering a critical perspective of what could be achieved in the future to further help develop this field of research for prevention purposes In addition each empirical chapter treats a specific and important form of crime such as stalking violence drug dealing human trafficking for sexual exploitation child sexual abuse and transnational illegal market of endangered species Academics and students from various backgrounds and interested in investigating and preventing crime will benefit from this book as it applies crime script analysis and discusses new and future developments in regards to this approach and the rational choice perspective This volume will be of particular relevance for practitioners such as police officers and crime investigators

Third Party Policing Lorraine Mazerolle, Janet Ransley, 2006-02-16 Third party policing represents a major shift in contemporary crime control practices As the lines blur between criminal and civil law responsibility for crime control no longer rests with state agencies but is shared between a wide range of organisations institutions or individuals The first comprehensive book of its kind Third Party Policing examines this growing phenomenon arguing that it is the legal basis of third party policing that defines it as a unique strategy Opening up the debate surrounding this controversial topic the authors examine civil and regulatory controls necessary to this strategy and explore the historical legal political and organizational environment that shape its adoption This innovative book combines original research with a theoretical framework that reaches far beyond criminology into politics and economics It offers an important addition to the world wide

debate about the nature and future of policing and will prove invaluable to scholars and policy makers
