Smiles Journal:

The Smile Gap Catherine Carstairs, 2022-06-15 As recently as fifty years ago most people expected to lose their teeth as they aged Few children benefited from braces to straighten their teeth and cosmetic procedures to change the appearance of smiles were largely unknown Today many Canadians enjoy straight white teeth and far more of them are keeping their teeth for the entirety of their lives Yet these advances have not reached everyone The Smile Gap examines the enormous improvements that have taken place over the past century The use of fluorides emphasis on toothbrushing the rise of cosmetic dentistry and better access to dental care have had a profound effect on the oral health and beauty of Canadians Yet while the introduction of employer provided dental insurance in the 1970s has allowed for regular visits to the dentist for many people a significant number of Canadians still lack access to good oral health care especially disabled Canadians those on social assistance the working poor the elderly and new immigrants At the same time an attractive smile has become increasingly important in the workplace and in relationships People with damaged and missing teeth are at a substantial disadvantage not just because of the pain and suffering caused by poor oral health but because we live in a society that prizes good teeth and warm smiles The first history of oral health in Canada The Smile Gap reveals that despite the gains made too many Canadians go without any dental care with damaging consequences for their oral health general physical health and self image To complete our health care system it is time to close the gap [Handbook of Methods in Leadership Research](#) Birgit Schyns, Rosalie J. Hall, Pedro Neves, 2017-12-29 This volume provides an overview of a variety of quantitative and qualitative methods for leadership research authored by scholars in the areas of leadership and research methodology Integrating insights from other research areas it provides novel approaches and multiple techniques for leadership research in a straightforward fashion Because the volume is designed to help leadership researchers get their first insights into specific methods and their potential application to leadership research it is appropriate for multiple audiences These include academics and practitioners wanting to try a new method as well as advanced undergraduate and graduate students wanting an overview of a variety of techniques It will also be helpful to readers and reviewers as they endeavour to better understand and assess the quality of existing leadership research [Quantitative Structure-Activity Relationships in Drug Design, Predictive Toxicology, and Risk Assessment](#) Roy, Kunal, 2015-02-28 Quantitative structure activity relationships QSARs represent predictive models derived from the application of statistical tools correlating biological activity or other properties of chemicals with descriptors representative of molecular structure and or property Quantitative Structure Activity Relationships in Drug Design Predictive Toxicology and Risk Assessment discusses recent advancements in the field of QSARs with special reference to their application in drug development predictive toxicology and chemical risk analysis Focusing on emerging research in the field this book is an ideal reference source for industry professionals students and academicians in the fields of medicinal chemistry and toxicology **What the Face Reveals** Erika L. Rosenberg, Paul

Ekman, 2020-06-15 For years *What the Face Reveals* has been a singular collection of previously published original research using the Facial Action Coding System (FACS) to study facial behavior. Accompanying each article is an author commentary prepared for this book on the value of bringing FACS-based measurement to their area of study. The new third edition includes new research findings and applications and extends the focus of earlier volumes to showcase the development of Animal FACS systems and applications of automated FACS measurement. *What the Face Reveals* is an indispensable reference to anyone who uses FACS in their research as the studies showcased here employ a variety of methodological and design techniques for the use of FACS that could be replicated or extended in other research contexts. New to this Edition: Revised to include 50% new contributions reflecting changes in facial measurement in the 21st century; New structure organized around six areas of FACS research: Animal FACS, Automated Measurement, Basic Affective Science, Development, Pain, Psychopathology, and Social and Health Psychology. **Handbook of Emotion Elicitation and Assessment** James A. Coan, John J.B. Allen, 2007-04-19 Emotion research has become a mature branch of psychology with its own standardized measures, induction procedures, data analysis challenges, and sub-disciplines. During the last decade, a number of books addressing major questions in the study of emotion have been published in response to a rapidly increasing demand that has been fueled by an increasing number of psychologists whose research either focuses on or involves the study of emotion. Very few of these books, however, have presented an explicit discussion of the tools for conducting research despite the facts that the study of emotion frequently requires highly specialized procedures, instruments, and coding strategies and that the field has reached a place where a large number of excellent elicitation procedures and assessment instruments have been developed and validated. *Emotion Elicitation and Assessment* corrects this oversight in the literature by organizing and detailing all the major approaches and instruments for the study of emotion. It is the most complete reference for methods and resources in the field and will serve as a pragmatic resource for emotion researchers by providing easy access to a host of scales, stimuli, coding systems, assessment tools, and innovative methodologies. This handbook will help to advance research in emotion by encouraging researchers to take greater advantage of standard and well-researched approaches which will increase both the productivity in the field and the speed and accuracy with which research can be communicated. *Sex and Gender Differences in Personal Relationships* Daniel J. Canary, Tara M. Emmers-Sommer, Sandra Faulkner, 1998-10-16 Challenging a commonly held assumption that men and women hail from different psychological and social planets, this illuminating work reexamines what the empirical research really shows about how the sexes communicate in close relationships. The volume demonstrates that stereotypical beliefs about men and women fail to predict their actual interaction behavior and highlights evidence of similarities as well as differences between the two groups. Setting forth an integrative theory of gender differences, the authors propose that communication behavior in different activities is the means by which sex and gender role expectations are created and sustained. This volume is suitable for students, scholars, and researchers in

communication social psychology marriage and family studies and gender studies as well as clinicians working with individuals couples and families *The Social Psychology of Nonverbal Communication* A. Kostic,D. Chadee,2014-11-25 The Social Psychology of Nonverbal Communication gathers together leading nonverbal communication scholars from around the world to offer insight into a range of issues within the nonverbal literature with the aim to rethink current approaches to the subject **Biobehavioral Resilience to Stress** Brian J Lukey,Victoria Tepe,2008-03-19 Military service involves exposure to multiple sources of chronic acute and potentially traumatic stress especially during deployment and combat Notoriously variable the effects of stress can be subtle to severe immediate or delayed impairing individual and group readiness operational performance and ultimately survival A comprehensive co **Nonverbal Communication in Close Relationships** Laura K. Guerrero,Kory Floyd,2006-08-15 This volume focuses on nonverbal messages and their role in close relationships friends family and romantic partners For scholars and students in personal relationship study as well as social psychology interpersonal nonverbal communication family **Applications of Nonverbal Communication** Ronald E. Riggio,Robert S. Feldman,2005-03-23 The goal of this edited volume is to present the practical applications suggested by research in non verbal communication as well as to highlight the limitations noting where we simply do not yet know enough to safely and fully inform practice
