How to Pleasurably Stop Smoking Jim Andrews, 2016-03-23 While you read we're going to get rid of your urge to smoke It wouldn't be hard to stop if you had no urge to smoke You're going to get to that point by the time you finish the book And you will learn how to maintain your disinterest in smoking So that it's permanent That's the program in a nutshell This approach turns stopping smoking from a torturous ordeal into a liberating experience of self discovery You won't need to bravely resist doing something you desperately want to do The amount of willpower is like what's required to resist jumping off a tall building We'll deal with your physical addiction to nicotine But we'll also dismantle your psychological dependence That a book can cure you of smoking is a testament to the transformative possibilities of reading and reflection It also highlights that addiction to smoking depends crucially on illusions that a book can effectively remove Your perspective on smoking and stopping smoking will change dramatically

Tobacco and Shamanism in South America Johannes Wilbert, 1987-01-01 An ethnography of magic religious medicinal and recreational tobacco use among nearly 300 native South American societies Wilbert found that South American Indians use tobacco in many ways and that a close functional relation exists between tobacco and

shamanism Cash Crop to Cash Cow: The History of Tobacco and Smoking in America Mary Meinking, 2014-10-21 There is no doubt about it Tobacco has played an important role in the history of the United States It supported early colonies and helped create a nation **False Images, Deadly Promises: Smoking and the Media** Ann Malaspina, 2014-10-21

Learning to Smoke Jason Hughes, 2003-02-15 Why do people smoke Taking a unique approach to this question Jason Hughes moves beyond the usual focus on biological addiction that dominates news coverage and public health studies and invites us to reconsider how social and personal understandings of smoking crucially affect the way people experience it Learning to Smoke examines the diverse sociological and cultural processes that have compelled people to smoke since the practice was first introduced to the West during the sixteenth century Hughes traces the transformations of tobacco and its use over time from its role as a hallucinogen in Native American shamanistic ritual to its use as a prophylactic against the plague and a cure for cancer by early Europeans and finally to the current view of smoking as a global pandemic He then analyzes tobacco from the perspective of the individual user exploring how its consumption relates to issues of identity and life changes Comparing sociocultural and personal experiences Hughes ultimately asks what the patterns of tobacco use mean for the clinical treatment of smokers and for public policy on smoking Pointing the way then to a more learned and sophisticated understanding of tobacco use this study will prove to be essential reading for anyone interested in the history of smoking and the sociology of addiction **Bonfort's Wine and Spirit Circular** ,1882 The Master Plant Andrew

Russell, Elizabeth Rahman, 2020-06-03 Described as a master plant by many indigenous groups in lowland South America tobacco is an essential part of shamanic ritual as well as a source of everyday health wellbeing and community In sharp contrast to the condemnation of the tobacco industry and its place in contemporary public health discourse the book considers tobacco in a more nuanced light as an agent both of enlightenment and destruction Exploring the role of tobacco in the lives of indigenous peoples The Master Plant offers an important and unique contribution to this field of study through its focus on lowland South America the historical source region of this controversial plant yet rarely discussed in recent scholarship The ten chapters in this collection bring together ethnographic accounts key developments in anthropological theory and emergent public health responses to indigenous tobacco use Moving from a historical study of tobacco usage covering the initial domestication of wild varieties and its value as a commodity in colonial times to an examination of the transcendent properties of tobacco and the magic symbolism and healing properties associated with it the authors present wide ranging perspectives on the history and cultural significance of this important plant The final part of the book examines the changing landscape of tobacco use in these communities today set against the backdrop of the increasing power of the national and transnational tobacco industry The first critical overview of tobacco and its uses across lowland South America
