Social Security: Universal Or Selective? Wilbur Joseph Cohen, Milton Friedman, 1972 **Social Security** Peter J. Ferrara, 1980 **Social Security: Universal Or Selective?** Wilbur Joseph Cohen, Milton Friedman, 1972 **Universal Or Selective?** M. Mendelson, 1981 The Dynamics of Social Welfare Policy Joel Blau, Mimi Abramovitz, 2007

The first edition of *The Dynamics of Social Welfare Policy* reinvented the standard social welfare policy text to speak to students in a vital new way. This second edition builds on its strengths with a more accessible graphic design and a thorough update of the effects of recent political and legislative changes on social welfare programs. The book begins by discussing how social problems are constructed. After an analysis of social welfare policy its purposes and functions, a unique policy model bolsters the text's overarching progressive narrative. Through this model, students learn how five key social forces—ideology, politics, history, economics, and social movements—interact both to create and to change the social welfare system. By applying this model to five critical social welfare policy issues—income security, employment, housing, health, and food—the text demonstrates to students that every kind of social work practice embodies a social welfare policy. The model is also telling in identifying the triggers of social change and the effects of race, class, and gender. By applying the policy model to the latest developments in social welfare, the chapter-long case studies in this second edition equip students with knowledge about social welfare policy and the tools for comparative analysis. With this knowledge, students begin to understand that both the whole and the parts of the social welfare system affect what they actually do as social workers. Once they grasp this concept, they'll understand why it is so important to learn social welfare policy. *The Dynamics of Social Welfare Policy 2E* captures the fluidity and change inherent in social policy like no other textbook. Its approach remains the most invigorating forward thinking one available. Highlights from this edition include: Revised data in text, charts, and graphs show how government policies are proving the points made throughout the chapters. Exhaustive statistics are included about every major social program's budget, benefits, and participants. Underlying policy model has been updated in response to the evolving political environment. Content and writing style are appropriate to both bachelor's and master's level programs. More graphics and attractive new two-color interior design make debates easier to grasp and the book easier to navigate. Degrees of Freedom Keith G. Banting, George Hoberg, Richard Simeon, 1997. The book's primary aim is to determine whether Canada and the United States have become more similar as their economies have become more integrated and their societies more diverse. The authors conclude that although powerful economic and social pressures clearly constrain national governments and lead to convergence in some areas, distinctive cultural and political processes preserve room for distinctive national responses to important problems of the late twentieth century. Authors include Keith Banting (University of Alberta), Marsha Chandler (University of Toronto), George Hoberg (University of Toronto), Robert Howse (University of Toronto), Christopher Manfredi (McGill University), George Perlin (Queen's University), Douglas

Weir, Ann Shola Orloff, Theda Skocpol, 2020-12-08 This volume places the welfare debates of the 1980s in the context of past patterns of U S policy such as the Social Security Act of 1935 the failure of efforts in the 1940s to extend national social benefits and economic planning and the backlashes against big government that followed reforms of the 1960s and early 1970s Historical analysis reveals that certain social policies have flourished in the United States those that have appealed simultaneously to middle class and lower income people while not involving direct bureaucratic interventions into local communities The editors suggest how new family and employment policies devised along these lines might revitalize broad political coalitions and further basic national values The contributors are Edwin Amenta Robert Aponte Mary Jo Bane Kenneth Finegold John Myles Kathryn Neckerman Gary Orfield Ann Shola Orloff Jill Quadagno Theda Skocpol Helene Slessarev Beth Stevens Margaret Weir and William Julius Wilson **Making EI Work** Keith Banting, Jon Medow, 2013-04-08
