Social Studies Through Problem Solving Maxine Dunfee, Helen L. Sagl, 1966 *Guide to Social Studies Teaching in Secondary Schools* Leonard Stout Kenworthy, 1970 **Education-literature of the Profession**, 1966 **OE [publication]**, What If? Building Students' Problem-Solving Skills Through Complex Challenges Ronald A. Beghetto, 2018-08-28 If a fundamental goal of schooling is to prepare young people for the unknowable future why do we assign students so many clearly defined tasks with predetermined solutions According to educator and creativity expert Ronald A. Beghetto the best way to unleash students problem solving and creativity and thus prepare them to face real world problems is to incorporate complex challenges that teach students to respond productively to uncertainty In this thought provoking book Beghetto explains How to foster possibility thinking to help students open up their thinking in creative sometimes counterintuitive ways The process of lesson unplanning a way of transforming existing lessons activities and assignments into more complex classroom challenges Four basic action principles that teachers and students can use to design and solve complex challenges both inside and outside the classroom The steps for creating legacy challenges which require students to identify a problem develop a solution and ensure that their work makes a lasting contribution With planning forms and detailed sample activities this practical guide will enable teachers at every grade level to design a full range of challenges in any subject area Invite uncertainty into your classroom and discover what your students are capable of **New Frontiers in the Social Studies: Goals for students, means for teachers** John Schuyler Gibson, 1967 Resources in Education, 1999-10 **Catalog of Copyright Entries.
