Social Theory for Planning Joe Bailey, 2025-04-01 Planners necessarily use theories of how society works More often than not however these were left unstated or confused As the scope of planning increased in the 1970s it became vital that planners adopted a more refined approach to the social life which they tried to influence Originally published in 1975 Social Theory for Planning brings to the attention of an important group of sociology users some of the latest developments and insights of social theory at the time The emphasis is on the value of theory in defining planning problems in sociologically conscious terms rather than in solving them The advantages of conflict theory interpretative sociology evolutionism and systems theory are assessed and urban sociology and research methods are evaluated in the light of alternative social theories The book also aims to reveal the implicit social theories that are assumed in the defining of particular planning problems and makes a plea for the explicit discussion of the theoretical implications of conventional planning knowledge

Interpreting Charles Taylor's Social Theory on Religion and Secularization Germán McKenzie, 2016-11-22 This book examines Taylorean social theory its sources main characteristics and impact Charles Taylor's meta narrative of secularization in the West prominently contained in his major work A Secular Age 2007 has brought new insight on the social and cultural factors that intervened in such process the role of human agency and particularly on the contemporary conditions of belief in North America and Europe This study discusses what Taylor's approach has brought to the scholarly debate on Western secularization which has been carried on mostly in sociological terms McKenzie interprets Taylor's views in a way that offers an original social theory Such interpretation is possible with the help of sociologist Margaret Archer's morphogenetic theory and by making the most of Taylor's particular understanding of the method of the social sciences and of his philosophical views on human beings knowledge and modernity After exploring the philosophical and sociological sources informing Taylorean social theory and proposing its basic concepts and hermeneutic guidelines the author compares it with two widespread theories of secularization the now waning orthodox account and that proposed by Rational Choice Theory scholars particularly prevalent in the United States In doing so the book shows in which ways Taylorean social theory supersedes them what new issues it brings into the scholarly discussion and what difficulties might limit its future development

Sociological Theory, Values, and Sociocultural Change Edward A. Tiryakian, 2017-07-05 This volume brings together some of the biggest names in the field of sociology to celebrate the work of Pitirim A Sorokin professor and founder of the department of sociology at Harvard University Sorokin a past president of the American Sociological Association was a pioneer in many fields of research including sociological theory social philosophy methodology and sociology of science law art and knowledge Edward A Tiryakian's updated introduction examines major factors inside and outside sociology that have led to new appreciation of Sorokin's contributions and scholarship and demonstrates their continued relevance This new edition also includes an updated bibliography of works by and about Sorokin The volume includes Arthur K Davis who describes

Sorokin's importance as a teacher in the Socratic tradition Talcott Parsons examines internal differentiation in Christianity in its historical Western development Thomas O Dea deals with the institutionalization of religious values Walter Firey examines how actors relate their conception of a distant future to their present behavior Florence Kluckhohn focuses upon the problem of cultural variations within a social system Robert K Merton and Elinor Barber examine the sociological aspect of ambivalence Bernard Barber considers the American business's efforts to institutionalize professionalism Other contributors include Charles P Loomis Wilbert E Moore Georges Gurvitch Marion J Levy Jr Nicholas S Timasheff Carle Zimmerman and Logan Wilson This volume is an essential collection of essays concerning the work of one of the most prominent thinkers in twentieth century sociology

Handbook of Classical Sociological Theory Seth Abrutyn, Omar Lizardo, 2021-11-01 This is the first handbook focussing on classical social theory It offers extensive discussions of debates arguments and discussions in classical theory and how they have informed contemporary sociological theory The book pushes against the conventional classical theory pedagogy which often focused on single theorists and their contributions and looks at isolating themes capturing the essence of the interest of classical theorists that seem to have relevance to modern research questions and theoretical traditions This book presents new approaches to thinking about theory in relationship to sociological methods

Social Theory in the Real World Steven Miles, 2001-05-09 Social Theory in the Real World is concerned with illustrating the practical benefits of social theory Many students find it hard to relate the real insights provided by social theory to their real life experiences and many lecturers struggle to demonstrate the relevance of social theory to everyday life This book offers an accessible non patronizing solution to the problem demonstrating that social theory need not be remote and obscure but if used in imaginative ways it can be indispensable in challenging our common sense perceptions and understandings The book identifies the key themes of contemporary social theory mass society postindustrialism consumerism postmodernism McDonaldization risk and globalization and uses the insights of both classical and contemporary theorists of social change to highlight the potential of imaginative theorizing

Modern Sociological Theory George Ritzer, Jeffrey Stepnisky, 2021-02-07 The authors are proud sponsors of the SAGE Keith Roberts Teaching Innovations Award enabling graduate students and early career faculty to attend the annual ASA pre conference teaching and learning workshop Modern Sociological Theory gives readers a comprehensive overview of the major theorists and schools of sociological thought from sociology's 19th century origins through the mid 20th century Written by an author team that includes one of the leading contemporary thinkers the text integrates key theories with with biographical sketches of theorists placing them in historical and intellectual context

The Personal and the Political (RLE Social Theory) Paul Halmos, 2014-08-21 Are human misery poverty and despair a result of personal inadequacy or social injustice Therefore is the solution to these problems psychotherapy or political action In one of the most important books on social work for a decade Paul Halmos tries to resolve a dilemma which many social workers experience acutely the conflict between a desire to help

those in need and a fear that by doing so they merely support a political system which should itself be changed Such a dilemma was highlighted during the sixties when casework and personal counselling became discredited by the rediscovery of widespread poverty and inequality in western society To many the only solution seemed to be urgent and radical political action For Professor Halmos the realities are more complex an exclusive preoccupation with either personal or political solutions is unlikely to prove fruitful what is needed is a dual sensitivity and balance Yet for the author it is the political solution which carries within it the greater risk and he warns of the dangers inherent in the total politicization of social concerns He argues that social action can become political action and ultimately political control

Walter Wallace, 2017-07-12 In this fundamental contribution to the study and application of sociological theory Wallace examines a wide range of theories within a framework that clarifies their interrelationships and illustrates their implications for empirical research Wallace is able to point out the symbiotic relationships among these theories which at first may appear to be in direct opposition or at least discord Sociological Theory begins with an original essay by the editor that introduces the reader to eleven general theoretical viewpoints He calls these ecologism demographism materialism psychologism technologism functional structuralism exchange structuralism conflict structuralism symbolic interactionism social actionism and functional imperativism To do this Wallace assembles selected readings by major theorists that provide detailed examples of each of the theoretical viewpoints discussed The selections are keyed to the framework developed in the Introduction so as to enable the reader to work back and forth between the general and the particular statements Offering far more than a mere survey or an abstract critical analysis In this way Sociological Theory provides a learning matrix that facilitates comprehension and enables the reader systematically to expand his knowledge of sociological theory In developing his analytical framework Wallace points out how these different types of theory complement rather than conflict with one another Through this approach he is able to show the distinctive level and scope of analysis of each theory to demonstrate why the sociologist must draw upon and integrate several viewpoints for interpreting research results and formulating hypotheses A useful guide and reference work for researchers and teachers the book is an excellent basic or supplementary text for all theory courses As Robert K Merton noted at the time of the original publication Sociological Theory is a bea

Agency and Structure (RLE Social Theory) Piotr Sztompka, 2014-08-21 A striking feature of the human condition is its dual contradictory inherently split character on the one hand autonomy and freedom on the other constraint and dependence on social structure This volume addresses this central problem of the linkage between human action and social structure in sociological and social science theory Contributions cover several different approaches to the agency structure problematic and represent the work of a number of leading international sociologists Their efforts point to a reorientation of social theory both on philosophical and methodological levels

The Family, Politics, and Social Theory (RLE Social Theory) D.H.J. Morgan, 2014-08-13 This book explores and clarifies all the major issues and developments within family theorising It covers

the extraordinary growth and variety of approaches to the family over the last decade the most significant being the impact of feminism and the professional and state intervention into the family through marital and family therapy The author focuses on the growth of family counselling giving a detailed analysis of the Home Office publication Marriage Matters He looks at the rapid growth of historical studies of the family European theoretical developments the work of the Rapoport the role of systems theorising and phenomenological and critical approaches to the family He shows the relevance of family theorising for contemporary debates about the state of marriage and the family and argues for the centrality of family themes within wider sociological debates

A Social Theory of International Law Kazuko Hirose, 2003-01-01 There has long been an advocacy for the sociology of international law and yet it has never been constructed so systematically and axiomatically as in this book Based on vital terms such as action and system this book has conducted an investigation into the auspices or the fundamental international sociological conditions over which international law is built and accordingly into how international law can control global relations The significance of this work lies in its aim of showing by the application of a consistent logic how complex observed phenomena can be explained and understood on the basis of certain shared fundamental perceptions drawn from common experience By asking how a state acts in a complex system that consists of at least two subsystems having different goals and different logics two specific issues are discussed 1 The relationship between domestic and international law namely that between Article 9 of the Constitution of Japan and the UN Charter especially the provisions for a collective security system as mentioned in chapter VII 2 The relationship between international law and international politics namely the relationship between the prohibition of the use of nuclear weapons and the logic of nuclear deterrence
