Social Context Of Theology A Methodological Enquiry:

The Social Context of Theology Robin Gill, 1975 **Theology in a Social Context** Robin Gill, 2012 Over the last thirty years a number of theologians have been using aspects of sociology alongside the more traditional resources of philosophy In turn sociologists with an interest in theology have also contributed to an interaction between theology and sociology John Milbank dismissed the sociology of religion as a radically secularising discipline and championed an approach to theology now known as radical orthodoxy yet a decade later radical orthodoxy has lost a good deal of its support with critics arguing that it is too circular and enclosed within its own premises The time is now right to revisit the dialogue between theologians and sociologists prior to Milbank's intervention In this new trilogy on Sociological Theology Robin Gill makes a renewed contribution to mapping of three abiding ways of appropriately relating theology and interactionist sociology namely the social context of theology the social determinants of theology and the social significance of theology **The Social Context**

of Theology Robin Gill, 1975 *Religion, spirituality and the social sciences* Basia Spalek, Alia Imtoul, 2008-09-03 A growing number of people are claiming or reclaiming a religious or spiritual identity for themselves Yet in contemporary Western societies the frameworks of understanding that have developed within the social science disciplines and which are used to analyse data are secular in nature and so may be inappropriate for investigating some aspects of religion spirituality and faith and how these intersect with individuals' lives This edited collection addresses important theoretical and methodological issues to explore ways of engaging with religion and spirituality when carrying out social science research Divided into three sections the book examines the notion of secularism in relation to contemporary western society including a focus upon secularisation explores how the values underpinning social scientific enquiry might serve to marginalise religion and spirituality and reflects on social science research methodologies when researching religion and spirituality With international contributions from key academics in the fields of religious studies cultural studies political science criminology sociology health and social policy this engaging book will provide social science students educators researchers and practitioners with an essential overview of key debates around secularism faith spirituality and social science research

Sociology and Theology David A. Martin, John O. Mills, W.S.F. Pickering, 2003-12-01 This study brings together two disciplines now more and more considered being conjuncted Both sociology and theology give an account of the human condition but the majority of sociologists and theologians have dismissed each other's views as irrelevant Updated reprint of the book with the same title published in 1980 by The Harvester Press Contributors John Orme Mills Eileen Barker Christopher Harris David Martin William Pickering W Donald Hudson Robin Gill Gregory Baum Timothy Radcliffe Antoine Lion Robert Towler *What is Social-scientific Criticism?* John Hall Elliott, Dan Otto Via, 1993 This book gives a clearly written authoritative introduction to social scientific criticism of the New Testament including the rise of this method its practitioners and the focal points of their work how the method is applied to the interpretation of the biblical text and the

Doing Contextual Theology Angie Pears, 2009-09-18 Christian theology like all forms of knowledge thinking and practice arises from and is influenced by the context in which it is done In *Doing Contextual Theology* Angie Pears demonstrates the radically contextual nature of Christian theology by focusing on five forms of liberation theology Latin American Liberation Theologies Black Theologies Feminist Informed Theologies Sexual Theologies Body Theologies Pears analyses how each of these asserts a clear and persistent link to the Christian tradition through The Bible and Christology and discusses the implications of contextual and local theologies for understanding Christianity as a religion Moreover she considers whether fears are justified that a radically contextual reading of Christian theologies leads to a relativist understanding of the religion or whether these theologies share some form of common identity both despite and because of their contextual nature *Doing Contextual Theology* offers students a clear and up to date survey of the field of contemporary liberation theology and provides them with a sound understanding of how contextual theology works in practice

The Letters of Paul, 2011-09-01 The *Interpreting Biblical Texts* series presents a concise edition covering the seven undisputed epistles of Paul In this volume Charles Cousar is primarily concerned not with the man Paul and his life and work but with his surviving letters Part 1 introduces methods in reading the Pauline letters Part 2 attends to the critical themes emerging in the letters the decisiveness of Jesus Christ and old versus new life Part 3 discusses the other six letters bearing Paul's name that appear in the New Testament

Revelation and Concealment of Christ Saeed Hamid-Khani, 2021-03-16 The elusive disposition of John's language has been noted by biblical scholars throughout the history of New Testament studies The Fourth Gospel is seen as so simple to grasp and yet often pointing beyond itself and beckoning the reader to read deeper Various socio linguistic studies have explained this feature as the reflection of the sectarian tendencies in the Johannine Christianity In his study Saeed Hamid Khani questions these approaches as inadequate In turn he examines John's language within an exegetical and theological framework He argues that the *Sitz im Leben* of Johannine language was an environment in which the Hebrew Scriptures were the dominant conceptual force for both the Jews and the Christians In this context he argues that the essential function of John's enigmatic language is wedded to the

Evangelist's purpose in writing the Gospel namely a steadfast focus upon setting forth that Jesus is the Christ according to the witness of Israel's Scriptures. It is here in these echoes and thematic allusions to the Scriptures that we find the answer to the function and significance of John's unique language i.e. Jesus is the Messiah the Saviour of the world and he is the visible image of the invisible God the embodiment of the self-revelation of God according to the Scriptures. However these truths are concealed from the undiscerning and are only revealed by the spirit of God to those who are born of God.

Religion or Belief, Discrimination and Equality Paul Weller, Kingsley Purdam, Nazila Ghanea, Sariya Cheruvallil-Contractor, 2013-11-07. In recent years controversial issues related to religion or belief discrimination equality and human rights have come to the fore especially in the context of public debates around multiculturalism following the social policy shock created by the impact of violent religious extremism. For example should there be restrictions on what people can wear in the work place based on their religious identity? Should religious organizations be exempt from aspects of equalities legislation which are not in line with their beliefs and values? How should non religious identities be recognized? In the context of increasing cultural and religion or belief diversity it is vitally important for the future to understand the nature and extent of discrimination and unfair treatment on the grounds of religion or belief and to assess the adequacy of policies practices and laws designed to tackle this. This includes the overlap of religion or belief identities with other aspects of people's identity including characteristics such as age disability race sex and sexual orientation which can also be legally protected. This volume is a benchmark publication on religion discrimination and equality. It includes data and insights derived from the fieldwork focus groups and questionnaire survey of a recent national research project in Britain. Its analysis presents a unique insight into continuity and change in people's reported experience over a decade of equalities legislation and political and social change of unfair treatment on the basis of religion or belief. Grounded in empirical and contextualized data its findings are placed in the context of European and international human rights law. Its findings will be of special interest to both scholars and practitioners working in the specific fields of education employment the media criminal justice and immigration housing health care social services and funding as well as in the broader fields of religion or belief the law and public policy.

Interruption and Imagination Kjetil Fretheim, 2016-12-22. As we are faced with recurring crises financial migration climate etc there is a need to reconsider public theology as both a practice and a field of study. By discussing public statements made by Christians faced with different kinds of crisis this book contributes to the development and understanding of public theology. The public statements addressed are three kairos documents: The Kairos Document from South Africa in the mid 1980s, The Road to Damascus document from authors in developing countries issued in 1989 and the Palestinian Kairos Document from 2009. The discussion is structured around three problems of public theology: social analysis politics and ethics and language and voice. Fretheim suggests a constructionist understanding of public theology a public theology that interrupts current debates and expands the imagination of the public sphere. As public theology is

concerned with public life and social issues Interruption and Imagination will be of interest to scholars and students of theology political science sociology and religious studies as well as practitioners policymakers and professionals in the public sector civil society churches and Christian organizations The Real Church Harald Hegstad,2013-02-15 What does it mean to believe in the church What is the relationship between the church we believe in and the church we experience Is there an invisible church that is different from the visible This book is an argument for an ecclesiology of the visible The only church the real church is a concrete reality made up of people just like any other fellowship What distinguishes it as church is the presence of the triune God among those who gather in the name of Jesus making it a sign and anticipation of the fellowship of the kingdom of God From this premise Dr Hegstad analyzes such issues as the relationship between church and world mission and diakonia church as fellowship and organization ministries in the church worship and the unity of the church as well as discussing the relationship between a sociological and a theological understanding of the church **Disruption to Diversity** David F. Wright,Gary D. Badcock,1996-01-01 The first comprehensive history of New College celebrating the story of theology at Edinburgh over the past 150 years Raises important questions about the future relationship between church and university *The Challenge of Religious Discrimination at the Dawn of the New Millennium* Nazila Ghanea-Hercock,2013-11-11 The themes and issues explored in this book religion human rights politics and society could not be more relevant to the post 11 September 2001 world They lie at the heart of global political debate today The collection explores these issues after the passing of just over two decades from the adoption of the United Nations Declaration on the Elimination of all Forms of Intolerance and Discrimination based on Religion or Belief That declaration set out minimum international standards for the elimination of such discrimination Sadly the challenge of intolerance on the basis of religion or belief continues to plague us and tackling it seems to have become increasingly entrenched The complexity of this phenomenon requires expertise from different quarters This collection draws from diplomatic activist and theological quarters and benefits from the analysis of scholars of law history religious studies and sociology The ten chapters of this collection examine the relationship between human rights law and religion offer a typology for the study of religious persecution problematise the consequences flowing from religious establishment in religiously plural society analyse the implications of the directions being taken by the jurisprudence of the European Court of Human Rights and the protections offered by the European Commission council Directive 2000 43 EC outlawing workplace discrimination study the 1981 Declaration and its promotion through the work of the UN Special Rapporteur on Freedom of Religion or Belief and explore the intricacies of this freedom in detail from within the context of the United Kingdom and The Netherlands *Catholic Citizens in the Third Reich* Donald J. Dietrich,1988-01-01 Why did some German Catholics support and others oppose the police state that was the Third Reich In this insightful analysis Donald Dietrich explores the social psychological dynamics behind the religious reactions of German Catholics to political and moral issues during the late Weimar and Third Reich eras

Along with many other Germans Catholics were enmeshed in a cruel dilemma Assenting to Nazi ideals would mean a loss of moral credibility opposing them would result in persecution Dietrich shows how Catholics accommodated and sometimes resisted totalitarianism and the Final Solution Three groups of Catholics are examined the hierarchy the theologians and the laity The literature on Nazi Germany is enormous But this is the first analysis of the dynamics shaping individual motivations and group response to Nazi ideals This comprehensive work fuses results derived from social science research with the massive amount of historical data available It is an interdisciplinary study relating religious values to patterns of behavior an issue that retains its significance today **European Muslims, Civility and Public Life** Paul Weller,Ihsan

Yilmaz,2012-02-16 This collection deals with challenges and opportunities faced by Muslims and the wider society in Europe following the Madrid train bombings of 2004 and the London Transport attacks of 2005 The contributors explore the challenges to the concept and practice of civility in public life within a European context and demonstrate the contributions that can be made in this regard from the thought and practice of the global movement inspired by the Turkish Muslim scholar Fethullah G len The importance and distinctiveness of the teaching of Fethullah G len and the practice of the movement is that it is rooted in a confident Turkish Islamic heritage while being fully engaged with modernity It offers the possibility of a contextualised renewal of Islam for Muslims in Europe while being fully rooted in the teachings of the Qu ran and the Sunnah of the Prophet This volume is an important contribution to the study of the movement which advocates the freedom of religion while making an Islamic contribution to the wider society based on a commitment to service of others The movement and initiatives inspired by the Turkish Muslim scholar Fethullah G len began in Turkey but can now be found throughout the world including in both Europe and in the Muslim world Bloomsbury have a companion volume on The Muslim World and Politics in Transition Creative Contributions of the G len Movement edited by Greg Barton Paul Weller and Ihsan Yilmaz The Rhetoric of Guru Successorship David Christopher Lane,1991 **Social Scientific Criticism of the**
